Fred Dallmayr

Radhakrishnan And The Ways Of Oneness Of East And West:

Radhakrishnan and the Ways of Oneness of East and West Troy Wilson Organ, 1989 Papers of a conference of the Institute for Environmental Studies Ramapo College of New Jersey May 1986 The book provides an interdisciplinary overview and analysis of radon and the environment No math Accessible to lay readers No index Using the works of Radhakrishnan Organ philosophy emeritus Ohio U identifies eight ways of oneness and concludes that one of them nondestructive dualism is the path toward which Eastern and Western philosophers should work No index Annotation copyrighted by Book News Inc Portland OR

The Epistemology of Comparative Philosophy Joseph Kaipayil, 1995

Eastern Influences on Western Philosophy A. L. Macfie, 2019-08-05 This Reader explores the extent of Oriental influence on European thought primarily in the period of the Enlightenment and the nineteenth century period of doubt and scepticism that followed it It is the first Reader to bring together in one place a series of specific historical and textual studies of Oriental influence upon European thinkers

Beyond Orientalism Fred Dallmayr, 1996-12-12 Beyond Orientalism explores the confluence of contemporary Western especially Continental philosophy with its focus on otherness and difference and the ongoing process of globalization or the emergence of the global village The basic question raised in the book is What will be the prevailing life form or discourse of the global village Will it be the discourse of Western science industry and metaphysics which under the banner of modernization and development seeks to homogenize the world in its image In Said s work this strategy was labeled Orientalism Or will it be possible to move beyond Orientalism in the direction neither of global uniformity nor radical fragmentation After discussing the broad range of possible modes of cross cultural encounter in a historical perspective the book develops as a preferred option the notion of a deconstructive dialogue or a hermeneutics of difference which respects otherness beyond assimilation This hermeneutics is illustrated in chapters examining several bridge builders between cultures primarily the Indian philosophers Radhakrishnan and J L Mehta and the Indologist Halbfass The remaining chapters are devoted to more concrete social political problems including issues of modernization multiculturalism and the prospects of a globalized democracy which bids farewell to Orientalism and Eurocentrism

Philosophy East & West, 1992

A Comparative History of World Philosophy Ben-Ami Scharfstein, 1998-02-27 A Comparative History of World Philosophy presents a personal yet balanced guide through what the author argues to be the three great philosophical traditions Chinese European and Indian The book breaks through the cultural barriers between these traditions proving that despite their considerable differences fundamental resemblances exist in their abstract principles Ben Ami Scharfstein argues that Western students of philosophy will profit considerably if they study Indian and Chinese philosophy from the very beginning along with their own Written with clarity and infused with an engaging narrative voice this book is organized thematically presenting in virtually every chapter characteristic views from each tradition that represent similar positions in the core areas of metaphysics and epistemology At the same time Scharfstein develops each tradition historically as the chapters

unfold He presents a great variety of philosophical positions fairly avoiding the relativism and ethnocentrism that could easily plague a comparative presentation of Western and non Western philosophies **Oriental Enlightenment** J.J.

Clarke,2002-09-11 What is the place of Eastern thought Buddhism Taoism Hinduism Confucianism in the Western intellectual tradition Oriental Enlightenment shows how despite current talk of globalization there is still a reluctance to accept that the West could have borrowed anything of significance from the East and explores a critique of the orientalist view that we must regard any study of the East through the lens of Western colonialism and domination Oriental Enlightenment provides a lucid introduction to the fascination Eastern thought has exerted on Western minds since the Renaissance **Beyond**

Orientalism Eli Franco,1997 Wilhelm Halbfass philosopher and Indologist is a committed participant in the dialogue between India and Europe whose reflections on the Indian tradition and its Western perception are accompanied by reflection on and critical examination of the Western tradition In this innovative combination of Indological research and philosophical hermeneutical research in the history of ideas he demonstrates a purpose more ambitious and a scope wider than Edward Said s who constructed the Western study of the so called Orient as an attempt to deprive it of its identity and sovereignty and who perceived the pursuit of Oriental Studies in Western universities to be an extension of a fundamentally political will to power and domination Without denying the domination of the dialogue between India and Europe by the West Halbfass goes beyond that to show a different way of approaching Indian thought he strives to establish the presuppositions and prerequisites that would make a true dialogue and mutual understanding between Indian and Western intellectual cultures possible The papers in the present volume originate from twenty three scholars of Indology philosophy religious studies comparative theology classics folkloristics and political theory working in eleven countries spread over three continents They address central issues of Halbfass work his critical responses to them commence with an extensive essay in which he assesses in a masterly manner the state of Indian studies almost twenty years after the publication of Said s
