Preparing to take the SAT can seem overwhelming and stressful making it all too easy to give up or zone out on your prep work. However, if you follow the growth mindset approach outlined in this book, you will stay focused and driven and continue to improve until you surpass your highest expectations on test day. Research has shown that adopting a growth mindset is directly linked to increased test scores, so the authors of this helpful study guide have interwoven this revolutionary approach to teaching into every aspect of their SAT prep. In addition to the test prep and practice questions, the authors impart powerful advice on how you can overcome stress and anxiety while staying positive and setting goals during the months leading up to the test. The strategies in *Crush the SAT with Growth Mindset* will be invaluable tools for your SAT test day and for your life moving forward into college and beyond.

The New Math SAT Game Plan Philip Keller, 2008-03. A new edition. The New Math SAT Game Plan features updated strategy guides, more Algebra II topics, and all of those subversive tactics that have brought higher math SAT scores to hundreds of Philip Keller's students. As a college professor and long-time test prep tutor, I've evaluated the gamut of test prep resources. This is hands down the best math SAT book I've seen: clear, articulate, and accessible without being condescending. I was so impressed that I researched the author and found out that he's won several teaching awards as a high school math and science teacher in New Jersey, which may explain this book's effectiveness. It's written by a teacher who can anticipate student questions and areas of confusion, not a desk jockey. After using it with a few kids, I have decided to make it the required math text for all my student clients.

Professor Laura Harrington: The New Math SAT Game Plan will help you to learn the math you need and make the most of the math you know. It provides a clear, efficient way to approach the test, emphasizing strategy and time management while also providing a review of the necessary math skills.
