Fried,2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida s work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida s Master s thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this

bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy

Against the Flow Peter Abbs, 2003-09-02 At once provocative and inspiring *Against the Flow* is a work of polemic from an internationally respected writer and thinker on arts education Peter Abbs argues that contemporary education ignores the aesthetic and ethical as a result of being in thrall to such forces as the market economy and managerial and functional dictates He identifies the present education system as being inimical to creativity and authentic learning and instead narrowly focused on the quantitative measuring of results This absence of a creative and ethical dimension in education has implications for art making in wider society Art is shown as emerging from and appealing to the ironic postmodernist sensibility and mass media led culture while being devoid of philosophical significance This book opens up a fresh and timely debate about the vital power of creativity in modern education Drawing on examples from modern poetry literature and visual art it is an eloquent and passionate argument for the need to develop ethical and aesthetic energies to confront the growing vacuity of contemporary culture

The Challenge of Relativism Patrick J.J. Phillips, 2011-11-13 Offering a comprehensive overview and introduction to the concept of relativism and relativistic arguments this book surveys important relativist philosophers both classical and modern

Life M. Kronegger, Anna-Teresa Tymieniecka, 2012-12-06 In her Introduction Tymieniecka states the core theme of the present book sharply Is culture an excess of nature s prodigious expansiveness an excess which might turn out to be dangerous for nature itself if it goes too far or is culture a natural congenial prolongation of nature life If the latter then culture is assimilated into nature and thus would lose its claim to autonomy its criteria would be superseded by those of nature alone Of course nature and culture may both still be seen as being absorbed by the inner powers of specifically human inwardness on which view human being caught in its own transcendence becomes separated radically in kind from the rest of existence and may not touch even the shadow of reality except through its own prism Excess therefore or prolongation And on what terms The relationship between culture and nature in its technical phase demands a new elucidation Here this is pursued by excavating the root significance of the multiple rationalities of life In contrast to Husserl who differentiated living types according to their degree of participation in the world the phenomenology of life disentangles living types from within the onto-poietic web of life itself The human creative act reveals itself as the Great Divide of the Logos of Life a divide that does not separate but harmonizes thus dispelling both naturalistic and spiritualistic reductionism

Narrating Nationalisms Jinqi Ling, 1998-09-24 This book rereads five major works by John Okada Louis Chu Frank Chin and Maxine Hong Kingston in order to reconceptualize the relationship between the past and present of post WWII Asian American literary history Drawing on work in cultural studies postmodern and poststructuralist theory social history and neo pragmatism Ling offers fresh perspectives on the cultural politics and formal strategies of texts too often seen in recent criticism as devoid of complexities and fraught with totalizing implications In challenging uncritical adoption of posthumanist views of history agency and identity in Asian American

cultural criticism this pioneering book opens an approach to Asian American literary texts that simultaneously registers their rich specificity and relatedness to works before and after

Henry Fielding Scott Robertson, 2010 Literature and theology have long been conversation partners The great themes of human existence form the subject matter of their shared discussion However comedic literature has often been overlooked as a serious means to fostering such theological engagement This book seeks to rectify this imbalance By examining selected works of the eighteenth century playwright and novelist Henry Fielding we are shown that a comedic world has much to say that is of true theological significance Recognizing the value of much traditional Fielding research the author departs from its inherent determinism which he believes stifles more fruitful opportunities for interdisciplinary dialogue Key to his desire to engage the comedic in this conversation he introduces the interpretative tool of misplacement By this is meant a continuous parting with the ineffable the perpetual recognition that in comedic writing there is always a fragile sense of the other Setting Fielding's fiction alongside works of contemporary philosophical theology and postmodern works of fiction the author allows common critical zones such as epistemology ethics mimesis canonicity and revelation to be investigated In all these areas the novel in Fielding's hands displays a powerful comic resonance with a less deterministic theology and subverts those assumed securities regarding the status of the individual in the world before God Ultimately the book offers the challenge of recognizing that the nature of the novel is inescapably theological and that theology itself is indeed fictive

Indictment of Caste System through Indian fiction Dr. Mamta Bagria, Dr. Sangeeta Jhaharia, 2019-03-07 The authors within the fringes of this book have tried to bring in the salient features of the philosophical and sociological foundation of caste The objective of this book is to i Provide a brief historical survey of caste and the state of caste at the present time ii Outline the theoretical foundation of caste iii Illustrate different theoretical approaches through well known works of Indian English fictions of Mulk Raj Anand Bhabani Bhattacharya and Arundhati Roy It appears that the well read authors have their focus on the Indian background all through the book

Textual Practice Terence Hawkes, 2005-08-03 First published in 1992 Routledge is an imprint of Taylor Francis an informa company

The Word as True Myth Gary J. Dorrien, 1997-01-01 Gary Dorrien follows the threads of theology through the twentieth century examining how Christians have reconciled their myth filled religious beliefs within a world secularized by Enlightenment criticism and science To understand how religion keeps its place in Christians lives Dorrien writes we must explore how modern theologians have answered the question of myth in today's Christianity Dorrien's narrative walks readers through modern theology stopping with each of the major thinkers along the way to see how they dealt with the issue of modern Christian mythology Ultimately he offers his own new neo orthodoxy a theology of Word and Spirit that is pluralistic and affirms the mythical character of the gospel while holding fast to the Gospels myth negating condemnation of idolatry and their focus on history
