Eranos Hans Thomas Hakl, 2014-09-11 Every year since 1933 many of the world's leading intellectuals have met on Lake Maggiore to discuss the latest developments in philosophy, history, art and science and in particular to explore the mystical and symbolic in religion. The Eranos Meetings, named after the Greek word for a banquet where the guests bring the food, constitute one of the most important gatherings of scholars in the twentieth century. The book presents a set of portraits of some of the century's most influential thinkers, all participants at Eranos: Carl Jung, Erich Neumann, Mircea Eliade, Martin Buber, Walter Otto, Paul Tillich, Gershom Scholem, Herbert Read, Joseph Campbell, Erwin Schrödinger, Karl Kerényi, D. T. Suzuki and Adolph Portmann. The volume presents a critical appraisal of the views of these men, how the exchange of ideas encouraged by Eranos influenced each, and examines the attraction of these esotericists towards authoritarian politics.

Dreaming the Myth Onwards Lucy Huskinson, 2008-01-14 Dreaming the Myth Onwards shows how a revised appreciation of myth can enrich our daily lives, our psychological awareness and our human relationships. Lucy Huskinson and her contributors explore the interplay between myth and Jungian thought and practice, demonstrating the philosophical and psychological principles that underlie our experience of psyche and world. Contributors from multi-disciplinary backgrounds throughout the world come together to assess the contemporary relevance of myth in terms of its utility, its effectual position within Jungian theory and practice and as a general approach for making sense of life. As well as examining the more conscious facets of myth, this volume discusses the unconscious psychodynamic processes of myth, including active imagination, transference and countertransference, to illustrate just how these mythic phenomena give meaning to Jungian theory and therapeutic experience. This rigorous and scholarly analysis showcases fresh readings of central Jungian concepts updated in accordance with shifts in the cultural and epistemological concerns of contemporary Western consciousness. Dreaming the Myth Onwards will be essential reading for practicing analysts and academics in the field of the arts and social sciences.

The Feminine Case Tessa Adams, Andrea Duncan, 2018-12-07 The Feminine Case is a collection of papers that debate the issue of gender from a Jungian perspective. Particular attention is paid

to the discussion of Jung's transcendent function and what this offers women in the process of individualisation. Attention is also given to the revisionist work of James Hillman and to relevant issues found within post-Lacanian critique principally in the works of Julia Kristeva, Luce Irigaray and Helene Cixous. The chapters deal with a range of issues and aim to promote further discussion. One theme discussed in the book is the way in which feminine language is formed within a masculine domain and how it can and is changing. Works of literature notably those of Charlotte Brontë and *The Tempest* are explored and examined in conjunction with Jungian themes. The feminine in relation to the maternal and in its lack of relation to the divine are two other engaging topics discussed in this volume. This collection involves the reader in a welcome debate on the role of the feminine in the Jungian world.
