Railways Between The Wars:

Railways Between the Wars H. C. Casserley, 1971 Railway Travel in World War Two Peter Steer, 2024-04-30 The popular image of railway travel during the Second World War is that of a sparse service of dirty and grossly overcrowded trains that were forever being delayed The iconic is your journey really necessary poster campaign is credited with discouraging the public from traveling by train This book questions these assumptions and examines the mobility requirements of the British public during the war years and aligns these to the level of service provided by the railways Throughout the war the railways were managed by the Railway Executive Committee REC whose members were all senior railway officers The conflicts between the REC and the government in respect to controlling passenger numbers on the railway system which was overcrowded with essential additional war related freight traffic are examined as are the propaganda campaigns aimed at restricting unnecessary travel The public s response to the travel restrictions are analyzed to determine how railway passengers attitudes and reactions corresponded to the publicly accepted mythology Many British citizens did reduce their railway journeys but for others who had previously had little need to travel by train the exigencies of war resulted in them having to make long and often difficult journeys by rail *History of the Railways During the War in South Africa, 1899-1902* Édouard Percy Cranvill Girouard, 1903 Detailed history of the use and importance of railways during the war in South Africa the Boer War written by Sir Edward Percy Cranvill Girouard Director of Railways for the British South African Field Force With chapters on the creation and control of a military railway staff the Cape Government Railway the Natal Railway all facets of the Imperial Military Railways construction organisation by region locomotives railway telegraph stores and accounts etc and the use of armored trains Amazon **The Severn Valley Railway** Michael A. Vanns, 2017-06-30 The Severn Valley Railway has long been considered by many to be Britains premier heritage railway That reputation was earned early thanks to the quality of locomotive and carriage restoration the careful refurbishment of stations and the standard of service offered to visitors As with all heritage railways it has had to adapt to changing expectations over the years whilst attempting to keep the original aims of railway preservation at the heart of everything it does This guide traces the history of the original Severn Valley Railway from the early plans of the 1840s through its days when operated by first the Great Western Railway and then British Railways The last chapter looks at the challenges and the achievements of the preservation era and the whole narrative should be of interest to anyone keen to know more of the story of a national treasure **British railways and the great war ; organisation, efforts, difficulties and achievements** Edwin A. Pratt, 1921-01-01 **British Railways in Transition** Derek H. Aldcroft, 1968-06-18 Britain's Railways in the Second World War Michael Foley, 2021-01-18 A fascinating account of the British Railways system s vital role in the defense of the country and support of the Allied forces during WWII The outbreak of the Second World War had an enormous effect on the railway system in Britain The Big Four companies put aside differences and worked together for the war effort The logistics

of transporting troops during the evacuation of Dunkirk and the preparations for D Day were unprecedented. Meanwhile they had to cope with the new and constant threat of aerial bombing. As a result the railway system effectively served as another branch of the military. At the end of the war Winston Churchill likened London to a large animal declaring that what kept the animal alive was its transport system. The metaphor could have been applied to the whole of Britain and its most vital transport system was the railway. This book brings to light the often forgotten stories of the brave men and women who went to work on the railways and put their lives on the line.

[The North Eastern Railway in the First World War](#) Rob Langham, 2017-01-24

The North Eastern Railway underwent extreme change after the outbreak of war in August 1914. Within months the company raised its own battalion of men and was the only railway company to do so. The NER also set to work adapting to the changes and requirements the war would bring. Not only would there be a drop in regular passenger traffic levels and increase in freight transporting both war material and troops but the workshops formerly used to build locomotives were turned over to making weapons of war. In December 1914 the railway came under attack from the Imperial German Navy causing damage to the NER's infrastructure and killing several of its men. As the war went on locomotives and rolling stock were sent to France to help with the enormous logistics required for operations on the Western Front. The planned opening of an electrified railway line for freight went ahead with a brand new fleet of powerful electric locomotives adding to the company's portfolio of electrification with the electrified Tyneside passenger line and Newcastle Quayside. NER land was used to build an enormous munitions factory at Darlington and the unprecedented use of women in the work place meant traditionally male only roles were increasingly seeing women take over and freeing men for military service. Overseas men of the NER that joined the forces served with honour but many were not to come home. The North Eastern Railway in the First World War tells the story of one railway's war of how it continued to operate and adapt and the men and women who served with the company or left to fight for the country's freedom.

