Ruchti,2012-02-11 Every day hospital nurses must negotiate intimate trust and intimate conflict in an effort to provide quality health care However interactions between nurses and patients which often require issues of privacy are sometimes made more uncomfortable with inappropriate behavior as when a patient has a racist and or sexist outburst Not all nurses are prepared to handle such intimacy but they can all learn how to be caring In *Catheters Slurs and Pickup Lines* Lisa Ruchti carefully examines this fragile relationship between intimacy and professional care and provides a language for patients nurses and administrators to teach conduct and advocate for knowledgeable and skilled intimate care in a hospital setting She also recommends best training practices and practical and effective policy changes to handle conflicts Ruchti shows that caring is not just a personality characteristic but is work that is structured by intersections of race gender and nationality Monitoring Quality of Nursing Care ,1974 *Nursing Care of Children* Susan Rowen James,Kristine Nelson,Jean Ashwill,2012-03-26 Safety Alert boxes highlight patient safety as part of the QSEN initiative for better outcomes of nursing care Updated

Evidence Based Practice boxes formerly Using Research to Improve Practice assist you in determining best practices in your future care of children Patient Centered Care boxes guide you in teaching the parents and child about self care in the home and follow up care in community based health care settings Streamlined Nursing Care Plans have been reformatted to make them easier to read and use Updated photos throughout the book keep the text up to date and visually appealing Key concepts are highlighted in the book and their definitions are provided in a glossary

Monitoring Quality of Nursing Care: Assessment and study of correlates ,1976 Nursing Care at the End of Life Joyce V Zerwekh,2005-12-28 Nursing Care at the End of Life Palliative Care for Patients and Families explores the deep issues of caring for the dying and suffering The book is based on the Hospice Family Caregiving Model previously published by the author and focuses on the practice implications of care for the dying The book is written in a clear and user friendly style and is ideal for undergraduate nursing students learning about dying suffering and caring for individuals and their families

Impacts of Rationing and Missed Nursing Care: Challenges and Solutions Evridiki Papastavrou,Riitta Suhonen,2021-06-02 This book reveals how economic restrictions and limited healthcare resources combined with growing care demands due to advanced technology and more care options have to a great extent contributed to increased workloads for healthcare professionals and put them under pressure to prioritize their work This has led to the rationing of care i e to decision making processes on the allocation of scarce resources especially human resources and on which care activities take priority over others in turn these processes have led to unfinished or missed care which has serious implications for quality of care and patient safety Concerns related to nursing shortages and lean staffing practices have increased the awareness of the problem as patient outcomes are affected by the quality and quantity of care that they receive and led to intensified scientific inquiry into this phenomenon This book is written by the members of the Rancare Cost Action group whose aim is to facilitate discussion about rationing of nursing care based on a cross national comparative approach with implications for practice and professional development Four working groups investigated four areas for four years a the conceptualization of care rationing and methodological inquiries concerning the investigation of the phenomenon b exploration of possible solutions and intervention studies c the ethical perspective of care rationing and missed care including patients rights and possible discrimination and d the educational implications based on an exploration of the level of patient safety training and care rationing as well as preparing guidelines for managers The book will be a valuable resource for nurses allied healthcare professionals managers policymakers researchers ethical committees and educators whose goal is to provide better and safer care

Partiality and Justice in Nursing Care Marita Nordhaug,2017-07-06 Partiality and Justice in Nursing Care examines the conflicting normative claims of partiality and impartiality in nursing care looking in depth at how to reconcile reasonable concerns for one particular patient with equally important concerns for the maximisation of health related welfare for all with relevant nursing care needs in a resource limited setting Drawing on moral philosophy this book explores how discussions of partiality

and impartiality in moral philosophy can have relevance to the professional context of clinical nursing care as well as in nursing ethics in general It develops a framework for normative nursing ethics that incorporates a notion of permissible partiality and specifies which concerns an ethics of nursing care should entail when balancing partialist and impartialist concerns At the same time Nordhaug argues that this partiality must also be constrained by both principled and context sensitive assessments of patients needs as well as of the role relative deontological restriction of minimising harm something that could be mitigated by institutional and organisational arrangements This thought provoking volume is an important contribution to nursing ethics and philosophy *Leadership and Nursing Care Management* Jean Nagelkerk,2005-11-01
