### Radio Morality And Culture Britain Canada And The United States 1919 1945:

Radio, Morality, & Culture Fortner, Robert S., 2005 Radio was considered an upstart in Great Britain a puzzle in Canada and a symbol of progress in the United States during the early twentieth century In all three countries when moral questions about the medium were raging the church was invited to the debate but faltered because of infighting and thereby failed to contribute a perspective that could have altered the future of radio Radio Morality and Culture Britain Canada and the United States 1919 1945 examines the moral controversies surrounding radio s development during its formative years In comparing the fledgling medium in Great Britain Canada and the United States Robert S Fortner documents how the church failed to participate in radio s moral development and instead engaged in internecine warfare over issues of legitimacy and orthodoxy While radio policy was being developed and communications history was being written the church was arguing about theological turf and dealing with internal disputes Fortner explains Radio Morality and Culture illustrates how without a moral anchor radio was at the whim of corporations whose foundation rested on political and social expediency not principle Fortner outlines why the absence of the church in the ethical discussions of radio s development left a void just when laws and regulations were being passed Fortner effectively synthesizes cultural history and theory communication studies and the role religious organizations played in shaping the content and character of early radio Geared to scholars of history communications and theology Radio Morality and Culture provides a useful resource for research scholarship and public policy Communicating in Canada's Past Gene Allen, Daniel J. snapshot ofwhere the field is at a given moment **Modernism at the Microphone** Melissa Dinsman, 2015-09-24 As the Second World War raged throughout Europe modernist writers often became crucial voices in the propaganda efforts of both sides Modernism at the Microphone Radio Propaganda and Literary Aesthetics During World War II is a comprehensive study of the role modernist writers radio works played in the propaganda war and the relationship between modernist literary aesthetics and propaganda Drawing on new archival research the book covers the broadcast work of such key figures as George Orwell Orson Welles Dorothy L Sayers Louis MacNeice Mulk Raj Anand T S Eliot and P G Wodehouse In addition to the work of Anglo American modernists Melissa Dinsman also explores the radio work of exiled German writers such as Thomas Mann as well as Ezra Pound's notorious pro fascist broadcasts In this way the book reveals modernism's engagement with new technologies that opened up transnational boundaries under the pressures of war **Canada before Television** Len Kuffert, 2016-11-01 Before screens could be stared at listeners lent their ears to radio and Canadian listeners were as avid as any In Canada before Television Len Kuffert takes us back to the earliest days of broadcasting paying particular attention to how programs were imagined and made loved and hated regulated and tolerated At a time when democracy stood out as a foundational value in the West Canada's private stations and the CBC often had conflicting ideas about what should or could be broadcast While historians have documented the nationalist and culturally aspirational motives of some broadcasters the story behind the production of programs for both broad and specialized audiences has not been as effectively told By interweaving archival evidence with insights drawn from secondary literature Canada before Television offers perspectives on radio s intimate power the promise and challenge of US programming and British influences the regulation of taste on the air shifting and varied musical appetites and the difficulties of knowing what listeners wanted While this mixed system divided Canadians then and now the presence of more than one vision for the emerging medium made the early years of broadcasting in Canada more culturally democratic for listeners who stood a better chance of getting both what they already liked and what they might come to like Canada before Television offers an insightful look at the place of radio and debates about programming in the development of a cultural democracy Birth Control and American Modernity Trent MacNamara, 2018-10-11 MacNamara reveals how ordinary women and men legitimized birth control through private moral action as opposed to public advocacy in the early twentieth century The Sounds of Mandarin Janet Y. Chen, 2023-07-11 Mandarin Chinese is the most widely spoken language in the world today In China a country with a vast array of regional and local vernaculars how was this common language forged How did people learn to speak Mandarin And what does a focus on speech instead of script reveal about Chinese language and history This book traces the surprising social history of China's spoken standard from its creation as the national language of the early Republic in 1913 to its journey into postwar Taiwan to its reconfiguration as the common language of the People's Republic after 1949 Janet Y Chen examines the process of linguistic change from multiple perspectives emphasizing the experiences of ordinary people After

