Anschutz,2017-12-15 Between

1800 and 1920 an extraordinary cast of bold innovators and entrepreneurs individuals such as Cyrus McCormick Brigham Young Henry Wells and James Fargo Fred Harvey Levi Strauss Adolph Coors J P Morgan and Buffalo Bill Cody helped lay the groundwork for what we now call the American West They were people of imagination and courage adept at maneuvering the rapids of change alert to opportunity persistent in their missions They had big ideas they were not afraid to test They stitched the country together with the first transcontinental railroad invented the Model A and built the roads it traveled on raised cities and supplied them with water and electricity established banks for immigrant populations entertained the world with film and showmanship and created a new form of western hospitality for early travelers Not all were ideal role models Most however once they had made their fortunes shared them in the form of cultural institutions charities libraries parks and other amenities that continue to enrich lives in the West today Out Where the West Begins profiles some fifty of these individuals tracing the arcs of their lives exploring their backgrounds and motivations identifying their contributions and analyzing the strategies they developed to succeed in their chosen fields

Sierra Crossing Thomas Frederick Howard, 1998-06-30 A critical era in California's history and development the building of the first roads over the Sierra Nevada is thoroughly and colorfully documented in Thomas Howard's fascinating book During California's first two decades of statehood 1850-1870 the state was separated from the east coast by a sea journey of at least six weeks Although Californians expected to be connected with the other states by railroad soon after the 1849 Gold Rush almost twenty years elapsed before this occurred Meanwhile various overland road ventures were launched by emigrants former gold miners state government officials the War Department the Interior Department local politicians town businessmen stagecoach operators and other entrepreneurs whose alliances with one another were constantly shifting The broad landscape of international affairs is also a part of Howard's story Constructing roads and accumulating geographic information in the Sierra Nevada reflected Washington's interest in securing the vast western territories formerly held by others In a remarkably short time the Sierra was transformed by vigorous exploration road promotion and road building Ox drawn wagons gave way to stagecoaches able to provide service as fine as any in the country Howard effectively uses diaries letters newspaper stories and official reports to recreate the human struggle and excitement involved in building the first trans Sierra roads Some of those roads have become modern highways used by thousands every day while others are now only dim traces in the lonely backcountry

Sunset Limited Richard J. Orsi, 2005-05-16 The only major U S railroad to be operated by westerners and the only railroad built from west to east the Southern Pacific acquired a unique history and character It also acquired a reputation especially in California as a railroad that people loved to hate This magisterial history tells the full story of the Southern Pacific for the first time shattering myths about the company that have prevailed to this day A landmark account Sunset Limited explores the railroad's development and influence especially as it affected land settlement agriculture water policy and the environment and offers a new perspective on the tremendous often surprising role the company played in shaping

the American West Based on his unprecedented and extensive research into the company s historical archives Richard Orsi finds that contrary to conventional understanding the Southern Pacific Company identified its corporate well being with population growth and social and economic development in the railroad s hinterland As he traces the complex and shifting intersections between corporate and public interest Orsi documents the railroad s little known promotion of land distribution small scale farming scientific agriculture and less wasteful environmental practices and policies including water conservation and wilderness and recreational parklands preservation Meticulously researched lucidly written and judiciously balanced Sunset Limited opens a new window onto the American West in a crucial phase of its development and will forever change our perceptions of one of the largest and most important western corporations in the late nineteenth and early twentieth centuries

God's Hand on America Michael Medved,2019-11-26 The national radio host and bestselling author of The American Miracle reveals the happy accidents bizarre coincidences and flat out miracles that continue to shape America s destiny A hopeful message for our troubled times Michael Medved has an eye for a story and a preternatural gift for telling it in beguiling ways Joseph J Ellis Pulitzer Prize and National Book Award winning author of Founding Brothers Has God withdrawn his special blessing from the United States Americans ponder that painful question in troubled times as we did during the devastation of the Civil War and after the assassinations of the 60s and as we do in our present polarization Yet somehow on battlefields across western wilderness and in raucous convention halls astounding events have reliably advanced America restoring faith in the Republic s providential protection In this provocative historical narrative Michael Medved brings to life ten haunting tales that reveal this purposeful pattern including A near fatal carriage accident forces Lincoln s secretary of state into a canvas and steel neck brace that protects him from a would be assassin s knife thrusts allowing him two years later to acquire Alaska for the United States A sudden tidal wave of Russian Jewish immigration beginning in 1881 coincides with America s rise to world leadership fulfilling a biblical promise that those blessing Abraham s children will themselves be blessed Campaigning for president Theodore Roosevelt takes a bullet in the chest but a folded speech in his jacket pocket slows its progress and saves his life At the Battle of Midway U S planes get lost over empty ocean and then miraculously reconnect for five minutes of dive bombing that wrecks Japan s fleet convincing even enemy commanders that higher powers intervened against them A behind the scenes conspiracy of the pure of heart by Democratic leaders forces a gravely ill FDR to replace his sitting vice president an unstable Stalinist with future White House great Harry Truman These and other little known stories build on themes of The American Miracle Medved s bestseller about America s remarkable rise The confident heroes and stubborn misfits in these pages shared a common faith in a master plan which continues to unfold in our time God s Hand on America confirms that the founders were right about America s destiny to lead and enlighten the world

The Great American Swindle June Naugle,2007 The major lessons we are here to learn are written within the pages of Life s Lessons What lessons do you need to learn What are you struggling with Do you lose yourself in relationships

We ponder life's journey, our part in it and the big picture. When at these crossroads of life, whichever particular lesson or lessons being learned, currently ask Self some of the questions in the Ponderments section. Have a talk, make a list to aid Self in moving through the lesson, be it metaphysical, spiritual or magical moments which is driven within you to find. May you learn life's lessons more wisely. Relationship, blame, unconditional love, blessings, betrayal, gifts and loss are some of the most difficult roads we travel. Would you like a personal poem written about you, Your kids, spouse? Whatever the occasion, a personal poem is waiting for your lesson.

