Streetcar service arrived in Philadelphia in the 1850s shortly after the consolidation of the city. After the Civil War the horse drawn omnibus gave way to a comprehensive network of streetcar lines with some routes measuring nineteen miles in length. By 1915 the electrification of the streetcar increased the number of routes in Philadelphia to a total of eighty six. During the trolley's heyday the city provided a vast test track for such companies as J G Brill Kimball and Gorton Car Manufacturers and the Budd Wheel Company. The Wharton Railroad Switch Company revolutionized the manufacture of switches and tracks. Of the lines that once operated in Philadelphia five are still running today. Philadelphia Trolleys contains a variety of rare images including a postcard of the Point Breeze Amusement Park, photographs of motormen's uniform badges and buttons, architectural drawings, early stock certificates and a photograph of the Toonerville Trolley used in the silent movies produced by Lubin Studios in the 1920s.

Rail Passenger Service in the Philadelphia Metropolitan Area Institute for Rapid Transit (U.S.), 1963 Philadelphia's Streetcar Heritage Kenneth C. Springirth, 2019. Philadelphia's Streetcar Heritage is a photographic essay of the Philadelphia Pennsylvania streetcar system. The first electric streetcar line in Philadelphia opened in 1892 and quickly replaced horsecar service by 1897. Streetcar lines were merged into the Philadelphia Rapid Transit Company PRT in 1902 to achieve a unified system. There were 1,500 new streetcars purchased by 1913 which was the largest fleet of standardized streetcars ever purchased by one transit company. Ridership dropped during the Depression and PRT reorganized as the Philadelphia Transportation Company PTC in 1940. After National City Lines NCL obtained control of PTC in 1955 many streetcar lines became bus operated. Southeastern Pennsylvania Transportation Authority SEPTA acquired PTC in 1968. The overhaul of 112 Presidents Conference Committee PCC cars began in 1979. Kawasaki Heavy Industries built 112 streetcars light rail vehicles for the subway surface lines. With buses taking over Route 15 Girard Avenue in 1992 only five subway surface lines remained. SEPTA restored Route 15 streetcar service in 2005 using Brookville Equipment Corporation rebuilt PCCII cars. Philadelphia's Streetcar Heritage documents the city's streetcars including Fairmount Park Trolleys and trackless trolleys.

A Report and Discussion Upon the Proposals of the Philadelphia Rapid Transit Company Submitted to Councils October 16, 1919 Philadelphia (Pa.). Department of City Transit, William S. Twining, 1919 Running the Rails James Wolfinger, 2016-06-07. Philadelphia exploded in violence in 1910. The general strike that year was a notable point but not a unique one in a generations long history of conflict between the workers and management at one of the nation's largest privately owned transit systems. In *Running the Rails* James Wolfinger uses the history of Philadelphia's sprawling public

transportation system to explore how labor relations shifted from the 1880s to the 1960s As transit workers adapted to fast paced technological innovation to keep the city s people and commerce on the move management sought to limit its employees rights Raw violence welfare capitalism race baiting and smear campaigns against unions were among the strategies managers used to control the company s labor force and enhance corporate profits often at the expense of the workers and the city s well being Public service workers and their unions come under frequent attack for being a special interest or a hindrance to the smooth functioning of society This book offers readers a different historically grounded way of thinking about the people who keep their cities running Working in public transit is a difficult job now as it was a century ago The benefits and decent wages Philadelphia public transit workers secured advances that were hard won and well deserved came as a result of fighting for decades against their exploitation Given capital s great power in American society and management s enduring quest to control its workforce it is remarkable to see how much Philadelphia s transit workers achieved