the fall of the Oing dynasty a chorus of influential elites promoted the goal of a strong China speaking in one unified voice Chen explores how this vision fared in practice showing the complexities of transforming an ideological aspiration into spoken reality She tracks linguistic change in schools rural areas and urban life against the backdrop of war and revolution The Sounds of Mandarin draws on a novel aural archive of early twentieth century sound technology including phonograph recordings films and radio broadcasts Following the uneven trajectory of standard speech this book sheds new light on the histories of language nationalism and identity in China and Taiwan Wireless and Empire Aitor Anduaga, 2009-02-19 Although the product of a self proclaimed consensus politics the British Empire was always based on communications supremacy and the knowledge of the atmosphere Using the metaphor of a thread of five pieces representing the categories science industry government the military and the education this is the first book to study the relations between wireless and Empire throughout the interwar period It is also the first to make full use of the abundant archive material and rich sources existing in Britain and the Dominions The book examines the evolving connection between the development of imperial radio communications and atmospheric physics the expansion and strength of the British radio industry and its relationship with the elucidation of the ionosphere and the different extent to which Australia Canada and New Zealand managed to emulate the British model of radio R D in the interwar years The book ends with a highly original and provocative epilogue The realist interpretation of the atmosphere The Handbook of Media and Mass Communication Theory Robert S. Fortner, P. Mark Fackler, 2014-03-10 The Handbook of Media and Mass Communication Theory presents a comprehensive collection of original essays that focus on all aspects of current and classic theories and practices relating to media and mass communication Focuses on all aspects of current and classic theories and practices relating to media and mass communication Includes essays from a variety of global contexts from Asia and the Middle East to the Americas Gives niche theories new life in several essays that use them to illuminate their application in specific contexts Features coverage of a wide variety of theoretical perspectives Pays close attention to the use of theory in understanding new communication contexts such as social media 2 Volumes Wireless and Empire Aitor Anduaga Egaña, Aitor Anduaga, 2009-02-19 Although the product of consensus politics the British Empire was based on communications supremacy and the knowledge of the atmosphere Focusing on science industry government the military and education this book studies the relationship between wireless and Empire throughout the interwar period Music in Range Brian Fauteux, 2015-11-02 Music in Range explores the history of Canadian campus radio highlighting the factors that have shaped its close relationship with local music and culture The book traces how campus radio practitioners have expanded stations from campus borders to sur rounding musical and cultural communities by acquiring FM licenses and establishing community based mandates The culture of a campus station extends beyond its studio and into the wider community where it is connected to the local music scene within its broadcast range The book examines campus stations and local music in Vancouver Winnipeg and Sackville

NB and highlights the ways that campus stations through music based programming their operational practices and the culture under which they operate produce alternative methods and values for circulating local and independent Canadian artists at a time when ubiquitous commercial media outlets do exactly the opposite Music in Range sheds light on a radio sector that is an integral component of Canada's musical and cultural fabric and positions campus radio as a worthy site of attention at a time when connectivity and sharing between musicians music fans and cultural intermediaries are increasingly shaping our experience of music radio and sound Beyond Pleasure Evert Peeters, Leen Van Molle, Kaat Wils, 2011-04-01 Asceticism so it is argued in this volume is a modern category. The ubiquitous cult of the body of fitness and diet equally evokes the ongoing success of ascetic practices and beliefs Nostalgic memories of hardship and discipline in the army youth movements or boarding schools remain as present as the fashionable irritation with the presumed modern day laziness In the very texture of contemporary culture age old asceticism proves to be remarkably alive Old ascetic forms were remoulded to serve modern desires for personal authenticity an authenticity that disconnected asceticism in the course of the nineteenth century from two traditions that had underpinned it since classical antiquity the public republican austerity of antiquity and the private religious asceticism of Christianity Exploring various aspects such as the history of the body of aesthetics science and social thought in several European countries Great Britain France Germany Austria and Belgium the authors show that modern asceticism remains a deeply ambivalent category Apart from self realisation classical and religious examples continue to haunt the ascetic mind
