**Radiohead and the Resistant Concept**

**Album** Marianne Tatom Letts,2010-11-08 How the British rock band Radiohead subverts the idea of the concept album in order to articulate themes of alienation and anti capitalism is the focus of Marianne Tatom Letts s analysis of Kid A and Amnesiac These experimental albums marked a departure from the band s standard guitar driven base layered with complex production effects Considering the albums in the context of the band s earlier releases Letts explores the motivations behind this change She places the two albums within the concept album progressive rock tradition and shows how both resist that tradition Unlike most critics of Radiohead who focus on the band s lyrics videos sociological importance or audience reception Letts focuses on the music itself She investigates Radiohead s ambivalence toward its own success as manifested in the vanishing subject of Kid A on these two albums

Mark Powley, 2011-01-04 Consumerism is everywhere It shapes the way we eat shop rest think love and believe We can't escape it but how can we live well in the midst of it We are daily seduced by a 250 billion dollar marketing machine But how often do we consider how this might influence us The current prevailing orthodoxy is that life should be lived to the max By contrast Jesus modeled a life of joyful limitation free to do free not to do Consumer Detox complete with the Detox Diary in the back of the book with suggestions for each chapter encouraging stories and space for writing personal reflections is for those who want to break out of a lifestyle dominated by consumerism and journey toward a richer simpler more generous life Consumer

Detox written out of Mark Powley's experience of making a change in his own life is a three part book that will help you break out of the consumer mindset slow down to enjoy the natural rhythms of life and live a life of generosity This book isn't about living a smaller life but having a bigger vision which can help you become everything you were made to be The Language of Trees: A Rewilding of Literature and Landscape Katie Holten, 2023-04-04 NATIONAL BESTSELLER Inspiring insights that are scientific intimate and surprising a call to action for those who still care The Washington Post Inspired by forests trees leaves roots and seeds The Language of Trees A Rewilding of Literature and Landscape invites readers to discover an unexpected and imaginative language to better read and write the natural world around us and reclaim our relationship with it In this gorgeously illustrated and deeply thoughtful collection Katie Holten gifts readers her tree alphabet and uses it to masterfully translate and illuminate beloved lost and new original writing in praise of the natural world With an introduction from Ross Gay and featuring writings from over fifty contributors including Ursula K Le Guin Ada Lim n Robert Macfarlane Zadie Smith Radiohead Aimee Nezhukumatathil James Gleick Elizabeth Kolbert Plato and Robin Wall Kimmerer Holten illustrates each selection with an abiding love and reverence for the magic of trees She guides readers on a journey from creation myths and cave paintings to the death of a 3 500 year old cypress tree from Tree Clocks in Mongolia and forest fragments in the Amazon to the language of fossil poetry unearthing a new way to see the natural beauty all around us and an urgent reminder of what could happen if we allow it to slip away The Language of Trees considers our relationship with literature and landscape resulting in an astonishing fusion of storytelling and art and a deeply beautiful celebration of trees through the ages Say It With Me Vanessa Lampert, 2022-04-24 Rooted in everyday communities the voice of Say It With Me is wry candid and knowing offering poems that playfully record the foibles of domestic life There are curious stories a parrot flies away but always returns to its master a school bully becomes their victim's acupuncture patient in adulthood and a donor finds new kinship with the woman who receives his cells All these stories are gems full of curious twists and turns Often the poems represent specific places and people sometimes nostalgically so like memories of family beach trips with loved ones now deceased Others are flights of fancy imagining a park of one's dreams an ode to the small pleasures of life or inventing a new history where a father didn't die young Most significant however are the poignant and remarkable stories of family life There are happy portraits as well as thoughtful poems concerning divorce and parenthood also the body in triumph and decline Though speakers take up a watchful distance from events they are also fierce and unafraid to intervene A middle aged woman on the beach wades into the sea to chastise some lads playing with an inflatable sex doll Say it with me a line taken from the poem Canada is a phrase that often precedes a rallying cry or a brave but controversial factual statement The tales in this collection feel true and honest and its title is a call to unite This is a collection about the communities in which we live and the interconnectedness of human beings The likeable speaker of these poems surveys it all with the dry humour and wisdom of an older woman posing scenarios that we can all recognize as authentic Ultimately Vanessa Lampert uses

deep and rich storytelling to lay bare truths that are at once funny moving and illuminating The poems in Vanessa Lampert's new collection are lodestars How lucky to be guided by them In this book nature is more than an encounter to wonder about it is a binding both to our home here on earth the daily joy and loss of that and to our own corporeal selves For anyone looking for the words to what it means to be human look no further they are here Matthew Dickman Vanessa Lampert has a rare talent for telling stories which although they come from a place deeply personal to her become universal in their rendering These are poems which welcome us in like old friends full of warmth and generosity and which have the sudden ability to switch gears and with them our emotions in just a few short lines or phrases Say It With Me is a remarkable first collection of poems a book infused with darkness and light beauty and sadness humour and ultimately hopefulness Brian Bilston In Say It with Me Lampert's observant and witty voice accompanies us through subtle turns in thought redirecting our attention with a glance a clearing of the throat so that we step from the scenery of life into the resonant emotional landscape of living Her poems open the aperture and expose us to the loss that time is always enacting upon us its cruelty and its beauty Jack Underwood Vanessa Lampert is a chronicler of minute but crucially significant moments she holds them to the light to find their gleam and then shows them to us as stunning jewels We enter one of her poems on the familiar ground of a summer beach or an ordinary municipal park and leave years later often having communed with those we've lost What she accomplishes may seem simple but the seismic shifts of our lives are packed into her humming lines Her poems are like a fairground on the final night of the season we want to clasp onto their joy and celebration that bit longer Tamar Yoseloff

[The Atomic Human](#) Neil D. Lawrence, 2024-09-03 A renowned computer scientist seeks the unique human quality that will prevail against artificial intelligence The greatest fear of AI is not that it rules out digital lives but that it displaces human intelligence entirely If artificial intelligence takes over decision making what then is unique and irreplaceable about human intelligence The Atomic Human is a journey of discovery to the core of what it is to be human in search of the qualities that cannot be replaced by the machine Neil Lawrence brings a timely fresh perspective to this new emerging era recounting his personal journey to understand the riddle of intelligence By understanding the essential element of what makes us human the atomic human Lawrence shows how AI can enable us to choose the future we want Lawrence persuasively shows that we can only control AI and decide what is right for society by understanding our intelligence and contrasting it against the new intelligence we are creating an intelligence he describes as helpless without humans even if unchecked it has the power to do great damage By contrasting our own intelligence with the capabilities of machine intelligence through history The Atomic Human reveals the technical origins capabilities and limitations of AI systems and how they should be wielded Not just by the experts but ordinary people
