Redeeming Creation A Christian World Evolving:

The Christian Doctrine of Creation and Redemption Emil Brunner, 2014-10-10 *Evolution: Really?* Richard Terrell, 2011-04-19 Why is it that 150 years after the celebrated appearance of Charles Darwin's evolutionary vision reasonable people, laity and professional scientists alike remain skeptical toward it? Does Darwinian science as various new atheists assert nullify the rationality of theistic belief? What is the nature of Evolutionism as a worldview with religious implications? Author Richard Terrell explores these fundamental questions and more from the standpoint of the Humanities, arguing that the issues of life's origin, human nature and human destiny call for a larger arena of discussion than can be provided by science alone. He rejects popular notions that science has put an irrefutable barrier in the path of theistic belief and casts light on how the evolutionary vision of life expressed as scientific materialism constitutes a religious worldview of its own with questionable implications for the human condition. Along the way Terrell considers the thoughts of such classic evolutionary thinkers as Ernst Haeckel, Julian Huxley, George Gaylord Simpson and Theodosius Dobzhansky along with more contemporary thinkers like Richard Dawkins and other new atheists. Drawing upon the rich historical storehouse of affirmation and skepticism concerning Darwinism, Terrell argues that opposition to Darwinian beliefs is not confined to religious objections but that the most serious challenges have come from scientists. Surprisingly, this minority report has existed through all the years of Darwinian cultural ascendancy and is gaining in strength today. Here is a challenge to encourage students free inquiry into Darwinian doctrine and cultural influence free of dogma and intimidation.

Evolutionary Creation Denis O. Lamoureux, 2009-02-26 In this provocative book, evolutionist and evangelical Christian Denis O. Lamoureux proposes an approach to origins that moves beyond the evolution versus creation debate.

How to Read the Bible in Changing Times Mark L. Strauss, 2011-08-01 Many find it difficult to take words that were written thousands of years ago and apply them to twenty-first century life in the Western world. How do we read God's unchanging Word in a world that is increasingly defined by change? *How to Read the Bible in Changing Times* shows everyday Christians how to interpret and apply the Scriptures regardless of time and culture. Rather than seeing the Bible as a magic answer book, a list of commands to obey or a series of promises to claim, this insightful book allows the Bible to retain its identity as a complex inspired document while showing that the truth it contains is relevant and life-changing. It shows the reader how to determine the meaning of the text in its original context, identify culturally relative features, understand what the text teaches about God, his will and his purposes, apply the truths discovered to contemporary life situations. It even shows readers how to discern God's will on the many modern issues that the Bible does not directly address.

Perspectives on an Evolving Creation Keith B. Miller, 2003-09-25 According to the authors of this book, who explore evolutionary theory from a clear Christian perspective, the common view of conflict between evolutionary theory and Christian faith is mistaken. Written by contributors representing the natural sciences, philosophy, theology and the history of science, this thought-provoking work is informed by

both solid scientific knowledge and keen theological insight The three sections of the book address 1 relevant biblical historical and scientific background 2 the scientific evidence for an evolving creation and 3 theological issues commonly raised in connection with evolution including the nature of God s creative activity the meaning of the miraculous and the uniqueness of humankind Woven through the volume are short meditations designed to direct readers toward worshipping the God of providence Contributors Laurie J Braaten Warren S Brown Jr David Campbell Robin Collins Edward B Davis Terry M Gray Jeffrey K Greenberg Deborah B Haarsma Loren Haarsma James P Hurd Conrad Hyers David N Livingstone Keith B Miller John C Munday Jr George L Murphy Mark A Noll Robert John Russell Howard J Van Till David L Wilcox Jennifer Wiseman *Report on the Poultry Industry in Germany* Edward Brown,1912 **Chirst In Evolution** Ilia Delio,2010

Creation and Evolution Friedrich S. Rothschild, 2018-05-04 The issues surrounding Darwin s theory of evolution as a function of the survival of the fittest have hardly abated since they were initially promulgated about 150 ago The reason is clear behind the theory of evolution is a doctrine of structure of organisms that can be explained only by fitting the adaptation to the external world The older doctrines of creation have been at odds with evolutionism from the outset sometimes utilizing straight theological arguments and at other times employing sophisticated scientific arguments Into the breach steps Friedrich S Rothschild a trained neurologist psychologist and physician On the basis of his researches in comparative embryology Rothschild argues that the central nervous system of animals as well as humans conveys meaning just like language and not just a system aimed at adaptation to the external environment His theory of biosemiotics introduces the concept of inner adaptation This adaptation to the principal forces assign meaning to life In monotheistic religions this force is called God The issue of adaptation is therefore both external and internal related to growth of the person no less than the environment This book is intended for those who are interested in life and its varied meanings to students of sociobiology and medicine as well as those concerned with humanities

