Myth And Guilt The Crime And Punishment Of M:

The Late Sigmund Freud Todd Dufresne, 2017-03-24 Freud is best remembered for two applied works on society The Future of an Illusion and Civilization and its Discontents Yet the works of the final period are routinely denigrated as merely supplemental to the earlier more fundamental discoveries of the unconscious and dream interpretation In fact the cultural Freud is sometimes considered an embarrassment to psychoanalysis Dufresne argues that the late Freud as brilliant as ever was actually revealing the true meaning of his life s work And so while The Future of an Illusion Civilization and its Discontents and his final work Moses and Monotheism may be embarrassing to some they validate beliefs that Freud always held including the psychobiology that provides the missing link between the individual psychology of the early period and the psychoanalysis of culture of the final period The result is a lively balanced and scholarly defense of the late Freud that doubles as a major reassessment of psychoanalysis of interest to all readers of Freud

Osman,2018-07-15

Psychodynamics Commencing in Early Childhood The Case for an Additional Tripartite Complex defines delineates and demonstrates the usefulness of an earlier variant of the Oedipus Complex a complex first manifesting itself with the onset of separation individuation and ending around the age of three Of course a child younger than three years of age has not matured to the degree of selfhood or become the psychically separate entity that with usual maturation and development are the attributes of the older child of the Oedipus complex proper Under these circumstances the tripartite psychodynamics that are characteristic of and derived from the earlier period will differ from the better known triadic psychodynamics of Freud s Oedipus complex proper This book presents clinical case studies psychological research and psychological understandings from other fields of endeavor that focus on and document psychodynamics of the complex of the earlier age period and their reverberations throughout life The material that is presented in this book is theoretically and clinically significant and the psychodynamics it elucidates has heretofore not been sufficiently recognized and appreciated *The Jokes of Sigmund Freud* Elliott Oring,2007-04-16 The Jokes of Sigmund Freud unravels the intimate connections between Sigmund Freud and

his Jewish identity Author Elliott Oring observes that Freud frequently identified with the characters in the jokes he told and that there was a strong relationship between these jokes and his own psychological and social state This analysis offers novel insights into the enigmatic character of Freud and a fresh perspective on the nature of the science that he founded

The Rhetoric of Religion Kenneth Burke, 1970-04 But the point of Burke s work and the significance of his achievement is not that he points out that religion and language affect each other for this has been said before but that he proceeds to demonstrate how this is so by reference to a specific symbolic context After a discussion On Words and The Word he analysess verbal action in St Augustine s Confessions He then discusses the first three chapters of Genesis and ends with a brilliant and profound Prologue in Heaven an imaginary dialogue between the Lord and Satan in which he proposes that we begin our study of human motives with complex theories of transcendence rather than with terminologies developed in the use of simplified laboratory equipment Burke now feels after some forty years of search that he has created a model of the symbolic act which breaks through the rigidities of the sacred secular dichotomy and at the same time shows us how we get from secular and sacred realms of action over the bridge of language Religious systems are systems of action based on communication in society They are great social dramas which are played out on earth before an ultimate audience God But where theology confronts the developed cosmological drama in the grand style that is as a fully developed cosmological drama for its religious content the logologer can be further studied not directly as knowledge but as anecdotes that help reveal for us the quandaries of human governance Hugh Dalziel Duncan from Critical Responses to Kenneth Burke 1924 1966 edited by William H Rueckert Minneapolis University of Minnesota Press 1969

Women and Sacrifice William Beers, 1992 Women and Sacrifice is an original and lucid book that explores the anthropology and developmental psychology of male violence in blood sacrifice and its implications in religion and culture It is the first comprehensive study of the psychology of gender and religion using the controversial ideas of Heinz Kohut and self psychology Beers not only makes an important contribution to our psychological understanding of sacrifice he explores how narcissistic anxiety fuels rituals and social structures that subordinate women He bases his provocative theory on three general premises sacrifice is traditionally performed only by men the gender specificity of sacrifice can be traced to gender specific developments of men and women and is reflected in religions throughout the world and the male violence of sacrifice

is related to other forms of male violence Beers reviews the theories of symbol formation of Freud Jung Klein and Winnicott and argues that Kohut's self psychology is more appropriate for understanding the psychology of symbolic ritual The psychological claims in the book are presented in the context of social structures cultural expressions and individual and group history Beers includes critiques of such leading theorists of ritual and sacrifice as Durkheim Levi Strauss Douglas Turner Geertz Freud Jung and Girard In analyzing sacrifice among the Malekulans of Melanesia and the eucharist of the American Episcopal Church Beers develops the theory that such rituals have a psychological function that diminishes and controls women He claims that men so fear women that religious ritual excludes women in order that men can gain and retain power over them BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

The Sign of the Cross Daniel Rancour-Laferriere, 2017-09-08 This book presents a unique effort to create a new understanding of the Christian sign of the cross At its core it traces the conscious and unconscious influence of this visual symbol through time What began as the crucifixion of a Jewish troublemaker in Roman occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment a cross The author argues that Jesus was a provocative grandiose masochist whose suffering and death initially signified redemption for believers This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non believers however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour Laferriere's book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion

