Jacobson's War Peter J. Usher, 2018-01-26 In the spring of 1940 Canada sent hundreds of highly trained volunteers to serve in Britain s Royal Air Force as it began a concerted bombing campaign against Germany Nearly half of them were killed or captured within a year This is the story of one of those airmen as told through his own letters and diaries as well as those of his family and friends Joey Jacobson a young Jewish man from Westmount on the Island of Montreal trained as a navigator and bomb aimer in Western Canada On arriving in England he was assigned to No 106 Squadron a British unit tasked with

the bombing of Germany Joey Jacobson's War tells in his own words why he enlisted his understanding of strategy tactics and the effectiveness of the air war at its lowest point how he responded to the inevitable battle stress and how he became both a hopeful idealist and a seasoned airman Jacobson's written legacy as a serviceman is impressive in scope and depth and provides a lively and intimate account of a Jewish Canadian's life in the air and on the ground written in the intensity of the moment unfiltered by the memoirist's reflection revision or hindsight Accompanying excerpts from his father's diary show the maturation of the relationship between father and son in a dangerous time *The Battle of Britain, 1945-1965* Garry Campion, 2015-10-06 Seventy five years after the Battle of Britain the Few's role in preventing invasion continues to enjoy a revered place in popular memory The Air Ministry were central to the Battle's valorisation This book explores both this and also the now forgotten 1940 Battle of the Barges mounted by RAF bombers *Through Footless Halls of Air* Floyd Williston, 1996

represents a valuable repository of additional information for student research *The Heavy Bomber Offensive of WWII* Martin W. Bowman, 2015-05-31 This book contains fourteen stirring accounts each conveying an authentic sense of what it was really like to fly as a member of air crew during the various bombing operations of the Second World War The storytellers are an eclectic mix of pilots navigators bomb aimers wireless operators and gunners who flew on operations in heavy bombers It conveys the terror of being coned by German searchlights over the target attacks by Luftwaffe night fighters often catastrophic damage to aircraft and the ensuing struggle to keep the machine airborne on the return trip to base It tells of the comradeship between the crew and the humour between them often borne of fear The gentle and unassuming narratives include Millennium One of Our Aircraft Is Missing Bomber s Moon Bombing Berlin The Ordeal Of Pilot Officer Romans DFC Last Man Out operations on Whitleys and Halifaxes Flying Officer X Stirlings Rescue At Sea The Incendiary Load s Alight The Night Of The Bombs and The Kassel Raids of 1943 as well as BBC Broadcasts and stories by Allied war correspondents Each of these accounts conveys the sense of purpose that these men felt in doing one of the most dangerous jobs of the war It is a fitting tribute to those that survived and the many thousands who died in the struggle against Hitler s dreadful ambitions in Europe *A History of the Mediterranean Air War, 1940-1945* Christopher Shores, Russell Guest, 2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich s oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this

hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany's Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies *World War II Guide to Records Relating to U.S. Military Participation* Rebecca L. Collier, Judith Koucky, Patrick R. Osborn, 2008 *Air Pictorial*, 2002 **Air Power and the Evacuation of Dunkirk** Harry Raffal, 2021-07-15 The evacuation of Dunkirk has been immortalised in books prints and films narrated as a story of an outnumbered inexperienced RAF defeating the battle hardened Luftwaffe and protecting the evacuation This book revives the historiography by analysing the air operations during the evacuation Raffal draws from German and English sources many for the first time in the context of Operation DYNAMO to argue that both sides suffered a defeat over Dunkirk This work examines the resources and tactics of both sides during DYNAMO and challenges the traditional view that the Luftwaffe held the advantage The success that the Luftwaffe achieved during DYNAMO including halting daylight evacuations on 1 June is evaluated and the supporting role of RAF Bomber and Coastal Command is explored in detail for the first time Concluding that the RAF was not responsible for the Luftwaffe's failure to prevent the evacuation Raffal demonstrates that the reasons lay elsewhere **The RAF's French Foreign Legion** G H Bennett, 2011-06-30 An examination of the relationship between the Royal Air Force and the French Fighter pilots who flew for the RAF during WWII **Wire and Worse** Charles Rollings, 2004 Graphic portrait of life as an RAF prisoner of war *Atrocities, Massacres, and War Crimes* Alexander Mikaberidze, 2013-06-25 Both concise and wide ranging this encyclopedia covers massacres atrocities war crimes and genocides including acts of inhumanity on all continents and serves as a reminder that lest we forget history will repeat itself The 400 plus entries in *Atrocities Massacres and War Crimes An Encyclopedia* provide accessible and concise information on the difficult subject of abject human violence committed on all continents The entries in this two volume work describe atrocities massacres and war crimes committed in the 20th century thereby documenting how human beings have repeatedly proven their capability to commit horrific acts of inhumanity even in relatively recent times and within the modern era The encyclopedia covers countries treaties and terms profiles individuals who had been formally indicted for war crimes as well as those who have committed mass atrocities and gone unpunished and addresses human rights violations crimes against humanity and crimes against peace **West Point History of World War II, Vol. 1** The United States Military Academy, 2015-11-03 An outstanding new military history of the first half of World War II featuring a rich array of images exclusive graphics superb new maps and expert analysis commissioned by the United States Military Academy to teach the art of war to West Point cadets Since 1836 United States Military Academy texts have been the gold standard for teaching military history and the operational art of war Now the USMA has developed a new military history series for the public featuring the story of World War II in two volumes of which this is the first The West Point History of World War II combines the expertise of preeminent historians with hundreds of maps and images many created for this

volume or selected from Army collections The first volume offers a balanced narrative analyzing the rising tide of Axis conquest from 1939 to mid 1942 ranging from battlefield decisions to operational and strategic plans all set in their proper political context The closing chapter provides a thematic treatment of the mobilization of the warring nations economies and home fronts for the conduct of total war The West Point History of World War II has been tested checked and polished by West Point cadets faculty and graduates to make this the best military history of its kind **The Concise Encyclopedia of World War II** Cathal J. Nolan, 2010-04-22 A comprehensive and integrated military political and strategic history of World War II ranging from the daily life of conscripts and civilians to operational and strategic decision making at the highest levels Filled with up to date scholarship yet supremely manageable and accessible The Concise Encyclopedia of World War II offers the opportunity to explore a conflict that remains a source of fascination for scholars students and general readers alike From the battlefields to the corridors of power from the barracks to the home front The Concise Encyclopedia of World War II provides a complete portrait of the war Entries not only address major battles and campaigns but political economic and cultural issues as well plus brief portraits of the conflict's commanding personalities Its global perspective notably corrects the usual Western focus of World War II studies incorporating a wealth of information on often underreported topics such as the Eastern Front and the Sino Japanese War
