Mythology Texts And Contexts:

Mythology ,2000 Political Texts and Contexts of the Golden Age Chad Michael Gasta,2000 Text and Context of Tlingit Oral Tradition Richard Leonard Dauenhauer,1975 **On Text and Context** Eduardo Forastieri Braschi,Gerald Guinness,Humberto López Morales,1980 **Text, Context and Performance** James A. Kapaló,2011-09-23 This ethnographic study of Gagauz religion offers an original perspective on folk religion as discourse and object of study It is also the first monograph published in a Western language on this little known European people s history and culture Theory, Text, Context Christopher Lyle Johnstone,1996-10-03 This is a bone crushing confrontation of contemporary questions about the origins and early development of Greek rhetorical theory and practice It examines a number of important issues from several new perspectives and offers a more complex and multi faceted account of the early history of rhetoric than is to be found anywhere else It is especially unique in bringing together in one place the work of several distinguished scholars of Greek rhetoric and oratory It takes a revisionist look at the Sophists and explores Greek sites settings and culture in ways that challenge long standing ideas about discourse in the polis A passionate book full of satyrs rather than philosophers it is innovative and bold a treasure house of provocative ideas *Text and Context in Architectural Education* ,1990 *Text, Context and Construction of Identity* Rajesh Kumar,Om Prakash,2019-04-30 Language is central to our existence and it happens to be the most sophisticated product of the human mind It is inconceivable to think of ourselves our societies our ideas cultures or identities without language It is the primary means of socialization and whatever we know is a result of it It is the primary medium of construction and dissemination of knowledge and structures our thought processes in important ways that constitute our identity In very complex ways it interacts with the social political and economic power structures that remain significant in defining the identities of individuals and societies The essays in this volume create an awareness and understanding about the role of linguistic context in negotiating identity The book explains identity and the complex relations between language and several aspects of our society It explores identity through text and context and will serve to trigger a novel discourse around the centrality of identity in contemporary society *Giving People Ideas - Text and Concept* Godela Weiss-Sussex,2017-12-02 A special double issue of Publications of the English Goethe Society to celebrate the 70th birthday of Professor Martin Swales UCL UK This volume collects papers from a conference held at the Institute of Germanic and Romance Studies in October 2010 The conference aimed to analyse how literary texts articulate and give voice to ideas and ideologies In contrast to most philosophy literature rarely makes claims to systematic conceptual rigour Literary statements are always conjectural they are also conditioned by the conventions of the genre in which they are made Because literature is such a hypothetical medium of expression it is uniquely suited to philosophical experimentation Indeed because literature invokes imagined or remembered experience it functions as a laboratory in which ideas may be tested against experience Literature s formal qualities which allow for statement and counter statement move and counter move make it a

highly sophisticated mode of discourse in which to test out ideas Concepts can be played against each other and genre conventions may be adhered to or subverted in order to create multiple layers of signification The papers presented are published here in this special issue of Publications of the English Goethe Society and take account of German or European poetry drama or prose literature from 1750 to the present day **ARTIFACT, TEXT, CONTEXT** Li Tang, Dietmar W.

Winkler, 2020-01-01 This volume is a collection of papers highlighting recent researches on Syriac Christianity in China and Central Asia The topics range from artifacts to texts and their historical contexts covering the period from the 7th to the 18th century As the studies on Syriac Christianity in China and Central advance focus has shifted from a general historical survey and textual translation to a more micro and meticulous study of specific concepts and terms and particular names of persons and places *Theories of Myth* Thomas J. Sermons, homiletical expositions, and leading thoughts on texts of Scripture Thomas Davies (Ph.D.), 1882 **The Oxford India Companion to Sociology and Social Anthropology** Veena Das, 2003 With fascinating entries on sociological and social anthropological research in India this volume presents a wealth of information including developments in the field important empirical work and its contributions to sociology as a whole It will appeal to all sociology students as well as to anyone with a broad interest in Asian studies **Myth and Ideology in Contemporary Brazilian Fiction** Daphne Patai, 1983 Analyzing the thematic and formal characteristics of six contemporary Brazilian novels this study explores the use of myth and its ideological implications The writers examined are Maria Alice Barroso Clarice Lispector Jorge Amado Carlos Heitor Cony Adonias Filho and Autran Dourado The Hobbit and Tolkien's Mythology Bradford Lee Eden, 2014-10-27 At the 2013 Celebrating The Hobbit conference at Valparaíso University marking the 75th anniversary of the book's publication and the first installment of Peter Jackson's Hobbit movies two plenary papers were presented Anchoring the Myth The Impact of The Hobbit on Tolkien's Legendarium by John D Rateliff provided numerous examples of The Hobbit's influence on Tolkien's legendarium and Tolkien's French Connections by Verlyn Flieger discussed French influences on the development of Bilbo Baggins and his adventures In discussions with the plenary speakers and other presenters it became apparent that a book focusing on how The Hobbit influenced the subsequent development of Tolkien's legendarium was sorely needed This

