Parker, 2004 This is a 3 in 1 reference book It gives a complete medical dictionary covering hundreds of terms and expressions relating to knee pain It also gives extensive lists of bibliographic citations Finally it provides information to users on how to update their knowledge using various Internet resources The book is designed for physicians medical students preparing for Board examinations medical researchers and patients who want to become familiar with research dedicated to knee pain If your time is valuable this book is for you First you will not waste time searching the Internet while missing a lot of relevant information Second the book also saves you time indexing and defining entries Finally you will not waste time and money printing hundreds of web pages

Encyclopedia of Cancer and Society Graham A. Colditz, 2007-09-12 2008 CHOICE Outstanding Academic Title The Encyclopedia of Cancer Society provides a broad picture of cancer as a part of contemporary life in all regions of the world This public health perspective with an emphasis on prevention is unique and distinguishes the encyclopedia from other reference works such as The Gale Encyclopedia of Cancer A Guide to Cancer and Its Treatments 2d ed 2005 An excellent addition to academic health sciences and large public libraries Booklist Starred Review Since age is the dominant factor that drives cancer risk the total number of cancer cases diagnosed is expected to double by mid century The 750 entries in the set written by experts from a variety of disciplines explore key themes such as known carcinogens cancer around the world cancers by type treatments and therapies alternative treatments and the impact of cancer on society Colditz's medicine Washington Univ research on breast cancer and hormone treatments is widely cited Library Journal Each volume contains a listing of articles a roster with professional affiliations and a color Atlas of Cancer with well labeled illustrations This set also includes a resource guide listing books journals and Internet sources that deal with various aspects of cancer The appendix provides a good statistical overview of cancer rates by race and state and a glossary is adapted from the National Cancer Institute's online glossary Although other reference works are available on a wide range of cancer treatments and research topics this work goes beyond the provisions of information on medical conditions to help readers better understand the impact of behavioral change on cancer prevention Summing Up Recommended All levels CHOICE We live in a time when the cancer burden is rising globally yet advances in understanding the potential for prevention and the impact of our social structures on the underlying risk of disease rapidly inform strategies to reduce the burden There is overwhelming evidence that lifestyle factors impact cancer risk and that positive population wide changes can significantly reduce the occurrence of cancer The Encyclopedia of Cancer and Society is the first multivolume resource to define the issues that surround cancer and its effects on society With more than 750 entries these three volumes help students practitioners and researchers navigate through the terminology and concepts to better understand how cancer affects us way beyond the medical conditions that are regrettably more than obvious The scope of the Encyclopedia encompasses the

relative individual and societal aspects of cancer from the latest research from the National Cancer Institute to studies on alternative diet and nutrition treatments

Key Features Serves as a general and nontechnical resource for those in the fields of biology sociology health studies and other social science Illustrates how behavior change is possible and offers great potential for cancer prevention Covers descriptions of all cancers and treatments as well as possible causes Includes profiles of major cancer researchers doctors and all cancer associations Explores the status of cancer in major countries around the world Examines the relation between race and ethnicity and cancer risk Discusses controversies in cancer treatment and research

Key Themes Alternative Treatments and Therapies Associations by Cancer Type Associations Others Biographies Business of Cancer Cancer Around the World Cancer in Society Known or Suspected Carcinogens Causes of Cancer Major Cancer Associations Major Hospitals and Treatment Centers Prevention Treatments and Therapies Types of Cancer

The Encyclopedia of Cancer and Society helps map out the lessons from past victories and strategies that can be applied to understand the problem and minimize the burden as we move forward It is an outstanding reference for academic and public libraries medical and nursing schools biotechnology companies and research institutions

The Emperor of All Maladies Siddhartha Mukherjee, 2010-11-16 Winner of the Pulitzer Prize and a documentary from Ken Burns on PBS this New York Times bestseller is an extraordinary achievement The New Yorker a magnificent profoundly humane biography of cancer from its first documented appearances thousands of years ago through the epic battles in the twentieth century to cure control and conquer it to a radical new understanding of its essence Now includes an excerpt from Siddhartha Mukherjee's new book Song of the Cell Physician researcher and award winning science writer Siddhartha Mukherjee examines cancer with a cellular biologist's precision a historian's perspective and a biographer's passion The result is an astonishingly lucid and eloquent chronicle of a disease humans have lived with and perished from for more than five thousand years The story of cancer is a story of human ingenuity resilience and perseverance but also of hubris paternalism and misperception Mukherjee recounts centuries of discoveries setbacks victories and deaths told through the eyes of his predecessors and peers training their wits against an infinitely resourceful adversary that just three decades ago was thought to be easily vanquished in an all out war against cancer The book reads like a literary thriller with cancer as the protagonist Riveting urgent and surprising The Emperor of All Maladies provides a fascinating glimpse into the future of cancer treatments It is an illuminating book that provides hope and clarity to those seeking to demystify cancer
