sensitive psychoanalysis an analytic tradition characterized by sensitivity to the spiritual and religious dimensions of human life and oriented towards spiritual growth Psychoanalysis has historically evinced severe suspicion to all ideas and ideals of religion and spirit However in recent years a new analytic approach is emerging which recognizes faith and spirituality as crucial parts of full satisfying psychic life This book explores the unique ways in which this approach refers to and understands core analytic issues such as transference interpretation psychopathology and psychic development It goes on to expound the approach's understanding of the analytic relationship and the way it influences the spiritual person It also discusses the tensions arising between this emerging school of thought and the existing body of psychoanalytic knowledge Psychoanalysis is a practice that deals with the most profound questions of life and creates shifts in the way reality is perceived Discussing freely and deeply its spiritual aspects and aspirations will enlighten analysts new to the emerging spiritually sensitive tradition as well as those who are more familiar with it and who are looking for a comprehensive description of this fresh approach to analysis

Fragments of Trauma and the Social Production of Suffering, Marilyn Charles, Michael O'Loughlin, 2014-11-05 Fragments of Trauma and the Social Production of Suffering Trauma History and Memory offers a kaleidoscope of perspectives that highlight the problem of traumatic memory Because trauma fragments memory storytelling is impeded by what is unknowable and what is unspeakable Each of the contributors tackles the problem of narrativizing memory that is constructed from fragments that have been passed along the generations When trauma is cultural as well as personal it becomes even more invisible as each generation's attempts at coping push the pain further below the surface Consequently that pain becomes increasingly ineffable haunting succeeding generations In each story the contributors offer there emerges the theme of difference a difference that turns back on itself and makes an accusation Themes of knowing and unknowing show the terrible toll that trauma takes when there is no one with whom the trauma can be acknowledged and worked through In the face of utter lack of recognition what might be known together becomes hidden Our failure to speak to these unaspirated truths becomes a betrayal of self and also of others In the case of intergenerational and cultural trauma we betray not only our ancestors but also the future generations to come In the face of unacknowledged trauma this book reveals that we are confronted with the perennial choice of speaking or becoming complicit in our silence