[Railways and the Russo-Japanese War](#) Felix Patrikeeff, Harry Shukman, 2007-02-06

This book explores the nexus between railways and the Russo Japanese War 1904-05 the first modern war and one in which the railways played a key part. Felix Patrikeeff and Harry Shukman examine some of the key dimensions of the Russo Japanese War most notably how uncomfortably technological and human dimensions of Russia's war effort interleaved in the course of the conflict.

[The Railway that Helped Win the Crimean War](#) Anthony Dawson, 2022-09-15

Week after week the guns of the British expeditionary force battered away at the defences of Sevastopol eight miles away from Balaklava the port through which all besiegers supplies arrived. As autumn turned to winter rain and frost turned the track from Balaklava into a muddy quagmire and soon it became virtually impassable. Horses were dying daily in their endeavours to pull carts up the hills to the siege lines and with few supplies reaching the front the troops suffered terribly from malnutrition and frostbite. Unless a solution could be found the entire operation was doomed to humiliating disastrous failure. When news of the terrible plight of the troops reached the UK a leading railway contractor and

his partners undertook to build a railway at cost from Balaklava to the front line and promised that they could construct it in just three weeks after they arrived in the Crimea Though it took almost seven weeks to complete the railway in that time a double track which rose 500 feet from the port and travelled for seven miles to the siege lines had been laid With food clothing and ammunition at last able to reach the front the British along with their French allies were able to capture Sevastopol and bring the Crimean War to an end In this comprehensive and detailed account of the construction and use of what became known as the Grand Crimean Central Railway the author describes the astonishing achievement in building the first railway ever employed in warfare and the first to be used for casualty evacuation thousands of miles from the UK

Kratoska,2006 The Railroad Telegrapher,1918 **Railways and International Politics** Thomas G. Otte,Keith Neilson,2006 This new collection focuses on its international political and strategic dimensions from the 1860s to the 1930s It examines them as objects of the Great Powers political and economic rivalries and as tools of power projection strategic mobilization and imperial defence Britain's Railways in the First World War Michael Foley,2021-09-30 It is easy to believe that the only part that Britain s railways played in the First World War was to carry the soldiers to the ships that would take them to France This couldn t be further from the truth Without the help from the railways it is unlikely that the war would have been over as quickly as it was In Britain s Railways in the First World War Michael Foley examines how the railway system and its workers proved to be a vital part of the war effort one contemporary writer even commenting that he thought they were as significant as the navy The book describes how the enlistment of railway troops for the Royal Engineers to meet the increasing transport demands of the military was to bleed the civilian system dry as skilled railwaymen were sent to work at the front In addition the military commandeered thousands of Britain s railway vehicles sending them to each of the theatres of war and turned the already stressed railway workshops away from maintaining what remained of the country s railways and rolling stock so they could produce armaments for the forces instead The book also reveals how the British were so far behind their enemies and allies in the use of railway support to the front lines that they had to plead for help from Canada **The Great Western Railway in the First World War** Sandra Gittins,2010-08-16 In August 1914 the GWR was plunged into war the like of which this country had never experienced before Over the years that followed life changed beyond measure both for the men sent away to fight and the women who took on new roles at home Not since 1922 has the history of the GWR in the First World War been recorded in a single volume Using modern data bases and enjoying greater access to archives Sandra Gittins has been able to produce a complete history which traces the GWR from the early optimistic days through the subsequent difficult years of the Great War including Government demands for war manufacture increased traffic and the tragic loss of staff From GWR ships and ambulance trains to the employment of women every part of the story is told including the saddest of all

Tamayama,2004-11-30 The Japanese railway soldiers who built the notorious Burma Thailand railway in 1942 43 earned an unenviable reputation for brutality but they have not hitherto told their own story This is the first book to bring to light the testimonies of the soldiers of the Emperor who worked with 55 200 British Australian and Dutch prisoners of war in the construction of the 415 kilometre railway *Railway Manual (war)* ,1914 **The War Against Japan: India's most dangerous hour** Stanley Woodburn Kirby,1957
