Myth Of Liberal Individualism:

The Myth of Liberal Individualism Colin Bird, 1999-05-13 This book challenges us to look at liberal political ideas in a fresh way Colin Bird examines the assumption held both by liberals and by their strongest critics that the values and ideals of the liberal political tradition cohere around a distinctively individualist conception of the relation between individuals society and the state He concludes that the formula of liberal individualism conceals fundamental conflicts between liberal views of these relations conflicts that neither liberals nor their critics have adequately recognized His interesting and provocative study develops a powerful criticism of the libertarian forms of liberal individualism which have risen to prominence and suggests that by taking this term for granted theorists have exaggerated the unity and integrity of liberal political ideals and limited our perception of the issues they raise

Reading for Liberalism Stephen J. Mexal,2020-04-01 Founded in 1868 the Overland Monthly was a San Francisco based literary magazine whose mix of humor pathos and romantic nostalgia for a lost frontier was an immediate sensation on the East Coast Due in part to a regional desire to attract settlers and financial investment the essays and short fiction published in the Overland Monthly often portrayed the American West as a civilized evolution of and not a savage regression from eastern bourgeois modernity and democracy Stories about the American West have for centuries been integral to the way we imagine freedom the individual and the possibility for alternate political realities Reading for Liberalism examines the shifting literary and narrative construction of liberal selfhood in California in the late nineteenth century through case studies of a number of western American writers who wrote for the Overland Monthly including Noah

Brooks Ina Coolbrith Bret Harte Jack London John Muir and Frank Norris among others Reading for Liberalism argues that Harte the magazine's founding editor and the other members of the Overland group critiqued and reimagined the often invisible fabric of American freedom Reading for Liberalism uncovers and examines in the text of the Overland Monthly the relationship between wilderness literature race and the production of individual freedom in late nineteenth century California

A Thousand Small Sanities Adam Gopnik, 2019-05-14 A stirring defense of liberalism against the dogmatism of our time from an award winning and New York Times bestselling author Not since the early twentieth century has liberalism and liberals been under such relentless attack from both right and left The crisis of democracy in our era has produced a crisis of faith in liberal institutions and even worse in liberal thought A Thousand Small Sanities is a manifesto rooted in the lives of people who invented and extended the liberal tradition Taking us from Montaigne to Mill and from Middlemarch to the civil rights movement Adam Gopnik argues that liberalism is not a form of centrism nor simply another word for free markets nor merely a term denoting a set of rights It is something far more ambitious the search for radical change by humane measures Gopnik shows us why liberalism is one of the great moral adventures in human history and why in an age of autocracy our lives may depend on its continuation

From the Conscious Interior to an Exterior Unconscious David Pavon Cuellar, 2018-04-24 This striking Lacanian contribution to discourse analysis is also a critique of contemporary psychological abstraction as well as a reassessment of the radical opposition between psychology and psychoanalysis This original introduction to Lacan's work bridges the gap between discourse-analytical debates in social psychology and the social theoretical extensions of discourse theory David Pavon Cuellar provides a precise definition and a detailed explanation of key Lacanian concepts and illustrates how they may be put to work on a concrete discourse in this case a fragment of an interview obtained by the author from the Mexican underground Popular Revolutionary Forces EPR Throughout the book Lacanian concepts are compared to their counterparts in psychology Such a comparison reveals insuperable incompatibilities between the two series of concepts The author shows that Lacan's psychoanalytical terminology can neither be translated nor assimilated to the terms of current psychology Among the notions in actual or potential competition with Lacanian concepts the book deals with those proposed by semiology Marxism phenomenology

constructionism deconstruction and hermeneutics Taking a stand on those theoretical positions each chapter includes detailed discussion of the contribution of classical approaches to language including Barthes Bakhtin Althusser Politzer Wittgenstein Berger and Luckmann Derrida and Ricoeur There is sustained reference in the body of the text to the arguments of Lacan and Lacanians of Miller Milner Soler and i ek At the same time in the extensive notes accompanying the text there is a systematic reappraisal and reinterpretation of debates and pieces of research work in social psychology especially in a discursive and critical domain that has incorporated elements of psychoanalytic theory