Evolution and Creation Herbert Junius Hardwicke,1887

Human Significance in Theology and the Natural

Sciences Christopher L. Fisher,2010-02-03 The medieval worldview that regarded human beings as at the center of God's plans for His universe has long been regarded as obsolete its synthesis of Christian theology and Greek philosophy having collapsed under the weight of Copernicus Galileo and Darwin The popular stereotype is that Science both in the Copernican revolution that dethroned the earth centered view of the cosmos and in subsequent developments in evolutionary theory and general relativity has marginalized and trivialized human existence revealing humanity's place in the cosmos to be accidental peripheral and ultimately meaningless However an investigation into both modern Christian theology and contemporary twenty first century Science reveals just the opposite providing solid evidence in the interdisciplinary dialogue concerning the significance of humanity within the universe In this important study Christopher Fisher analyzes several modern theologians including Wolfhart Pannenberg Karl Rahner and John Zizioulas to reveal how contemporary ecumenical theology is deeply and intrinsically committed to a high view of human cosmic significance as a consequence of Christianity's indelible Trinitarian and incarnational faith Fisher then demonstrates how research in contemporary natural Science confirms this finding in its own way as recent primate intelligence studies artificial intelligence research and even the quest for extra terrestrial intelligence reveal the wonder of human uniqueness A contemporary version of the teleological argument also resurfaces in consideration of cosmic evolutionary perspectives on human existence Even ecological concerns take on a new poignancy with the realization that among material creatures only human beings are capable of addressing the world's situation This interdisciplinary study uncovers the surprising coherence and convergence of Christian Theology and Natural Science on the subject of human existence and significance here at the beginning of the twenty first century and it highlights the very unique role of humanity in global and cosmic history

Laying Down Arms to Heal the Creation-Evolution Divide Gary N. Fugle,2015-01-01

Battles over creation or evolution have been perpetuated for years by vocal Christians and scientists alike But conflict has never been the only choice Laying Down Arms to Heal the Creation Evolution Divide presents a comprehensive uplifting alternative that brings together an orthodox biblical view of a sovereign Creator God and the meaningful discoveries of modern evolutionary biology Gary Fugle offers unique insights into this debate from his dual perspective as both an award winning biology professor and a committed leader in conservative evangelical churches In focusing on the stumbling blocks that surround creation and evolution debates Fugle sensitively addresses the concerns of skeptical Christians and demonstrates how believers may celebrate evolution as a remarkable aspect of God s glory He describes how the mainstream scientific community as well as numerous Christians may alter current approaches to eliminate conflicts He explains conservative readings of early Genesis that respect both the inerrant words of Scripture and the evolutionary revelations in God s natural creation This book is for individuals who sense that biblical Christian faith and evolution are compatible without compromising core convictions If given good reasons to do so are we willing to lay down our arms to affirm an encompassing vision for the future [The Natural World and God](#) Denis Edwards,2017-12-31 How are we to think about the natural world around us in relation to the God of Jesus Astronomers cosmologists and evolutionary biologists have opened wonderfully new ways of seeing the community of life on Earth and its place in the universe At the same time we are facing an extreme crisis of life on our planet Both of these realities demand that we rethink our theology of animals plants ecosystems as well as galaxies and stars In this book Denis Edwards collects together a series of explorations into this kind of theology **Maximus the Confessor and Evolutionary Biology** Andrew P. Jackson,2024-11-04 This book brings Maximus the Confessor s logoi doctrine into dialogue with modern day evolutionary biology It explores the extent to which the logoi as described by Maximus exhibit features that are concordant with evolution before going on to consider more discordant aspects that cannot be ignored The author addresses the curious resonance between the logoi and evolution in a systematic way through a close reading of primary textual material allied with a deep understanding of both the classical Darwinian and extended evolutionary syntheses The study joins with other Maximian interpreters in attesting to the incarnational and theophanic nature of the logoi but seeks to extend this distinctively Eastern Christo cosmology into the problematic territory of biological evolution a territory historically dominated by Western scholarship The book will be of interest to scholars of religion and science as well as Patristics and the Eastern Orthodox theological traditions **Healing All Creation** Joan Connell,Adam Bartholomew,2019-06-12 In Healing All Creation a scripture scholar and a religion journalist explore the literary and theological symmetries of Genesis the Gospel of Mark and the unfolding story of evolution as told by science and the emerging discipline of cosmological theology Read together these narratives shed new light on the Judeo Christian tradition and offer fresh ideas about how to respond to the moral and environmental crises of our times Scientific discoveries make it increasingly clear that everything in the world is connected Physically and spiritually small actions can have great

impact In the creation myths of Genesis it is possible for individuals to generate great evil but also do enormous good and repair a broken world Mark s story of the public life of Jesus speaks to the transformative effect of cumulative acts of compassion Cosmological theology suggests that evolution is spiritual as well as material and that our search for meaning is dynamic ongoing and grounded in the sanctity of all creation This book speaks to those for whom Judeo Christian scripture is important but also to those who consider themselves spiritual but not religious those who stand in awe of the majesty of the universe and appreciate the sanctity of all creation It introduces to a general audience a century long dialogue among scientists theologians scripture scholars and summons the voices of 20th century spiritual heroes contemporary theologians and religion scholars from a variety of traditions and perspectives This accessible but scholarly narrative and robust endnotes make it valuable as a textbook for college level courses on religion and ecology The authors offer fresh insights into Mark s story of the healing ministry of Jesus and his relationships with women including his crushing final encounter with the women who stayed with him to the end and the transformative mission it inspired It raises questions about the gender inequity that persists in organized religion and in the world at large This book examines institutional Christianity s historical failures such as the early abandonment of nonviolence and its tendency to question the validity of scientific discoveries It explores the impact of dispensational theology whose vision of a material world ending in fiery apocalypse produced Christians so focused on the end times that they have scant regard for the sanctity of the Earth It has been said that the Bible is the most purchased and least read book in America This accessible narrative introduces a diverse general audience to the riches of contemporary scripture scholarship the wisdom of cosmological theology and a renewed awareness of the sanctity of all creation
