Twining Hadley, 2015-06-25 Excerpt from *Railroad Transportation Its History and Its Laws* This book deals with those questions of railroad history and management which have become matters of public concern It aims to do two things first to present clearly the more important facts of American railroad business and explain the principles involved second to compare the railroad legislation of different countries and the results achieved The two things need to be viewed in connection with one another The attempt to manage railroads without regard to the demands of public policy or to legislate concerning railroads without regard to the necessities of railroad business results in disastrous failure This fact has been gradually recognized by thoughtful men on both sides But it has been hard to get any comprehensive view of the subject in its different aspects The brilliant book of C F Adams Jr stands almost alone and even this treats of but a few questions among many The man who would really study the subject must seek his material among hundreds of different arguments and reports many of them extremely able but few of them easy of access and still fewer at all complete in themselves It was to meet this want that the author first undertook to deliver a course of lectures on Railroads and the Social Problems connected with them Part of the material of these lectures is here presented to the public About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Railroad Transportation** Arthur T.