Myths of Peace and Democracy? Towards Building Pillars of Hope, Unity and Transformation in Africa Mawere, Munyaradzi, Marongwe, Ngonidzashe, 2016-09-01 The myths of peace and democracy in Africa are at the heart of this volume Democracy and peace have become buzz words across postcolonial Africa The gospel of democracy and peace is preached by national governments and by civil society and international organisations alike But to what extent are the ongoing sideshows and charades of quasi oligarchies in Africa really democracy What do ordinary Africans mean when they hunger and thirst for democracy and peace Positive and noble as the loud sounding rhetoric about democracy and peace in Africa might seem the reality of propaganda and dissemblance and of multi dimensional violence are simply too overwhelming not to be disillusioning This book interrogates the rampant violence enduring conflicts autocratic governance and facades of democracy amidst claims and calls for enduring peace on the continent This is a monumental resource book for human rights activists conflict management practitioners civil society activists political scientists statesmen and development practitioners It poses a challenge to those African governments who claim to embrace principles of democracy and respect for human rights to rethink and reconsider their role as ambassadors of peace hope transformation and good governance

Commonwealth and Covenant Marcia Pally, 2016 In Commonwealth and Covenant Marcia Pally argues that in order to address current socioeconomic problems we need not more economic formulas but rather a better understanding of how the world is set up an ontology of how we and the world work Without this good proposals that arise lack political will and go unimplemented Pally describes our basic setup as separability amid situatedness or distinction amid relation Though we are all unique individuals we become our singular selves through our relations and responsibilities to the people and environments around us Pally argues that our culture s overemphasis on separability individualism run amok results in greed adversarial and deceitful political discourse and chicanery resource grabbing broken relationships and anomie Maintaining that separability and situatedness can and must be considered together in public policy Pally draws on intellectual history philosophy and especially historic Christian and Jewish theologies of relationality to construct a new framework for addressing present economic and political ills

The Process of Politicization Adam Jarosz, 2017-11-06 The problem signalled in the title of this volume is of utmost importance today While envisioning a completely depoliticised society requires a big leap of imagination there can still be doubts as to the degree to which modern societies may or should be politicised in different dimensions This book gives a

range of answers to this question using selected examples from modern history and the present time and it outlines the process of politicising the society together with the tools and means used for that. It does not attempt an exhaustive coverage of the topic of politicisation but serves as a reference for persons interested in the discussed issues including students of political and social sciences.

Perfection, the State, and Victorian Liberalism D. Malachuk, 2005-08-19. This book recovers and recommends the core conviction of Victorian liberal theory that human beings with the help of the state can achieve an objective moral perfection. The first half of the book considers the diverse modern biases that have blinded us to the merit of this core conviction and weaves together disparate new scholarship primarily in political theory and Victorian Studies to set the stage for a reconsideration of that conviction. The second half of the book is that reconsideration outlining the various policies the Victorian liberals John Stuart Mill and Matthew Arnold primarily with a half dozen other nineteenth century British and American authors recommended the state employ in the perfection of human beings.

Calculating Promises Roy Kreitner, 2006-12-08. This book is a history of American contract law around the turn of the twentieth century. It meticulously details shifts in our conception of contract by juxtaposing scholarly accounts of contract with case law and shows how the cases exhibit conflicts for which scholarship offers just one of many possible answers. Breaking with conventional wisdom the author argues that our current understanding of contract is not the outgrowth of gradual refinements of a centuries old idea. Rather contract as we now know it was shaped by a revolution in private law undertaken toward the end of the nineteenth century when legal scholars established calculating promisors as the centerpiece of their notion of contract. The author maintains that the revolution in contract thinking is best understood in a frame of reference wider than the rules governing the formation and enforcement of contracts. That frame of reference is a cultural negotiation over the nature of the individual subject and the role of the individual in a society undergoing transformation. Areas of central concern include the enforceability of promises to make gifts, the relationship of contracts to speculation and gambling and the problem of incomplete contracts.
