Red Vienna Experiment In Working Class Culture 1919 1934:

Red Vienna Helmut Gruber, 1991 From 1919 to 1934 the Socialist government in Vienna sought to create a comprehensive working class culture striving to provide a foretaste of the socialist utopia in the present In Red Vienna Gruber critically examines the impact of this experiment in all areas of life from massive public housing projects and health and education programs to socialist parades festivals and sporting events designed to create a new working class The Socialist program faced enormous obstacles arising from the exaggerated expectations of the socialist leaders and their conventional cultural vision from the resistance of workers and from the competition of commercial and mass culture Gruber then evaluates the limited and partial success of the Viennese model clearly the most comprehensive in the West and a democratic alternative to the Bolsheviks experiment in Soviet Russia to pose general questions about attempts to fashion culture from above

Cultures of Darkness Bryan D. Palmer, 2019-02-15 Peasants religious heretics witches pirates runaway slaves prostitutes and pornographers frequenters of taverns and fraternal society lodge rooms revolutionaries blues and jazz musicians beats and contemporary youth gangs those who defied authority choosing to live outside the defining cultural dominions of early insurgent and later dominant capitalism are what Bryan D Palmer calls people of the night These lives of opposition or otherness were seen by the powerful as deviant rejecting authority and consequently threatening to the established order Constructing a rich historical tapestry of example and experience spanning eight centuries Palmer details lives of exclusion and challenge as the night travels of the transgressors clash repeatedly with the powerful conventions of their times Nights of liberation and exhilarating desire sexual and social are at the heart of this study But so too are the dangers of darkness as marginality is coerced into corners of pressured confinement or the night is used as a cover for brutalizing terror as was the case in Nazi Germany or the lynching of African Americans Making extensive use of the interdisciplinary literature of marginality found in scholarly work in history sociology cultural studies literature anthropology and politics Palmer takes an unflinching look at the rise and transformation of capitalism as it was lived by the dispossessed and those stamped with the mark of otherness

Weitz,2021-04-13 Eric Weitz presents a social and political history of German communism from its beginnings at the end of the nineteenth century to the collapse of the German Democratic Republic in 1990 In the first book in English or in German to explore this entire period Weitz describes the emergence of the Communist Party of Germany KPD against the background of Imperial and Weimar Germany and clearly explains how the legacy of these periods shaped the character of the GDR to the very end of its existence In Weimar Germany social democrats and Germany s old elites tried

frantically to discipline a disordered society Their strategies drove communists out of the workplace and into the streets where the party gathered supporters in confrontations with the police fascist organizations and even socialists and employed workers In the streets the party forged a politics of display and spectacle which encouraged ideological pronouncements and harsh physical engagements rather than the mediation of practical political issues Male physical prowess came to be venerated as the ultimate revolutionary quality The KPD's gendered political culture then contributed to the intransigence that characterized the German Democratic Republic throughout its history The communist leaders of the GDR remained imprisoned in policies forged in the Weimar Republic and became tragically removed from the desires and interests of their own populace *Youth in Revolutionary Russia* Anne E. Apocalypse Ota Konrád, Rudolf Kucera, 2022-05-09 Paths out of the Apocalypse uses violence as a prism through which to investigate the profound social cultural and political changes experienced by post Habsburg Central Europe during and immediately after the Great War It compares attitudes toward and experiences and practices of physical violence in the mostly Czech speaking territories of Bohemia and Moravia the German speaking territories that would constitute the Republic of Austria after 1918 and the mostly German speaking region of South Tyrol Based on research in national and local archives and copious secondary literature the study argues that in the context of total war physical violence became a predominant means of conceptualizing and expressing social political demands as well as a means of demarcating various notions of community and belonging The authors apply an interdisciplinary understanding of violence informed by sociological and psychological theories as well as by rigorous empirical historiographical approach First they examine the most severe kind of physical violence murder against the backdrop of shifting scientific and media discourses during the war and its immediate aftermath Second the authors use numerous cases of collective violence ranging from less serious everyday conflicts to massive hunger demonstrations and riots to unravel its language thus deciphering the attitudes and values shared among an ever growing group of perpetrators Paths out of the Apocalypse thus fundamentally rethinks some key topics currently debated in the scholarship on early twentieth century Central Europe the First World War violence nationalism and modern European comparative social and cultural history

Turner,2011-06-07 One of The Economist s 2011 Books of the Year A Boston Globe Best Nonfiction Book of 2011 Well before the 1960s a sexual revolution was under way in America led by expatriated European thinkers who saw a vast country ripe for liberation In Adventures in the Orgasmatron Christopher Turner tells the revolution s story an illuminating thrilling often bizarre story of sex and science ecstasy and repression Central to the narrative is the orgone box a tall slender construction of wood metal and steel wool A person who sat in the box it was thought could elevate his or her orgasmic potential The box was the invention of Wilhelm Reich an outrider psychoanalyst who faced a federal ban on the orgone box an FBI investigation a fraught encounter with Einstein and bouts of paranoia In Turner s vivid account Reich s efforts anticipated those of Alfred Kinsey Herbert Marcuse and other prominent thinkers efforts that brought about a transformation of Western views of sexuality in ways even the thinkers themselves could not have imagined **Socialism before Sanders** Jake

Altman,2019-06-13 The early years of the twentieth century are often thought of as socialism s first heyday in the United States when the Socialist Party won elections across the country and Eugene Debs ran for president from a prison cell winning more than 900 000 votes Less well known is the socialist revival of the 1930s Radicalized by the contradiction of crushing poverty and unimaginable wealth that existed side by side during the Great Depression socialists built institutions organized the unemployed extended aid to the labor movement developed local political movements and built networks that would remain active in the struggle against injustice throughout the twentieth century Jake Altman brings this overlooked moment in the history of the American left into focus highlighting the leadership of women the development of the Highlander Folk School and Soviet House and the shift from revolutionary rhetoric to pragmatic reform by the close of the decade As another socialist revival takes shape today this book lays the groundwork for a more nuanced history of the movement in the United States A History of Austrian Literature 1918-2000 Katrin Maria Kohl,Anne Fuchs,Florian

Austria 1867-1955 John W. Boyer, 2022 Austria 1867-1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914-1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legatees of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance
