Radical Spaces Christina Parolin,2010-12-01 RADICAL SPACES explores the rise of popular radicalism in London between 1790 and 1845 through key sites of radical assembly the prison the tavern and the radical theatre Access to spaces in which to meet agitate and debate provided those excluded from the formal arenas of the political nation the great majority of the population a crucial voice in the public sphere RADICAL SPACES utilises both textual and visual public records private correspondence and the secret service reports from the files of the Home Office to shed new light on the rise of plebeian radicalism in the metropolis It brings the gendered nature of such sites to the fore finding women where none were thought to gather and reveals that despite the diversity in these spaces there existed a dynamic and symbiotic relationship between radical culture and the sites in which it operated These venues were both shaped by and helped to shape the political identity of a generation of radical men and women who envisioned a new social and political order for Britain

**Beyond Psychoppression** Betty McLellan,1995 Annotation A guide to therapy that explores the intersection between the personal and the political

**The Regulation of Medical Products** Penny Gleeson,2024-12-31 This book develops a theoretical framework for examining and assessing the regulatory arrangements for medical products Since the first half of the 20th century the regulation of pharmaceuticals medical devices and more recently biologicals have been controlled in many jurisdictions by specific regulatory regimes and agencies Their regulatory mandates are similar to ensure the quality safety and efficacy of medical products This book provides a timely and relevant assessment of the complexities of medical regulatory regimes by drawing on a particular theory of political legitimacy In this respect the book adopts a dialogic approach according to which a shared set of normative beliefs and values are formulated as a theoretical tool to identify deficiencies in the regulatory arrangements for medical products Drawing on several Australian cases studies characterised by divergent normative perspectives the book develops its dialogic approach in order to challenge the usual legitimization of regulatory regimes from the perspective of science alone Specifically it maintains that such regimes need to embrace a normative pluralism that admits a diversity of types and sources of knowledge This evaluation of the increasingly influential domain of medical regulation will appeal to a range of scholars and practitioners working in law public health politics and science and technology studies

Power and Protest at an American University Ellen Carnaghan,Kathryn E. Kuhn,2020-10-27 This book examines the successful no confidence movement led by faculty at Saint Louis University in 2013 in an effort to unseat the university president considering the reasons for success when similar movements often fail Through a series of chapters written by faculty from many disciplines at the university it uses a

particular episode of faculty protest to shed light on wider issues concerning the circumstances in which faculty are likely to be motivated to protest the institutional frameworks that make protest possible and the strategies that get results As such it will appeal to scholars of social movements with interests in protest and mobilization in the field of education      **England's Second Reformation** Anthony Milton, 2021-10-14 This compelling new history situates the religious upheavals of the civil war years within the broader history of the Church of England and demonstrates how rather than a destructive aberration this period is integral to and indeed the climax of England's post Reformation history      **The Roots of Radicalism** Craig Calhoun, 2024-05-31 The story of the rise of radicalism in the early nineteenth century has often been simplified into a fable about progressive social change The diverse social movements of the era religious political regional national antislavery and protemperance are presented as mere strands in a unified tapestry of labor and democratic mobilization Taking aim at this flawed view of radicalism as simply the extreme end of a single dimension of progress Craig Calhoun emphasizes the coexistence of different kinds of radicalism their tensions and their implications The Roots of Radicalism reveals the importance of radicalism's links to preindustrial culture and attachments to place and local communities as well the ways in which journalists who had been pushed out of respectable politics connected to artisans and other workers Calhoun shows how much public recognition mattered to radical movements and how religious cultural and directly political as well as economic concerns motivated people to join up Reflecting two decades of research into social movement theory and the history of protest The Roots of Radicalism offers compelling insights into the past that can tell us much about the present from American right wing populism to democratic upheavals in North Africa      **Contesting the Monolith** Priya Singh, 2025-10-24 The book challenges the notion that Israel is a homogeneous state whether in theory or in practice It offers a detailed and critical intersectional analysis of nationalism ethnicity gender and marginality in Israeli society revealing how these forces converge to produce multiple as well as fused identities within a complex social fabric Examining the ruptures and fault lines that shape a multi layered society the study contends that Israel's exceptionality lies not in its self proclaimed Jewish and democratic character but in its resort to exceptional legal and coercive measures to mask internal diversity By obscuring this heterogeneous reality the state cultivates an illusion of a monolithic and uniform Israeli identity The analysis presents a society far more fragmented and stratified than official narratives suggest offering readers an understanding of how intersecting structures of identity and power operate in the Israeli context and how social and political institutions respond to and regulate internal difference This book will be of interest to academic researchers postgraduate and doctoral students and policymakers engaged with questions of nationalism marginality identity and Middle Eastern politics particularly within the disciplines of political science sociology Middle Eastern studies and gender studies      *Respectability and Deviance* Ruth-Ellen B. Joeres, 1998 The first major study in English of nineteenth century German women writers this book examines their social and cultural milieu along with the layers of interpretation and representation that inform their

writing Studying a period of German literary history that has been largely ignored by modern readers Ruth Ellen Boetcher Joeres demonstrates that these writings offer intriguing opportunities to examine such critical topics as canon formation the relationship between gender class and popular culture and women professionalism and technology The writers she explores range from Annette von Droste Hülshoff who managed to work her way into the German canon to the popular serial novelist E. Marlitt from liberal writers such as Louise Otto and Fanny Lewald to the virtually unknown novelist and journalist Claire von Glümer Through this investigation Boetcher Joeres finds ambiguities compromises and subversions in these texts that offer an extensive and informative look at the exciting and transformative epoch that so much shaped our own **The**

