Poisoned Lands:

John Montague Frank L. Kersnowski, 1975 Briefly reviews the contemporary Irish writer's thematic concerns and discuss such works as *Forms of Exile* and *A Chosen Light* **Chemical Lands** David D. Vail, 2018 An exploration of the elaborate relationship between farmers aerial sprayers agriculturalists crop pests chemicals and the environment The controversies in the 1960s and 1970s that swirled around indiscriminate use of agricultural chemicals their long term ecological harm versus food production benefits were sparked and clarified by biologist Rachel Carson's *Silent Spring* 1962 This seminal publication challenged long held assumptions concerning the industrial might of American agriculture while sounding an alarm for the damaging persistence of pesticides especially chlorinated hydrocarbons such as DDT in the larger environment In *Chemical Lands Pesticides Aerial Spraying and Health in North America's Grasslands since 1945* David D Vail shows however that a distinctly regional view of agricultural health evolved His analysis reveals a particularly strong ethic in the North American grasslands where practitioners sought to understand and deploy insecticides and herbicides by designing local scientific experiments engineering more precise aircraft sprayers developing more narrowly specific chemicals and planting targeted test crops Their efforts to link the science of toxicology with environmental health reveal how the practitioners of pesticides evaluated potential hazards in the agricultural landscape while recognizing the production benefits of controlled spraying *Chemical Lands* adds to a growing list of books on toxins in the American landscape This study provides a unique Grasslands perspective of the Ag pilots weed scientists and farmers who struggled to navigate novel technologies for spray planes and in the development of new herbicides insecticides while striving to manage and mitigate threats to human health and the environment **Poisoned Lands** John Montague, 1977 **Dakota Prairie Grasslands, Medicine Bow-Routt and Nebraska National Forests (N.F.), Northern Great Plains Management Plans Revision**, 1999 *Parliamentary Debates* Western Australia. Parliament, 1894 **Report of the Chief of the Bureau of Biological Survey** United States. Bureau of Biological Survey, 1923 Annual Reports of the Department of Agriculture for the Fiscal Year Ended ... United States. Department of Agriculture, 1924 Reports ... from 1852 to ... 1854(-1867). By A. F. Irvine Scotland. High Court of Justiciary, 1868 Reports of Cases Before the High Court and Circuit Courts of Justiciary in Scotland Scotland. High Court of Justiciary, Alexander Forbes Irvine, 1868 Parliamentary debates, legislative council and legislative assembly Australia Western parl, 1899 **Engaging Anthropological Theory** Mark Moberg, 2024-09-30 The updated third edition of this book critically reconsiders the history of anthropological theory Covering key concepts and theorists in a lively style *Engaging Anthropological Theory* examines the historical context of anthropological ideas and the contested nature of anthropology itself The book illustrates how anthropological ideas about human diversity are rooted in historical conditions including the West's relationship with colonized societies and the politics of scholarly inquiry itself Exploring anthropological ideas in context helps students understand how they evolved and how they relate to society and history This new edition pays close

attention to non canonical figures and scholars of color whose contributions are too often bypassed in disciplinary histories Students and instructors will also appreciate the open ended review questions for each chapter that stimulate critical thought and discussion Extensively illustrated throughout this engaging text moves away from the dry recitation of past viewpoints in anthropology and shows their continued relevance to modern life
