The International Responsibility of the European Union Andrés Delgado Casteleiro, 2016-09-15 When is the EU responsible under international law Is the EU a special case international organisation The UN General Assembly's adoption of the ILC articles on the International Responsibility of International Organizations was only the catalyst for debate on this topic In this book the author examines the legal personality of the EU how if at all its responsibility under international agreements is shared between Member States and how the international responsibility of the EU relates to its internal responsibilities under EU law By exploring how in practice such legal regimes as the ILC UNCLOS and the WTO have held the EU responsible this book provides an innovative analysis of a fundamental aspect of the relationship between the EU and international law

The Accession of the European Union to the European Convention on Human Rights Paul Gragl, 2013-06-20 After more than 30 years of discussion negotiations between the Council of Europe and the European Union on the EU's accession to the European Convention on Human Rights have resulted in a Draft Accession Agreement This will allow the EU to accede to the Convention within the next couple of years As a consequence the Union

will become subject to the external judicial supervision of an international treaty regime Individuals will also be entitled to submit applications against the Union alleging that their fundamental rights have been violated by legal acts rooted in EU law directly to the Strasbourg Court As the first comprehensive monograph on this topic this book examines the concerns for the EU's legal system in relation to accession and the question of whether and how accession and the system of human rights protection under the Convention can be effectively reconciled with the autonomy of EU law It also takes into account how this objective can be attained without jeopardising the current system of individual human rights protection under the Convention The main chapters deal with the legal status and rank of the Convention and the Accession Agreement within Union law after accession the external review of EU law by Strasbourg and the potential subordination of the Luxembourg Court the future of individual applications and the so called co respondent mechanism the legal arrangement of inter party cases after accession and the presumable clash of jurisdictions between Strasbourg and Luxembourg and the interplay between the Convention's subsidiarity principle the exhaustion of local remedies and the prior involvement of the Luxembourg Court in EU related cases The analysis presented in this book comes at a crucial point in the history of European human rights law offering a holistic and detailed enquiry into the EU's accession to the ECHR and how this move can be reconciled with the autonomy of EU law

Translating in Linguistically Diverse Societies Gabriel González Núñez, 2016-09-09 This work is the first book length treatment on translation policy Nearly everywhere in the world populations are multilingual and mobile consequently language policies developed by the authorities must include choices about the use or non use of translation This book recognizes that these choices or the absence thereof become policies of their own in terms of translation It builds upon the work of scholars in the fields of translation studies and language planning and policy in order to develop a new theoretical perspective on translation policy In essence the book proposes that translation policy can be understood as the management practice and beliefs surrounding the use of translation The book deals with these issues under European and international law and then explores such management practice and beliefs in the UK as a case study Ultimately the reader can find a fuller appreciation of both the importance and complexity of translation policy
