*Bright Green Lies* Derrick Jensen, Lierre Keith, Max Wilbert, 2021-03-16 This disturbing but very important book makes clear we must dig deeper than the normal solutions we are offered Yvon Chouinard founder of Patagonia Works *Bright Green Lies* exposes the hypocrisy and bankruptcy of leading environmental groups and their most prominent cheerleaders The best known environmentalists are not in the business of speaking truth or even holding up rational solutions to blunt the impending ecocide but instead indulge in a mendacious and self serving delusion that provides comfort at the expense of reality They fail to state the obvious We cannot continue to wallow in hedonistic consumption and industrial expansion and survive as a species The environmental debate Derrick Jensen and his coauthors argue has been distorted by hubris and the childish desire by those in industrialized nations to sustain the unsustainable All debates about environmental policy need to begin with honoring and protecting not the desires of the human species but with the sanctity of the Earth itself We refuse to ask the right questions because these questions expose a stark truth we cannot continue to live as we are living To do so is suicidal folly Tell me how you seek and I will tell you what you are seeking the German philosopher Ludwig Wittgenstein said This is the power of *Bright Green Lies* It asks the questions most refuse to ask and in that questioning that seeking uncovers profound truths we ignore at our peril Chris Hedges Pulitzer Prize winning journalist and author of *America The Farewell Tour*
