Myth Taken Identity:

Myth-Taken Identity Robert Asprin, Jody Lynn Nye, 2004 Their latest outing Myth Taken Identity allows Asprin and his co author Jody Lynn Nye to turn their satirical pens on malls credit cards and identity theft **Everything Mythology** Blake Hoena, Adrienne Mayor, 2014 Battle mysterious monsters join a quest with a courageous hero and feast and frolic with the gods in this introduction to mythology around the world Page 4 of cover **Myth and Identity in the Martial Arts** Alexis McLeod, 2024-12-24 Myth and Identity in the Martial Arts Creating the Dragon is a study of the role of myth and ideology in the formation of social identity focusing on a variety of communities of practice involving the martial arts in East Asian and Western history Alexis McLeod argues that myths of the martial arts should not be understood as falsehoods created as means of legitimizing modern practices but should instead be understood as narratives that enable individuals and communities to formulate social identities and to accord meaning to their practices This book covers six influential sources of myth and identity formation in the history of martial arts early Chinese and Indian philosophy the formation bushido thought in the Edo period of Japan Republican era Chinese conceptions of nationhood and physical culture Western contributions and the innovations of Bruce Lee African American conceptions of martial arts as a response to oppression in the twentieth century and the contemporary ideologies of mixed martial arts **Myth, Telos, Identity** Iván Nyusztay, 2021-09-20 Iván Nyusztay's Myth Telos Identity The Tragic Schema in Greek and Shakespearean Drama for the first time presents a systematic comparison of Greek and Shakespearean tragedy By thematizing the common modes of the tragic it measures their structural regularities against corresponding philosophical and ethical reflections The comparative theory of tragedy evolves through a constant debate with the traditional views of Aristotle Hegel Schelling Paul Ricoeur and others An architectonic survey of plays leads to a generic distinction between pure tragedy and melodrama and proposes a possible description of Christian tragedy This generic differentiation is considered by means of a teleological approach to tragedy as well as from a formal perspective The criticism of traditional notions of character stresses the relevance of dividedness and internal collision tragic phenomena which are explored as necessary stages of self in the constitution and formation of tragic or internal alterity This form of alterity is underpinned by a discussion of action theory and speech act theory This book will be of interest for readers of Greek and Shakespearean drama as well as for students of comparative literature and genre theory classicists and philosophers and for everyone interested in the relation between literature and philosophy Myth, Identity, and Conflict Anamaria Dutceac Segesten, 2011-09-16 Myth Identity and Conflict A Comparative Analysis of Romanian and Serbian Textbooks by Anamaria Dutceac Segesten is an examination of how history and politics became entangled in Romania and Serbia In it Segesten asks questions like Is myth present in the history textbooks of Romania and Serbia If so are there differences in the ways these myths define the in group and the relationship with the Other between a country that experienced interethnic conflict Serbia and a country that did not Romania Do textbooks affect the odds that

conflict will occur Segesten's findings confirm the presence of mythologized versions of the past in the history textbooks of both countries over the entire fifteen year period studied 1992-2007 despite claims for professionalization of textbook making. Myths of noble origins of heroism and victimhood appear in both cases. Segesten finds the language to be ideological and in favor of the ethnic majority even if over time there is a slow tendency towards moderation especially in Romania probably due to the influence of the European Union. Ultimately *Myth, Identity and Conflict* by Anamaria Dutceac Segesten questions the alleged power of history textbooks to make a difference in ethnically divided societies prone to conflicts.

Resenting the Hero Moira J. Moore, 2006-02-28 In a realm beset by natural disasters only the magical abilities of the bonded Pairs Source and Shield make the land habitable and keep the citizenry safe. The ties that bind them are far beyond the relationships between lovers or kin and last their entire lives. Whether they like it or not. Since she was a child Dunleavy Mallorrough has been nurturing her talents as a Shield preparing for her day of bonding. Unfortunately fate decrees Lee's partner to be the legendary handsome and unbearably self-assured Lord Shintaro Karish. Sure he cuts a fine figure with his aristocratic airs and undeniable courage. But Karish's popularity and notoriety in bed and out make him the last Source Lee ever wanted to be stuck with. The duo is assigned to High Scape, a city so besieged by disaster that seven bonded pairs are needed to combat it. But when an inexplicable force strikes down every other Source and Shield, Lee and Karish must put aside their differences in order to defeat something even more unnatural than their reluctant affections for each other.

Mysticism, Myth and Celtic Identity Marion Gibson, Shelley Trower, Garry Tregidga, 2013 *Mysticism, Myth and Celtic Identity* explores how the mythical and mystical past informs national imaginations. Building on notions of invented tradition and myths of the nation, it looks at the power of narrative and fiction to shape identity with particular reference to the British and Celtic contexts. The authors consider how aspects of the past are reinterpreted or reimagined in a variety of ways to give coherence to desired national groupings or groups aspiring to nationhood and its defence. The coverage is unusually broad in its historical sweep, dealing with work from prehistory to the contemporary with a particular emphasis on the period from the eighteenth century to the present. The subject matter includes notions of ancient deities, Druids, Celticity, the archaeological remains of pagan religions, traditional folk tales, racial and religious myths and ethnic politics and the different types of returns and hauntings that can recycle these ideas in culture. Innovative and interdisciplinary, the scholarship in *Mysticism, Myth and Celtic Identity* is mainly literary but also geographical and historical and draws on religious studies, politics and the social sciences. Thus the collection offers a stimulatingly broad number of new viewpoints on a matter of great topical relevance: national identity and the politicization of its myths.