**Epistemology of Protest** José Medina, 2023 The Epistemology of Protest offers a polyphonic theory of protest as a mechanism for political communication group constitution and epistemic empowerment The book analyzes the communicative power of protest to break social silences and disrupt insensitivity and complicity with injustice Philosopher José Medina also elucidates the power of protest movements to transform social sensibilities and change the political imagination Medina's theory of protest examines the obligations that citizens and institutions have to give proper uptake to protests and to communicatively engage with protesting publics in all their diversity without excluding or marginalizing radical voices and perspectives Throughout the book Medina gives communicative and epistemic arguments for the value of imagining with protest movements and for taking seriously the radical political imagination exercised in social movements of liberation Medina's theory sheds light on the different ways in which protest can be silenced and the different communicative and epistemic injustices that protest movements can face arguing for forms of epistemic activism that resist silencing and communicative epistemic injustices while empowering protesting voices While arguing for democratic obligations to give proper uptake to protest the book underscores how demanding listening to protesting voices can be under conditions of oppression and epistemic injustice A central claim of the book is that responsible citizens have an obligation to echo or express communicative solidarity with the protests of oppressed groups that have been silenced and epistemically marginalized Studying social uprisings the book further argues that citizens have a duty to join protesting publics when grave injustices are in the public eye

Covering the Shi'a Robert W. Tomlinson, 2018-11-15 Often demonized by the Western media and press Hezbollah's origins are rooted in activities of the Lebanese Shi'a in the late 1970s and early 80s Covering the Shi'a English Press Representation of the Lebanese Shi'a 1975-1985 chronicles how the English language press and media represented the most consequential group in Lebanon to Western audiences during the critical period of 1975-1985 Focusing on three of the most prominent English language newspapers at that time the book outlines how the Western media frequently disregarded the Shi'i civil rights movement in Lebanon Conflating that movement with other Arab independence campaigns the Western media missed key aspects and the dynamics at work in the Lebanese Shi'i community Additionally in failing to understand and report the nature of the transnational networks that supported the Shi'i community

in Lebanon the resultant news narrative reported in the English language media was at odds with the narratives harbored by the Lebanese Shi'a themselves. In order to gain an understanding of the operations of Lebanese Hezbollah today and the current media coverage of the organization this book offers insights on the origins of Shi'a resistance and how one can evaluate the group today. *Fictions of Authority* Susan Sniader Lanser, 2018-03-15 No detailed description available for *Fictions of Authority*

**Understanding Curriculum** William F. Pinar, 1995 Perhaps not since Ralph Tyler's 1949 *Basic Principles of Curriculum and Instruction* has a book communicated the field as completely as *Understanding Curriculum*. **Environmental Communication** Anabela Carvalho, Tarla Rai Peterson, 2024-12-30 This handbook reviews extant research and offers critical summaries of key topics and issues in the field enriched by authoritative analyses of specific cases and examples. It displays pluralism across a number of axes: epistemological theoretical geographical cultural and thematic. The first part offers historical routes through the international development of the field and explores the epistemological grounds of multiple strands of environmental communication studies. In aiming to map the field broadly as well as stimulating new thinking the second part is organized along three core perspectives: arenas voice and place. It comprises chapters on various public spaces that are critical to the symbolic constitution of the environment and sheds light on a range of aspects and social agents that have received insufficient attention including research about and carried out in non-Western countries. Crucially at a time of profound environmental crisis the final part of this book discusses possibilities and constraints to social change and the potential contributions of environmental communication research to ways of understanding and responding to the challenge.

**Agitation with a Smile** Stephen Bird, Adam Silver, Joshua C. Yesnowitz, 2015-11-17 *Agitation with a Smile* offers a reappraisal of Howard Zinn's political thought and situates his efforts in a contemporary context looking toward the nature of activism and dissent in the future. This is the first book to provide a substantive account and assessment of Zinn's philosophy and approach to collective action and to a larger extent democracy. The contributors to this book explore the most effective mechanisms by which to arouse public support for seemingly radical positions and how current technological advancements may alter our perception of Zinn's activism. The book is a valuable guide to a new generation of activists and scholars of politics in gauging the lasting relevance and legacy of Zinn's ideals concepts and methodology. The text is neither fawning nor unduly critical unlike many discussions of Zinn in popular culture. Rather the contributors engage the various complexities and tensions present.

throughout Zinn's work and subject them to contemporary assessment. This is a multidisciplinary and international approach to Howard Zinn's intellectual and activist canon. The Insurgency in Chechnya and the North Caucasus Robert W. Schaefer, 2010-10-22 For the first time a military expert on both Russia and insurgency offers the definitive guide on activities in Southern Russia explaining why the Russian approach to counter terrorism is failing and why terrorist and insurgent attacks in Russia have sharply increased over the past three years. The Insurgency in Chechnya and the North Caucasus From Gazavat to Jihad is a comprehensive treatment of this 300 year old conflict. Thematically organized it cuts through the rhetoric to provide a contextual framework with which readers can truly understand the why and how of one of the world's longest running contemporary insurgencies despite Russia's best efforts to eradicate it. A fascinating case study of a counterinsurgency campaign that is in direct contravention of U.S. and Western strategy the book also examines the differences and linkages between insurgency and terrorism the origins of conflict in the North Caucasus and the influences of different strains of Islam of al Qaida and of the War on Terror. A critical examination of never before revealed Russian counterinsurgency COIN campaigns explains why those campaigns have consistently failed and why the region has seen such an upswing in violence since the conflict was officially declared over less than two years ago.
