Political Pro The Johnson Years Political Pro:

The Process and Politics of Defense Acquisition David S. Sorenson, 2008-12-30 The United States government invests billions each year on equipping armed forces with the most advanced military equipment The root of the American defense acquisition system is driven by a combination of national interests and domestic political requirements While fundamentally the defense acquisition system has produced results for the United States military improvements are needed in order to continue to move forward in advancing military tactics and technology Exploring both the systemic and political levels of the system Sorenson argues that the United States will fall behind if the current defense acquisition system is not reformed This book brings together elements of this complicated system such as national security requirements and the changes that are needed in both the structural and political pillars A combination of political interests and the needs of the military serviced by an ever shrinking defense industry make a genuine acquisition reform even more difficult resulting in reform that is more symbolic than genuine

Politics, Process, and American Trade Policy Sharyn O'Halloran, 1994 Relying on the New Economics of Organizations NEO or New Institutionalism Politics Process and American Trade Policy shows why conventional models do not adequately describe the formation of American trade policy Rejecting both the pressure group model and the presidential ascendancy model this study's institution based approach emphasizes the influence Congress has in setting trade policy connecting theories of institutional design with the procedural details of regulating trade policy To reach her conclusions Sharyn O'Halloran uses time series data and econometric analysis to test a set of propositions concerning trade policy She examines detailed case studies and provides a comprehensive history of the institutions that govern trade policy making Unlike most scholars who see trade policy as disparate and ad hoc O'Halloran is able to explain both early and contemporary American trade policy in a consistent and integrated fashion She argues that a single set of procedures may lead to apparently different outcomes under differing initial conditions therefore the key is to identify the common logic derived from constitutional imperatives that underlies all policy outcomes

The Political Process of Policymaking P. Zittoun, 2014-06-17 Philippe Zittoun analyses the public policymaking process focusing on how governments relentlessly develop proposals to change public policy to address insoluble problems Rather than considering this surprising Sisyphean effort as a lack of rationality the author examines it as a political activity that produces order and stability

The Political Process and Economic Change Bruno S. Frey, Kristen R. Monroe, 1983 In this book 10 international scholars examine the complex relationship between the economy and the polity from a scientific rather than an ideological point of view In so doing they present an overview of the exciting new work now being done the main ideas and controversies now prevalent and the new approaches to the study of political economy now being pursued

Lyndon B. Johnson and the Politics of Arms Sales to Israel Abraham Ben-Zvi, 2004-02-05 Lyndon B Johnson and the Politics of Arms Sales to Israel seeks to reconstruct and elucidate the processes behind the decisions made by the Johnson Administration

during the years 1965-68 to sell Israel M 48 tanks A 4 Skyhawk planes and F 4 Phantom planes This examination is based on a distinction between three factions which competed for influence within Washington's high policy elite the traditionalists whose major representative was Secretary of State Dean Rusk the pragmatists whose most outspoken representative was Robert Komer of the National Security Council and the domestically oriented policymakers the central decision maker who quintessentially exemplifies this category being President Johnson This book is a sequel to John F Kennedy and the Politics of Arms Sales to Israel which examined the first arms deal between the US and Israel *Presidents, Prime Ministers and Chancellors* L. Helms, 2004-12-07 How have the American presidency the British premiership and the German chancellorship changed over the last half century Has there been convergence or divergence in the development of political leadership in the United States and in the two largest democracies of Western Europe And what difference can individual leaders make in an ever more complex political environment *Presidents Prime Ministers and Chancellors* addresses these questions by looking at the leadership performance of more than two dozen American presidents British prime ministers and German chancellors of the post 1945 period In so doing it offers a unique perspective on the nature of executive leadership in Western democracies that takes into account both the international and the historical dimension of comparison Power, Politics, and Culture Edward W. Said, 2007-12-18 Edward Said has long been considered one of the world's most compelling public intellectuals taking on a remarkable array of topics with his many publications But no single book has encompassed the vast scope of his stimulating erudition quite like *Power Politics and Culture* A fascinating oblique entry into the mind of one whose own writings are a brilliant questioning chronicle of contemporary culture and values Nadine Gordimer In these twenty eight interviews Said addresses everything from Palestine to Pavarotti from his nomadic upbringing under colonial rule to his politically active and often controversial adulthood and reflects on Austen Beckett Conrad Naipaul Mahfouz and Rushdie as well as on fellow critics Bloom Derrida and Foucault The passion Said feels for literature music history and politics is powerfully conveyed in this indispensable complement to his prolific life's work *Small Business Policy and the American Creed* Sandra M. Anglund, 2000-03-30 Sandra M Anglund examines the American national government's small business assistance policy from the passage of the Small Business Act of 1953 onward She traces the heritage of the policy and shows how American core values those often referred to as the American Creed contributed to shaping that policy Anglund points out that the American national government is in the business of promoting small business Government agencies help entrepreneurs develop small businesses through a wide range of programs providing financial assistance such as loans government contract assistance including set asides and management and technical support Unlike government programs for farmers and big businesses which are usually invisible to the citizenry small business aid programs are extremely and intentionally visible Congress declared the policy of aiding small business and launched the contemporary era of small business assistance programs in the Small Business Act of 1953 In this study Anglund traces the heritage of the

Small Business Act probes influences on small business and enactments of the 1953 1997 period and show how American core values those often referred to as the American Creed contributed to shaping small business policy and to the support it received Scholars students and researchers involved with public policy political culture business politics and history and economic development will find this study of particular interest
