## **Myth Manifesto Meltdown:**

**Politics, Paradigms, and Intelligence Failures** Ofira Seliktar, 2015-05-20 Washington's failure to foresee the collapse of its superpower rival ranks high in the pantheon of predictive failures. The question of who got what right or wrong has been intertwined with the deeper issue of who won the Cold War. Like the disputes over who lost China and Iran, this debate has been fought out along ideological and partisan lines, with conservatives claiming credit for the Evil Empire's demise and liberals arguing that the causes were internal to the Soviet Union. The intelligence community has come in for harsh criticism for overestimating Soviet strength and overlooking the symptoms of crisis; the discipline of Sovietology has dissolved into acrimonious irrelevance. Drawing on declassified documents, interviews, and careful analysis of contemporaneous literature, this book offers the first systematic analysis of this predictive failure at the paradigmatic foreign policy and intelligence levels. Although it is focused on the Soviet case, it offers lessons that are both timely and necessary. **Parameters**, 1999

**Market Maoists** Jason M. Kelly, 2021-05-11 Long before Deng Xiaoping's market-based reforms, commercial relationships bound the Chinese Communist Party to international capitalism and left lasting marks on China's trade and diplomacy. China today seems caught in a contradiction: a capitalist state led by a Communist party. But as *Market Maoists* shows, this seeming paradox is nothing new. Since the 1930s, before the Chinese Communist Party came to power, Communist traders and diplomats have sought deals with capitalists in an effort to fuel political transformation and the restoration of Chinese power. For as long as there have been Communists in China, they have been reconciling revolutionary aspirations at home with market realities abroad. Jason Kelly unearths this hidden history of global commerce, finding that even Mao Zedong saw no fundamental conflict between trading with capitalists and chasing revolution. China's ties to capitalism transformed under Mao but were never broken. And it was not just goods and currencies that changed hands. Sustained contact with foreign capitalists shaped the Chinese nation under Communism and left deep impressions on foreign policy. Deals demanded mutual intelligibility and cooperation. As a result, international transactions facilitated the exchange of ideas, habits, and beliefs, leaving subtle but lasting effects on the values and attitudes of individuals and institutions. Drawing from official and commercial archives around the world, including newly available internal Chinese Communist Party documents, *Market Maoists* recasts our understanding of China's relationship with global capitalism, revealing how these early accommodations laid the groundwork for China's embrace of capitalism in the 1980s and after. **Air University Library Index to Military Periodicals**, 1999

**Understanding the Relationship Between Religion and Entrepreneurship** Tamzini, Khaled, Salem, Anis Ben, 2019-11-22 In recent years, a number of scholars trained in the area of economics have begun to pay attention to a fascinating and increasingly important question: Does the interrelationship between religion and enterprise shape entrepreneurial decision making? Though religious groups can provide additional means for the generation of social capital, especially where ethnicity is strongly associated with specific religious adherence, it has been largely absent in

economic discussions Understanding the Relationship Between Religion and Entrepreneurship is a collection of innovative research on the methods and applications of religious theology on entrepreneurial decision making While highlighting topics including women in business religious marketing and consumer behavior this book is ideally designed for entrepreneurs theologians business managers policymakers researchers industry professionals academicians and students seeking current research on the economic impacts of religious beliefs and practices      **Britain's Cold War in Cyprus and Hong Kong**

