Number In The Nursery And Reception:

Number in the Nursery and Reception Sue Gifford, Sheila Ebbutt, Patti Barber, 2004-11-16 Number in the Nursery and Reception is a resource for adults working with 3 5 year olds who wish to know how to provide help with learning about number Offering the entire number curriculum for nursery and reception this book provides integral assessment so that teachers know what to teach and when Divided into three distinct sections Counting Representing Numbers and Number Pattern and Problems each one offers a series of short chapters containing ideas for activities and further discussions

Number in the Nursery and Reception Sue Gifford, 1998 *The Foundation Stage Teacher in Action* Margaret Edgington, 2004-09-22 The book takes a deeper insight into the role of the practitioner and provides invaluable information Nursery Education I think the book would be good value for money for anyone working within a foundation stage team Foundation Stage File The Foundation Stage Teacher in Action is one of the definitive texts on the foundation stage in which Margaret Edgington deals with the realities of practice based on theory and early years principles It is immensely practical and easy to read and while it deserves to be read from cover to cover this New Edition is particularly accessible for those who want to dip in or who need to refer to a specific chapter Early Education If you are new to the Foundation Stage have been working in the Early Years for a few years or for longer than you care to remember if you have responsibility for employing staff for the Foundation Stage within your setting or if you work in a different key stage but have co ordinator responsibility for the Foundation Stage you should buy this book National Campaign for Nursery Education Newsletter This is classic in the world of nursery education and this Third Edition with its new title reflecting the changes in that world is as exciting and challenging as earlier versions Margaret Edgington s campaigning zeal is undiminished as she asserts the prime need for specialist teachers to work with young children in the Foundation Stage and backs this claim with authoritative research references This is a strong passionate authoritative text and I shall keep it close to hand for my own work Marian Whitehead Nursery World This is the third generation of books dealing with the pedagogy of the early years from Margaret Edgington the first two being her editions of The Nursery Teacher in Action originally published under the name Margaret Lally The changes that have come about in early years education notably the introduction of the Foundation Stage with its accompanying curriculum guidance and assessment requirements meant that many early years books have needed updating This Third Edition is more than an update it represents some very hard thinking about what practitioners now need to know to be effective and presents this by revisiting the original book s themes Escalate Paul Chapman Publishing and Margaret Edgington have pulled off a real gem of a book with updated sections thank you for the Forest school stuff for example and fresh insights The hard work has really paid off thanks so much Nick Swarbrick Oxford Brookes University This Third Edition brings a broader perspective to the early years world Margaret s years of experience as a practitioner and consultant in the field are evident and she manages to blend good practice policy and theoretical aspects bringing an astute yet sensitive

approach to the early years practitioners varied experiences and qualifications The book reaches not only those who are starting on their careers as early years practitioners but also those who have been there a long time and witnessed many often bewildering changes where their beliefs and practice have been challenged The new edition should be essential reading not only for those working in the field whatever stage in their careers but also for anyone who seeks to understand small children and support them in the best way possible Angela D Nurse Head of Department of Childhood Studies Canterbury Christ Church University This is a fully revised and updated edition of the author's best selling book *The Nursery Teacher in Action* Second Edition This book now includes an extended section on leadership on managing the foundation stage and involving the team in monitoring and evaluating foundation stage practice Curriculum planning and assessment now reflect the new statutory guidance on the Foundation Stage Curriculum and Profile The author reviews the implementation of the Foundation Stage and the Profile positive developments and areas which are still proving challenging New material is included on the broadening role of the foundation stage teacher in integrated multi disciplinary services and providing support in other settings The book has been updated to include recent findings from Effective Pedagogy projects and other research on learning styles The Foundation Stage Teacher is essential reading for all early years students and practitioners early years course tutors and teachers new to working with 3 5 year olds and also primary headteachers

Teaching and Learning Communication, Language and Literacy Ann Browne, 2007-03-22 Teaching and Learning Communication Language and Literacy is a comprehensive guide to the teaching and learning of communication language and literacy in the foundation stage 3 5 years It draws on research findings and good practice to provide practical guidance about working with young children in nursery and reception classes The book examines how young children develop as learners and users of language and literacy and the contribution that home and school make to their learning It locates learning in a play based curriculum and provides a rationale for making play both a context and a resource for learning It also takes account of recent policy initiatives such as the Curriculum Guidance for the Foundation Stage the organization for literacy in reception classes and the foundation stage assessment profile Throughout the book a distinction is made between the organization and activities that are appropriate to nursery and reception children The book contains practical suggestions about activities and resources including ways of working with environmental print and found texts ICT TV and video as well as books The role of adults in supporting and extending learning is considered in detail

