Goodbye to Urdu Ali Daniel, 2020-10-14 Dreams that come true hurt us most in future People are not afraid to go to hell because they've already been through a hell here A preacher tries to put fear of graves in their hearts in graphic detail but they mock him Nothing new they are so used to it visceral fear in real life The story of a boy who grapples with the death of his father He tries to find the answers in the life passed in his village in the soft light of the night and the brutal sunlight of the day It is not only the loss of childhood dreams but also the language spoken in them Slowly and surely he watches a ghetto surreptitiously encroaching upon his family and community There a bird refuses to recognize another bird Exiled there with the same seasons now ruthless and relentlessly painful he confuses the cries of the birds with the cries of the children It's just not the fear for himself but the fear for generations to come What will happen to them People have a different criterion for buying homes there They look for a place where they will not be attacked at night

The Terror David Andress,2006 The French Revolution marks the foundation of the modern political world It was in the crucible of the Revolution that the political forces of conservatism liberalism and socialism began to find their modern form and it was the Revolution that first asserted the claims of universal individual rights on which our current understandings of citizenship are based But the Terror was as much as anything else a civil war and such wars are always both brutal and complex The guillotine in Paris claimed some 1 500 official victims but executions of captured counter revolutionary rebels ran into the tens of thousands and deaths in the areas of greatest conflict probably ran into six figures with indiscriminate massacres being perpetrated by both sides The story of the Terror is a story of grand political pronouncements uprisings and insurrections but also a story of survival against hunger persecution and bewildering ideological demands a story of how a state even with the noblest of intentions can turn on its people and almost crush them