Christopher Sutton, 2016-11-07 Linking two defining narratives of the twentieth century Sutton's comparative study of Hong Kong and Cyprus where two of the empire's most effective communist parties operated examines how British colonial policy makers took to cultural and ideological battlegrounds to fight the anti colonial imperialism of their communist enemies in the Cold War The structure and intentional nature of the British colonial system grants unprecedented access to British perceptions and strategies which sought to balance constructive socio political investments with regressive and self defeating repression neither of which Britain could afford in the Cold War conflict of empires      *Manifest Design* Thomas R. Hietala, 2003 Praise for the earlier edition A fascinating thought provoking book Hietala shows that it was not destiny but design and aggression that enabled the United States to control Texas New Mexico and California Historian Hietala has examined an impressive array of primary and secondary materials His handling of the relationship between the domestic and foreign policies of the decade shatters some myths about America's so called manifest destiny and deserves the attention of all scholars and serious students of the period Western Historical Quarterly Since 1845 the phrase manifest destiny has offered a simple and appealing explanation of the dramatic expansionism of the United States In this incisive book Thomas R. Hietala reassesses the complex factors behind American policymaking during the late Jacksonian era Hietala argues that the quest for territorial and commercial gains was based more on a desire for increased national stability than on any response to demands by individual pioneers or threats from abroad      A Failed Vision of Empire Daniel J. Burge, 2022-05 Since the early twentieth century historians have traditionally defined manifest destiny as the belief that the United States was destined to expand from coast to coast This generation of historians has posed manifest destiny as a unifying ideology of the nineteenth century one that was popular and pervasive and ultimately fulfilled in the late 1840s when the United States acquired the Pacific Coast However the story of manifest destiny was never quite that simple In *A Failed Vision of Empire* Daniel J. Burge examines the belief in manifest destiny over the nineteenth century by analyzing contested moments in the continental expansion of the United States arguing that the ideology was ultimately unsuccessful By examining speeches plays letters diaries newspapers and other sources Burge reveals how Americans debated the wisdom of expansion challenged expansionists and disagreed over what the boundaries of the United States should look like *A Failed Vision of Empire* is the first work to capture the messy complicated and yet far more compelling story of manifest destiny's failure debunking in the process one of the most pervasive myths of modern American history      *The British National Bibliography* Arthur James

**Manifest Insanity** Diogenes of Mayberry,2019-08-14 Manifest Insanity is an irreverent social commentary that traces the history of Judeo Christian doctrines and how they have evolved over the centuries impudently contradicting the perception that these established beliefs were original to their traditions and specifically challenging the evangelical Christian concept of literal inerrancy The historical information is presented in an informal but polemical conversation between teachers and students in a Christian high school as they move from class to class throughout the day The narrative exposes some of the historical misunderstandings and outright doctrinal forgeries that the Religious Right trumpets in their attempts to force their morality on mainstream society Woven into the story is a satirical re imagining of Dr Strangelove as modern day liberal secularism replacing the Soviet paranoia of the Cold War era fuels the right wing hype of a godless society on the road to hell The Four Horsemen of New Atheism Dawkins Dennett Harris and Hitchens have demonstrated in this new era of confrontational tactics that no longer will secularists smile politely and remain respectfully silent of religious beliefs but will stand up and challenge the irrationality of blind faith Following their lead Manifest Insanity is a scathing indictment of the Christian Right and their attempts to hijack school boards in order to indoctrinate children using the public school system Manifest Insanity is a thoroughly researched insightful thought provoking and comprehensive analysis of the religious history that shaped the political and social views of American evangelical Christians yet an entertaining humorous and accessible read

Global Science: The Last Option Before Collapse Abdelhak Lamiri,2024-04-26 This book presents the culmination of a 14 year pathbreaking research project examining the risks of civilisation collapse and potential solutions to avoid such an outcome A profound diagnosis reveals that the root issue lies in the widening rift between

the hard and social sciences which have proven largely ineffective at managing the deficiencies of the former Of course the prevailing strategies structures and human resource management processes of modern nations have also played a significant role in destabilising societies In economics we still operate on principles of partial and general equilibrium whereas we urgently need to adopt the global equilibrium framework proposed here As things stand currently we face two major failings in confronting this crisis First we lack the knowledge to overcome the existential threats before us Second the forces calling for change have adopted inadequate strategies organisations and leadership compared to the well oiled machinery of the status quo What we need is to jointly develop the missing knowledge and use it to take appropriate action beginning with the creation of a new discipline Global Science to make sense of it all
