Myth Of Consumerism:

The Myth of Consumerism Conrad Lodziak, 2002-01-20 Lodziak's delightful tome takes to task the myth of joyful willful consumerism as it's perpetuated in the field of cultural studies. Tracing the ideas common to the field, Lodziak, no academic affiliation is indicated, questions the very roots of cultural studies ideology then proposes an alternate view of the phenomenon of shopping within the present capitalist society. Rue, 2005 Annotation: If religion is not about God, then what on earth is it about? Loyal Rue contends that religion is a series of strategies that aims to influence human nature so that we might think, feel, and act in ways that are good for us both individually and collectively. **Subjectivity, the Unconscious and Consumerism** Marlon Xavier, 2018-09-17 Subjectivity, the Unconscious, and Consumerism is a unique and imaginative psycho-sociological exploration of how postmodern contemporary consumerism invades and colonises human subjectivity. Investigating especially consumerism's unconscious aspects such as desires, imagination, and fantasy, it engages with an extensive analysis of dreams. The author frames these using a synthesis of Jungian psychology and the social imaginaries of Baudrillard and Bauman in a dialogue with the theories of McDonaldization and Disneyization. The aim is to broaden our understanding of consumerism to include the perennial consumption of symbols and signs of identity, a process which is the basis for the fabrication of the commodified self. The book offers a profound, innovative critique of our consumption societies, challenging readers to rethink how we live and how our identities are impacted by consumerism. As such, it will be of interest to students and scholars of critical psychology, psychoanalysis, sociology, anthropology, and cultural studies, but is also accessible to anyone interested in the complex psychology of contemporary subjectivity. *Modern Myths and Medical Consumerism* Antonio Lanfranchi, 2018-03-15 *Modern Myths and Medical Consumerism* is concerned with the loss of a sense of limit in technological medicine today and the way in which the denial of death leads to an uncontrollable consumeristic multiplication of needs. Taking its starting point from C. G. Jung's analytical psychology, the book gives a symbolic interpretation based on archetypal, philosophical, and socio-psychoanalytic ideas developed through the author's personal experience, moving from the medical to the psychoanalytical paradigm. Lanfranchi depicts ideal sources of medicine based on archetypal material drawn from Greek myth and discusses the progressive steps of the doctor's consciousness evolution up to contemporary times. Critiquing current medicine and its modern myths, the book suggests the prevailing model of economic development is unsustainable and provides prospects of a more contained ecological medicine and an ethical approach that will allow readers to reflect and move towards a more qualified attitude to mortality. The book meets the need to transform medicine into a critical domain of human experience.

capable of providing essential services consistent with the naturalness of death and environmental sustainability As such it will be vital reading to academics in the fields of psychotherapy analytical psychology psychiatry and medicine and those with a philosophical or sociological background