Personal Identity Ellen Frankel Paul, Fred Dycus Miller, Jeffrey Paul, 2005 What is a person? What makes me the same person today that I was yesterday or will be tomorrow? Philosophers have long pondered these

questions In Plato's Symposium Socrates observed that all of us are constantly undergoing change we experience physical changes to our bodies as well as changes in our manners customs opinions desires pleasures pains and fears Aristotle theorized that there must be some underlying substratum that remains the same even as we undergo these changes John Locke rejected Aristotle's view and reformulated the problem of personal identity in his own way is a person a physical organism that persists through time or is a person identified by the persistence of psychological states by memory These essays written by prominent philosophers and legal and economic theorists offer valuable insights into the nature of personal identity and its implications for morality and public policy Jews, Labour and the Left, 1918-48 Christine Collette, Stephen Bird, 2017-11-01 This title was first published in 2000 With the advent of the Second World War fascism became inextricably associated with anti-Semitism It is hardly surprising therefore to find that a significant number of Jewish people were politically inclined towards the left and were actively involved in socialist movements The essays in this volume seek to arrive at an understanding of Jewish involvement in Labour movements outside Israel from the end of the First World War to the final stages of World War Two This was a period which saw the creation of several international socialist institutions Gail Malmgreen looks at the American Jewish Labor Committee and examines the interaction between trades unions and the Jewish community Deborah Osmond Christine Collette and Jason Heppell discuss the contributions made by Jews living in Britain to Labour politics including the Communist Party of Great Britain and the Labour and Socialist International The reactions and stances of the British Labour party in relation to Zionism and the Holocaust are the subjects of essays by Isabelle Tombs and Paul Kelemen David De Vries's study of the position of Jewish white collar workers in British ruled Palestine provides another perspective on the complex web of relationships between British and Jewish identity class labour and politics An invaluable bibliography by Arie Lebowitz of sources for the study of Jewish interaction with the American and British Labour movements completes this important survey The Discourse of Palestinian-Israeli Relations Sean F. McMahon, 2010-04-15 Many observers have portrayed the Oslo Process as a milestone in the peacemaking process between Palestinians and Israelis In this controversial and groundbreaking new work McMahon challenges the interpretation of the Oslo Process as a breakthrough or new beginning in Palestinian-Israeli relations He argues that the Oslo Process affected no discursive or non-discursive change and that the Oslo Process in fact institutionalized the analytics practices involved in Israeli and Palestinian relations It should McMahon concludes be no surprise that the process ended with direct Palestinian-Israeli violence This book will be crucial reading for scholars of Israeli and Palestinian relations as well as anyone who is interested in understanding what discursive change must occur for peace between Israel and Palestinians to be established and sustained Sonic the Hedgehog #104 Mike Gallagher, Dawn Best, Dave Manak, Ken Penders, Harvey Mercadoocasio, Patrick "SPAZ" Spaziente, Freedom Fighters of the Galaxy Part 2 Sonic's troubles in the alternate future version of Mobius go from bad to worse as the harbinger of doom arrives and his name is Silver Snively That can only mean one thing his

Parshall, 2012-06-21 In American cinema films with multiple plots can be traced back to *Grand Hotel* in 1932 but the form was used only sporadically in subsequent decades However filmmakers of the 1970s and 80s notably Robert Altman and Woody Allen repeatedly employed complex narratives to weave sprawling stories in their films Later filmmakers such as Quentin Tarantino Paul Thomas Anderson Wong Kar Wai Steven Soderbergh and Paul Haggis embraced multiple plotlines a device that eventually achieved mainstream respectability in such Oscar winners as *Traffic* and *Crash* In the past two decades more than 200 films utilizing some variation of this format have appeared worldwide In *Altman and After: Multiple Narratives in Film* Peter Parshall carefully examines films that feature various plotlines Parshall asserts that although this form may lose some of the close psychological identification and forward drive of linear narratives such films gain a corresponding strength by developing thematic relationships in the various story lines In each of these chapters Parshall examines a different example of the multi plot form such as network narrative and the multiple draft narrative demonstrating that the structure of each is central to their artistry He also argues that these devices open up a variety of creative vistas a strength that appeals to directors and audiences alike Films studied in this book include *Nashville* *Pulp Fiction* *Amores Perros* *Code Unknown* *The Edge of Heaven* *Virgin Stripped Bare* by *Her* *Bachelors* *The Double Life of Veronique* and *Run Lola Run* A long overdue examination of this unique cinematic form *Altman and After* will appeal to scholars students and fans eager to learn more about complex narrative films **Scottish Coal Miners in the**

Twentieth Century Phillips Jim Phillips, 2019-06-26 Examining working class welfare in the age of deindustrialisation through the experiences of the Scottish coal miner Throughout the twentieth century Scottish miners resisted deindustrialisation through collective action and by leading the campaign for Home Rule This book argues that coal miners occupy a central position in Scotland's economic social and political history and highlights the role of miners in formulating labour movement demands for political constitutional reforms that eventually resulted in the establishment of the Scottish Parliament in 1999 The book also uses the struggle of the mineworkers to explore working class wellbeing more broadly during the prolonged and politicised period of deindustrialisation that saw jobs workplaces and communities devastated Key features Examines deindustrialisation as long running phased and politicised process Uses generational analysis to explain economic and political change Relates Scottish Home Rule to long running debates about economic security and working class welfare Analyses the longer history of Scottish coal miners in terms of changing industrial ownership production techniques and workplace safety Relates this economic and industrial history to changes in mining communities and gender relations