Training to Teach in Primary Schools Jane Medwell, 2015-03-19 Full of practical help and guidance this is a must have for primary trainees on school experience whether they are in a school based or university based teacher training programme It begins by helping trainees to plan their own journey through training and beyond Taking control of their own training in this way supports student teachers to approach the course with confidence and secure their first teaching job The book provides guidance on adapting to working in school observing planning and evaluating in school teaching on placement

assessing monitoring and reporting on children's progress self evaluation and how to pre-empt and resolve issues securing the first teaching job and succeeding in the NQT year For student teachers the experience of school based training is exciting but also challenging this book supports them throughout and prepares them for the journey ahead Student feedback on this book Having been on a variety of teaching placements myself I know just how daunting and overwhelming experiences in school can be at times even with a supportive mentor by your side Hence I felt that this book can smooth out and rectify those worries one may face during a school placement and offers the reader a realistic insight into school experiences In my opinion the most useful chapter by far is the Moving On chapter near the end of the book This explains how to conclude a school placement what to expect from an interview and even how to set out a CV for a teaching position This was not something I expected to find in this book however it was very much welcomed and is in fact a very important valuable part of the book This is the type of book you can buy on your very first day of teacher training and use well into your days as a newly qualified teacher Jasmin Primary Teacher Trainee University of Northampton

Studying Early Years: A Guide To Work-Based Learning Rawlings, Anne, 2008-10-01 Studying early years in the work place in order to gain further qualifications and awards provides many exciting yet challenging opportunities for practitioners In order to become a reflective student and practitioner researcher it is imperative to think critically analyse explore and evaluate ideas or concepts in more depth This book provides a framework for developing these important skills as well as providing support for the challenges and changes that early years practitioners face on a day to day basis It provides ideas and strategies for identifying a personal learning style in order to use work experiences effectively for a variety of work based assignments Back cover

Understanding Young Children's Learning through Play Pat Broadhead, Andy Burt, 2012-03-12 This timely and accessible text introduces theories and practically applies two important concepts which now underpin early years practice those of playful learning and playful pedagogies Pat Broadhead and Andy Burt draw upon filmed material conversations with children reflection observation and parental and staff interviews in their longitudinal study of outdoor and indoor play environments in an early years unit This research based text offers extensive insights into related theories as well drawing on the authors skills and knowledge as researcher and as class teacher in order to provide opportunities for personal reflection and possibilities for practical application in early years classes and settings Discussing both indoor and outdoor environments the text explores ideas surrounding open ended play and the whatever you want it to be place It illustrates how the themes of children's play reflect their interests experiences knowledge gained at home and in school and their cultural heritages By showing how children become familiar and skilful within open ended play environments the authors illustrate how the children's co-operative skills develop over time as they become connected in communities of learners Alongside the examples of children's playful learning the book also considers the implications for resourcing and organising playful settings through playful pedagogies that connect with the Early Years Foundation Stage curriculum DfES 2007 and with the Tickell

Review ongoing as the book went to press Understanding Young Children s Learning through Play uses children s perspectives on their play to illustrate how rich their personal understandings are It also includes parental reflections on what may initially appear a risky and unusual outdoor environment and it draws attention to the importance of conflict resolution in play in order to extend children s resilience and assertiveness This insightful text will be of interest to students of early years education early years practitioners academics and researchers

Young Children Reading Rachael Levy,2011-06-22 Developing and supporting literacy is an absolute priority for all early years settings and primary schools and something of a national concern By presenting extensive research evidence Rachael Levy shows how some of our tried and tested approaches to teaching reading may be counter productive and are causing some young children to lose confidence in their abilities as readers Through challenging accepted definitions and perspectives on reading this book encourages the reader to reflect critically on the current reading curriculum and to consider ways in which their own practice can be developed to match the changing literacy landscape of the 21st century Placing the emphasis on the voices of the children themselves the author looks at what it feels like to be a reader in the digital age children s perceptions of reading home and school reading reading in multidimensional forms the future teaching of reading Essential reading for all trainee and practising teachers this critical examination of a vital topic will support all those who are interested in the way we can help future generations to become literate This book will encourage researchers and practitioners alike to redefine their own views of literacy and situate reading literacy within the digital world in which young children now live

Successful Teaching Placement Jane Medwell,2007-04-24 School placements can be anxious and uncertain experiences for trainee teachers and even for those with previous classroom experience a new school environment can be intimidating This book is full of invaluable advice and practical suggestions that will help trainees prepare for enjoy and make the most of this experience It deals with the full range of issues from finding out about the placement school to managing difficult behaviour on placement This second edition is linked to the 2007 Standards for QTS and reflects recent documents and initiatives