The Chinese and the Iron Road Gordon Chang, Shelley Fisher

Fishkin, 2023-05-25. Essays examining the Chinese worker experience during the construction of America's Transcontinental Railroad. The completion of the transcontinental railroad in May 1869 is usually told as a story of national triumph and a key moment for American Manifest Destiny. The Railroad made it possible to cross the country in a matter of days instead of months, paved the way for new settlers to come out west and helped speed America's entry onto the world stage as a modern nation that spanned a full continent. It also created vast wealth for its four owners, including the fortune with which Leland Stanford would found Stanford University some two decades later. But while the Transcontinental has often been celebrated in national memory, little attention has been paid to the Chinese workers who made up 90 percent of the workforce on the Western portion of the line. The Railroad could not have been built without Chinese labor, but the lives of Chinese railroad workers themselves have been little understood and largely invisible. This landmark volume explores the experiences of Chinese railroad workers and their place in cultural memory. *The Chinese and the Iron Road* illuminates more fully than ever before the interconnected economies of China and the US, how immigration across the Pacific changed both nations, the dynamics of the racism the workers encountered, the conditions under which they labored and their role in shaping both the history of the railroad and the development of the American West. Praise for *The Chinese and the Iron Road*: This timely and essential volume preserves the humanity of the often ignored and forgotten immigrant worker while also uncovering just how important Chinese American railroad workers were in the making of America and its place in the world. Erika Lee, author of *The Making of Asian America*. Gordon H. Chang and Shelley Fisher Fishkin's meticulously researched and beautifully written book fills a critical gap in our nation's history. *The Chinese and the Iron Road* brings to life the stories of workers who defied incredible odds and gave their lives to unite these states into a nation. David Henry Hwang, Tony Award-winning playwright of *The Dance* and *the Railroad*, and *M. Butterfly*. Destined to become the go-to resource about Chinese railroad workers in the American West. Madeline Hsu, author of *The Good Immigrants: How the Yellow Peril Became the Model Minority*. Deeply researched and richly detailed. *The Chinese and the Iron Road* brings to life the Chinese immigrants whose work was essential to the railroad's construction. Thomas Bender, author of *A Nation Among Nations: America's Place in World History*.

Extractives, Manufacturing, and Services. David O. Whitten, 1997-04-22. The second volume in the Handbook of American Business History series; this book offers concise histories of extractive, manufacturing and service industries as well as

extensive bibliographic essays pointing to the leading sources on each industry and bibliographic checklists Supplementing other bibliographic materials in business history this volume provides researchers with a much needed path through the vast array of material available in the library and on the Internet Indicating which resources to check and which to bypass the book is a guide to a sometimes overwhelming amount of information Each of the book's chapters provides a concise industry history beginning with the industry's rise to importance in the U S and continuing to the present The bibliographic essays provide a narrative outline of the leading sources published or made available in archives libraries or museum collections since 1971 when Lovett's American Economic and Business History Information Sources was published Each discussion concludes with a bibliographic checklist of the titles mentioned in the essay as well as other titles In a rapidly expanding information society researchers teachers and students may be easily overwhelmed by the exhaustive material available in print and electronically What is useful and what can be ignored is a strategic question and few know where to begin This book provides a guide

California Kevin Starr, 2007-03-13 A California classic California it should be remembered was very much the wild west having to wait until 1850 before it could force its way into statehood so what tamed it Mr Starr's answer is a combination of great men great ideas and great projects The Economist From the age of exploration to the age of Arnold the Golden State's premier historian distills the entire sweep of California's history into one splendid volume Kevin Starr covers it all Spain's conquest of the native peoples of California in the early sixteenth century and the chain of missions that helped that country exert control over the upper part of the territory the discovery of gold in January 1848 the incredible wealth of the Big Four railroad tycoons the devastating San Francisco earthquake of 1906 the emergence of Hollywood as the world's entertainment capital and of Silicon Valley as the center of high tech research and development the role of labor both organized and migrant in key industries from agriculture to aerospace In a rapid fire epic of discovery innovation catastrophe and triumph Starr gathers together everything that is most important most fascinating and most revealing about our greatest state Praise for California A fast paced and wide ranging history Starr accomplishes the feat with skill grace and verve Los Angeles Times Book Review Kevin Starr is one of California's greatest historians and California is an invaluable contribution to our state's record and lore Marla Shriver journalist and former First Lady of California A breeze to read San Francisco *Iron Rails, Iron Men, and the Race to Link the Nation: The Story of the Transcontinental Railroad* Martin W. Sandler, 2015-09-08

Experience the race of rails to link the country and meet the men behind this incredible feat in a riveting story about the building of the transcontinental railroad brought to life with archival photos In the 1850s gold fever swept the West but people had to walk sail or ride horses for months on end to seek their fortune The question of faster safer transportation was posed by national leaders But with 1 800 miles of seemingly impenetrable mountains searing deserts and endless plains between the Missouri River and San Francisco could a transcontinental railroad be built It seemed impossible Eventually two railroad companies the Central Pacific which laid the tracks eastward and the Union Pacific which moved west began the job In one great race between iron men with iron wills tens of thousands of workers blasted the longest tunnels that had ever been constructed built the highest bridges that had ever been created and finally linked the nation by two bands of steel changing America forever