collection of 15 previously unpublished essays fills that need With Rateliff's and Flieger's papers included the book presents two chapters on the Evolution of the Dwarven Race two chapters on Durin's Day examining the Dwarven lunar calendar and 11 chapters on themes exploring various topics on influences and revisions between The Hobbit and Tolkien's legendarium

The Cassowary's Revenge Donald Tuzin, 1997-09-02 Donald Tuzin first studied the New Guinea village of Ilahita in 1972 When he returned many years later he arrived in the aftermath of a startling event the village's men voluntarily destroyed their secret cult that had allowed them to dominate women for generations The cult's collapse indicated nothing less than the death of masculinity and Tuzin examines the labyrinth of motives behind this improbable self-devastating act The villagers' mythic tradition provided a basis for this revenge of Woman upon the dominion of Man and remarkably Tuzin himself became a principal figure in its narratives The return of the magic bearing youngest brother from America had been prophesied and the villagers believed that Tuzin's return from the dead signified a further need to destroy masculine traditions The Cassowary's Revenge is an intimate account of how Ilahita's men and women think, emot, dream and explain themselves Tuzin also explores how the death of masculinity in a remote society raises disturbing implications for gender relations in our own society In this light Tuzin's book is about men and women in search of how to value one another and in today's world there is no theme more universal or timely

The Political Anthropology of Ethnic and Religious Minorities Arpad Szakolczai, Agnes Horvath, Attila Z. Papp, 2018-12-07 This book presents some arguments for why a political anthropological perspective can be particularly helpful for understanding the connected political and cultural challenges and opportunities posed by the situation of ethnic and religious minorities The first chapter shortly introduces the major anthropological concepts used including liminality, trickster, imitation and schismogenesis concepts that are used together with approaches of historical sociology and genealogy especially concerning the rise and fall of empires and their lasting impact The conceptual framework suggested here is particularly helpful for understanding how marginal places can become liminal, appearing suddenly at the center of political attention The introduction also shows the manner in which minority existence can problematize the depersonalizing tendencies of modern globalization Subsequent chapters demonstrate how the described political anthropological conceptual framework can be used in certain European regions and in the case of certain ethnic and religious minority and each illustrates that instead of charismatic leaders, trickster politicians are emerging and increasingly dominate through the public sphere the space of modern politics emptied of real presence The chapters in this book were originally published as a special issue of Nationalism and Ethnic Politics

Reading Alice Munro's Breakthrough Books J.R. (Tim) Struthers, Ailsa Cox, Corinne Bigot, Catherine Sheldrick Ross, What in terms of Alice Munro's creative artistry and creative power allowed her to become the first and only short story writer the first and only Canadian and just the thirteenth woman in history to win the Nobel Prize in Literature And exactly when during

Munro's career did her artistry and power advance to ensure that she would earn such world wide renown The answers lie in studying the boldly innovative yet greatly under examined group of her four mid career breakthrough books Our volume therefore provides a carefully orchestrated analysis of Munro's subtle yet potent handling of form technique and style both within individual stories and across these special collections Reading Alice Munro's Breakthrough Books A Suite in Four Voices not only addresses a significant vacancy in Munro criticism and by extension in all short story criticism but equally importantly offers an exciting new model for how criticism can be collectively written