Paternity as Function Vassilis Saroglou, 2021-09-13 Faced with the contemporary proliferation of a religion of emotional communities and the multiplication of gurus spiritual directors and masters the psychologist of religion should question the impact of the paternal function on the structuring of religious experience This question is examined here within the context of ancient monasticism and on the basis of ascetic sources mainly the Ladder of John Climacus 7th c as well as by means of the analysis of rituals such as baptism and monastic profession The author demonstrates that the spiritual father refers to paternity as function and that this function is both structural and structuring with respect to religious experience It is also examined how this crossroads concept of fatherhood is linked to other psychic realities such as the maternal dimension of religious desire and the role of the community the relations between the real the imaginary and the symbolic the paternal uncertainty the articulation of the mystical desire with the Law and the control of sexuality This study shows the importance of this function for bringing

together structure and development in the religious experience and indicates the risks of this paternity for a religious pathology

Sexual Myths of Modernity Alison M. Moore, 2015-11-19 The notion of sexual sadism emerged from nineteenth century alienist attempts to imagine the pleasure of the torturer or mass killer This was a time in which sexuality was mapped to social progress so that perversions were always related either to degeneration or decadence These ideas were internalized in later Freudian views of the drives within the self and of their repression under the demands of modern European civilization Sadism was always presented as the barbarous past that lurked within each of us ready to burst forth into murderous violence crime anti Semitism and finally genocide This idea maintained its currency in European thought after the Second World War as Freudian influenced accounts of the history of philosophy configured the Marquis de Sade as a kind of Kantian superego in a framework that viewed the Western Enlightenment as unraveled by its own inner demons In this way a straight line was imagined from the late eighteenth century to the Holocaust These ideas have had an ongoing legacy in debates about sexual perversion feminism genocide representation and historical memory of Nazism However recent genocide research has massively debunked assumptions that perpetrators of mass violence are especially sexually motivated in their cruelty This book considers how the late twentieth century imagination eroticized Nazism for its own ends but also how it has been informed by nineteenth century formulations of the idea of mass violence as a sexual problem

Christian Antisemitism William Nicholls, 1995 In *Christian Antisemitism A History of Hate* Professor William Nicholls a former minister in the Anglican Church and the founder of the

Department of Religious Studies at the University of British Columbia presents his stunning research stating that Christian teaching is primarily responsible for antisemitism As Nicholls states these conclusions can now be fully justified by the most up to date scholarship Christian as well as Jewish Nicholls writes Many Jewish writers have said quite simply that the Nazis chose the Jews as the target of their hate because two thousand years of Christian teaching had accustomed the world to do so Few Christian historians and theologians have been sufficiently open to the painful truth to accept this explanation without considerable qualification Nevertheless it is correct Christian Antisemitism traces over two millennia the growing domination of Western culture by the Christian myth as Nicholls calls it about the Jews and shows how it still exerts a major influence even on the secularized post Christian world Nicholls shows through scrupulous research and documentation that the myth of the Jews as Christ killers has powered anti Judaism and antisemitism throughout the centuries Nicholls clearly illustrates that this myth is present in the New Testament and that it has not yet died under the impact of modern critical history Also included in this remarkable volume is Nicholls research regarding the Jewishness of Jesus He writes Historical scholarship now permits us to affirm with confidence that Jesus of Nazareth was a faithful and observant Jew who lived by the Torah and taught nothing against his own people and their faith the Romans not the Jews were the Christ killers In Part I Before the Myth Nicholls explores the life of Jesus and his teachings as found in the New Testament Was Jesus the founder of Christianity Did he offer teachings against his people Did he believe himself

Longing for Nothingness Andrew Stein, 2010-01-25 In *Longing for Nothingness Resistance Denial and the Place of Death in the Nursing Home* Andrew Stein offers a groundbreaking new psychoanalytic treatment of the depression and other mental conflicts suffered by residents living in nursing homes Freud famously argued that humans had a dual drive toward life and toward death and in this new study Stein shows that residents may suffer because they cannot control one part of that dualism their longing for nothingness Weaving together elements of Freud's life and writings Lacanian and Kleinian notions and clinical material in a new and surprising manner Stein shows that a frightening breakdown of symbolic and imaginary defenses opens nursing home residents to these deeply repressed longings Because they often do not know how to respond the result is an increase in their suffering and tendency to despair *Longing for Nothingness* makes an impassioned plea for all people not only residents of nursing homes to fully acknowledge the role of death in the structures of their desires By doing this they will be spared the unnecessary suffering caused by the struggle to keep their longings for death repressed Stein presents an alternate strategy bringing the longings for death a little more into consciousness where they can be addressed without fueling debilitating symptoms like depression and rage

The Top Ten Death Penalty Myths Rudolph J. Gerber,John M. Johnson,2007-11-30 The death penalty remains one of the most controversial issues in the United States Its proponents claim many things in their defense of its continued application For example they claim that it deters crime that death by lethal injection is painless and humane that it is racially neutral and that it provides closure to families of the victims In this comprehensive review of the major death penalty issues the authors systematically dismantle each one of these myths about capital punishment in a hard hitting critique of how our social political and community leaders have used fear and myth symbolic politics to misrepresent the death penalty as a public policy issue They successfully demonstrate how our political and community leaders have used myth and emotional appeals to misrepresent the facts about capital executions Successive chapters address the following topics the notion of community bonding the expectation of effective crime fighting the desire for equal justice deterrence the hope for fidelity to the Constitution the claim of error free justice closure retribution cost effectiveness and the messianic desires of some politicians In each of these areas the authors quote from death penalty advocates making these claims and then proceed to analyze and ultimately dismember the claimed advantages of the death penalty
