Radio Wizard Edward Samuel Rogers And The Revolution Of Communication:

Radio Wizard Ian Anthony, Rogers Telecommunications Limited, 2000 **High Wire Act** Caroline Van Hasselt, 2010-03-17 There has possibly never been a more daring business figure in Canada's history than Ted Rogers. Hailed by some as a visionary with an incomparable insight and equally loathed by others as a ruthless opportunist, Ted Rogers relentlessly conquered his rivals in three industries: radio, cable television, and cellular telephony. *High Wire Act* is an unprecedented in-depth analysis into how Ted Rogers, driven by the psychological need to restore his family's name, leveraged his stake in a small Toronto FM radio station and propelled it into a media and telecommunications behemoth worth over 23 billion. The many topics covered in the book include details on Rogers' unmatched ability to foresee the convergence of cable and telephony before anyone else did; insatiable appetite for debt and risk-taking; and how he bet his company three times to carry out his vision. Shrewd political and regulatory maneuvers that always kept him one step ahead of his competitors and political adversaries such as Bell and the Aspers. Opportunistic acquisition of the Toronto Blue Jays. *High Wire Act* is a fascinating and one-of-a-kind look into one of Canada's most audacious and visionary business figures of the past fifty years. Every Canadian business reader will be enthralled by this enduring success story of Canada's only true telecommunications mogul.

Art Deco Michael Windover, 2012-09 The goal of the logo is to alert readers to the threat that massive unauthorized photocopying poses to the future of the written work. The Deco idiom colonized broadcast facilities from the world's metropolis in London to the North American prairie and instrumented the radio cabinet in the houses of the prosperous to the relatively poor. This book would not have been possible without the vision and support of Luc Noppen and the Institut du patrimoine of the Universit  du Qu bec Montr al and the Society for the Study of Architecture in Canada, which founded the Prix Phyllis Lambert. In addition to Luc and the Institut du patrimoine, I would like to acknowledge the financial support of the Social Science and Humanities Research Council of Canada, the IODE War Memorial Scholarship Program, the Shastri Indo-Canadian Institute, the Canadian Centre for Architecture (CCA) with support of TD Financial Bank, and at UBC the Faculty of Graduate Studies and the Department of Art History. There are numerous others who gave of their time and expertise: Don Luxton, Linda Fraser at the CAA, Joan Seidl at the Museum of Vancouver, the staff at the City of Vancouver Archives and the Vancouver Public Library, the staff at the Special Collections at UBC, Alexis Sornin, and the librarians at the CCA, Kathleen Correia, and the staff at the California State Library. The Early Shortwave Stations Jerome S. Berg, 2013-10-04 In July 1923, less than three years after Westinghouse station KDKA signed on, company engineer Frank Conrad began regular simulcasting of its programs on a frequency in the newly discovered shortwave range. It was an important event in a technological revolution that would make dependable worldwide radio communication possible for the first time. In subsequent years, countless stations in practically all countries followed suit, taking to shortwave to extend reception domestically or reach audiences thousands of miles away. Shortwave broadcasting would also have an important

role in World War II and in the Cold War In this his fourth book on shortwave broadcast history the author revisits the period of his earlier work *On the Short Waves 1923 1945* and focuses on the stations that were on the air in those early days The year by year account chronicles the birth and operation of the large international broadcasters as well as the numerous smaller stations that were a great attraction to the DXers or long distance radio enthusiasts of the time With more than 100 illustrations and extensive notes bibliography and index the book is also a valuable starting point for further study and research

Canada Michelangelo Sabatino,Rhodri Windsor Liscombe,2016-11-15 Canada is a country of massive size of diverse geographical features and an equally diverse population all features that are magnificently reflected in its architecture In this book Rhodri Windsor Liscombe and Michelangelo Sabatino offer a richly informative history of Canadian architecture that celebrates and explores the country s many contributions to the spread of architectural modernity in the Americas A distinct Canadian design attitude coalesced during the twentieth century one informed by a liberal hybrid and pragmatic mindset intent less upon the dogma of architectural language and more on thinking about the formation of inclusive spaces and places Taking a fresh perspective on design production they map the unfolding of architectural modernity across the country from the completion of the transcontinental railway in the late 1880s through to the present Along the way they discuss architecture within the broader contexts of political industrial and sociocultural evolution the urban suburban expansion and new building technologies Examining the works of architects and firms such as ARCOP Eric Arthur Ernest Cormier Brigitte Shim and Howard Sutcliffe this book brings Canadian architecture chronologically and thematically to life **Relentless** Ted Rogers,Robert Brehl,2013-09-24 From his earliest days buying Canada s first FM radio station CHFI to developing Rogers Cable Media and Wireless Relentless tells the true story of the man who stood alone among Canada s all time

business giants Relentless is the amazing story of a young man who overcame the early death of his father which cost the family a burgeoning radio business to establish and nurture one of the biggest communications companies in North America Relentless published mere weeks before Ted Rogers death in late 2008 is filled with back room deals on air battles and the often outrageous exploits of an extraordinary entrepreneur The book made headlines coast to coast when it was first published and Rogers passing spawned tributes in newspapers as well as on radio TV and the Internet in Canada and around the world *Swashbucklers* Knowlton Nash,2001 From its beginnings broadcasting in Canada has been a battlefield with the larger than life entrepreneurs who fell in love with the new medium locked in battle with government and meddlesome do gooders impressed by the cultural power of radio The first fight of the radio pioneers was over advertising and initially the private broadcasters won commercials were here to stay making radio an immensely profitable industry But the biggest battle of the early years was between private broadcasters and those who lobbied against the new commercial adventurers should the airwaves be used to sell things and entertain or to enrich and educate Canadians The struggle consumed both sides for years even after the establishment of national public radio in 1936 The advent of television in the early 1950s merely moved the war to fresh terrain By the early 1980s the private broadcasters appeared to have won but a new player arrived on the scene the cable industry The proliferation of specialty channels threatened the end of mass national audiences for television but in an ironic twist the small specialty audiences for cable awoke private broadcasters to the need for specialized Canadian programming The swashbucklers who battled for control of the airwaves and over what is broadcast on them have left behind them a rich record one that Nash brings to life in this vivid and entertaining story of the men the Sedgwicks of Toronto the Siftons of the Prairies the Thomsons of Ontario the Bassetts and the Rogers of Toronto the Aspers of Winnipeg the Shaws of Calgary the Chandlers of Vancouver the Peladeaus of Quebec along with Moses Znaimer of CITY TV and Ivan Fecanof CTV who together have entertained us and tried to sell us things in the privacy of our living rooms for much of this century Canadian Books in Print 2002 Marian Butler,2002-02 *Canadian Books in Print* ,2003 *Toronto* Ron Williamson,2008-06-15 Telling Toronto s story from the final retreat of the Laurentide Ice Sheet to today s metropolis a team of expert authors brings beautiful illustrations and fascinating fresh perspectives together in this new natural archaeological and social history Le Magicien de la Radio Ian Anthony,2000 **The Publishers' Circular and the Publisher & Bookseller** ,1937 **AB Bookman's Weekly** ,1986 **The Publishers' Trade List Annual** ,1990 **Who's who in Entertainment** ,1992 *Who's who of Emerging Leaders in America* ,1991 **The School Librarian** ,1989 **Fiction, Folklore, Fantasy & Poetry for Children, 1876-1985: Titles, awards** ,1986
