Radical Protest And Social Structure:

Radical Protest and Social Structure Michael Schwartz, 1988-07-25 Michael Schwartz's book is really three books in one: an analysis of the structural changes that produced one of the most oppressive social systems the world has known, the one-crop cotton tenancy economy and the system of institutionalized racism and authoritarian one-party politics that was required to preserve the fragile economic arrangement; a theoretical analysis of the origins, mobilization, and outcome of insurgent challenges; and a meticulous application of that theory to the rise and collapse of the Populist movement.

Craig Jenkins, *Theory and Society*

Farmers in Rebellion Donna A. Barnes, 2014-06-23 The years after the Civil War brought struggle to the Southern farmer as the economic mainstay of the South, cotton steadily dropped in price. Prompted by hard times, farmers in Lampasas County, Texas, gathered in 1877 to discuss what could be done. From these modest origins emerged the National Farmers Alliance and Industrial Union, later known as the Southern Farmers Alliance, a powerful protest movement that played an important role in the formation in 1892 of a new political force, the People's Party. In the solid South, particularly in Texas, large numbers of voters abandoned the Democratic Party for the new party. Yet despite this support, the decline of the People's Party after 1894 was swift. *Farmers in Rebellion* recounts the compelling story of these two crucial and closely related movements. Donna A. Barnes examines their developmental histories, asking such important questions as: Under what conditions do protest movements remain weak? Under what conditions do they prosper, amassing large numbers of supporters? And under what conditions do successful protest movements lose their momentum and die? The author explores these complex questions with deft use of archival data that allows her to reflect on the adequacy of the past sociological answers to these questions. *Farmers in Rebellion* is a book rich in detail and scope in its look at a critical juncture in the growth of national populist movements. Of interest to sociologists, historians, and political scientists, it stands as an important contribution to our understanding of a pivotal time in Texas and national history.

The Louisiana Populist Movement, 1881-1900 Donna A. Barnes, 2011-05-18 The Populist movement of the late nineteenth century represents one of the largest third-party challenges in American history. Throughout the South, widespread drops in crop prices led to agrarian revolt, which contributed to the movement's popularity. Yet in the largely rural state of Louisiana, despite the political group's focus on empowering distressed farmers, this challenge proved far less successful. In Donna A. Barnes's *The Louisiana Populist Movement*, the question of ineffectuality makes an intriguing political case study of the Pelican State and Populism. Emerging in the 1890s as the political wing of the Southern Farmers Alliance, the Populists or People's Party garnered the support of millions of rural southerners. But the affiliated Louisiana party struggled to spread beyond a limited number of parishes in the northern and central part of the state. According to Barnes, the movement's relatively poor mobilization record provides an excellent opportunity to explore factors that impede social growth. Most scholars, she contends, often focus on the emergence and rise of successful political organizations and overlook the valuable observations to be found within less successful

movements such as Louisiana Populism In her evaluation Barnes points to racial division as the factor that undermined the Populist cause in Louisiana The Democratic Party saw the agenda of the Populist movement as a threat to white supremacy and thus when paired with the 1898 state constitution that disfranchised poor rural whites and most blacks predestined the People s Party to poor public reception Based on an array of archival research Barnes s study offers the definitive source for the history of the Louisiana Populist Movement as well as a multidimensional theoretical analysis of the factors behind the movement s failure

Levers of Power Michael Schwartz,Tarun Banerjee,Kevin A. Young,2020-07-07 It s no secret that the 1% the business elite that commands the largest corporations and

the connected network of public and private institutions exercise enormous control over U S government While this control is usually attributed to campaign donations and lobbying Disruptive Power argues that corporate power derives from control over the economic resources on which daily life depends Government officials must constantly strive to keep capitalists happy lest they go on capital strike that is refuse to invest in particular industries or locations or move their holdings to other countries and therefore impose material hardship on specific groups or the economy as a whole For this reason even politicians who are not dependent on corporations for their electoral success must fend off the interruption of corporate investment Disruptive Power documents the pervasive power of corporations and other institutions with decision making control over large pools of capital particularly the Pentagon It also shows that the most successful reform movements in recent U S history for workers rights for civil rights and against imperialist wars succeeded by directly targeting the corporations and other institutional adversaries that initiated and benefitted from oppressive policies Though most of today s social movements focus on elections and politicians movements of the 99% are most effective when they inflict direct costs on corporations and their allied institutions This strategy is also more conducive to building a revolutionary mass movement that can replace current institutions with democratic alternatives
