Anonymous Agencies, Backstreet Businesses, and Covert Collectives Craig Scott, 2013-03-27 Many of today's organizations live in public they devote extensive resources to branding catching the public eye and capitalizing on the age of transparency But at the same time a growing number of companies and other collectives are flying under the radar concealing their identities and activities This book offers a framework for thinking about how organizations and their members communicate identity to relevant audiences Considering the degree to which organizations reveal themselves the extent to which members express their identification with the organization and whether the audience is public or local author Craig R Scott describes collectives as residing in regions that range from transparent to shaded from shadowed to dark Taking a closer look at groups like EarthFirst the Church of Scientology Alcoholics Anonymous the KKK Skull and Bones U S special mission units men's bathhouses and various terrorist

organizations this book draws attention to shaded shadowed and dark collectives as important organizations in the contemporary landscape Land of Necessity Alexis McCrossen,2009-06-19 Historians and anthropologists unravel the interplay of the national and transnational and of scarcity and abundance in the U S Mexico borderlands **Politics of Fear** Manuel G. Gonzales,Richard Delgado,2015-12-03 Lucidly written widely informed and uncompromisingly honest a valuable expose Michael Parenti Documents the stunning success of a network of wealthy donors and corporations in creating and sustaining a set of think tanks legal action groups and media strategies Gary Orfield Harvard University What explains the electoral success of Republicans particularly of the ascendant neoconservatives who now dominate the Party Based on a thorough and up to date examination of the New Right over twenty five years The Politics of Fear proposes some provocative answers including globalization new technologies and a far reaching network of right wing think tanks and foundations As the authors show all have opened the doors to a new politics of fear successfully waged by the neoconservatives By manipulating insecurity the New Right has created an extraordinarily successful populist conservative movement Utilizing extensive documentation the authors argue convincingly that the fear of immigrants and racial minorities has served as the most effective tactic in the GOP arsenal while their approach also implicates gays feminists and terrorists The book explains why Americans have willingly supported a party that promises them security just as it delivers greater economic and political insecurity The authors argue that despite their striking political successes neoconservatives have delivered to voters a set of policies harmful to working Americans in the way of regressive tax measures military exploits tort reform deregulation and environmental destruction Transborder Lives Lynn Stephen,2007-06-13 Lynn Stephen s innovative ethnography follows indigenous Mexicans from two towns in the state of Oaxaca the Mixtec community of San Agust n Atenango and the Zapotec community of Teotitl n del Valle who periodically leave their homes in Mexico for extended periods of work in California and Oregon Demonstrating that the line separating Mexico and the United States is only one among the many borders that these migrants repeatedly cross including national regional cultural ethnic and class borders and divisions Stephen advocates an ethnographic framework focused on transborder rather than transnational lives Yet she does not disregard the state She assesses the impact migration has had on local systems of government in both Mexico and the United States as well as the abilities of states to police and affect transborder communities Stephen weaves the personal histories and narratives of indigenous transborder migrants together with explorations of the larger structures that affect their lives Taking into account U S immigration policies and the demands of both commercial agriculture and the service sectors she chronicles how migrants experience and remember low wage work in agriculture landscaping and childcare and how gender relations in Oaxaca and the United States are reconfigured by migration She looks at the ways that racial and ethnic hierarchies inherited from the colonial era hierarchies that debase Mexico s indigenous groups are reproduced within heterogeneous Mexican populations in the United States Stephen provides case studies of four grass roots organizations in which Mixtec

migrants are involved and she considers specific uses of digital technology by transborder communities Ultimately Stephen demonstrates that transborder migrants are reshaping notions of territory and politics by developing creative models of governance education and economic development as well as ways of maintaining their cultures and languages across geographic distances

Tomatoes are picked hard and green and artificially gassed until their skins acquire a marketable hue Modern plant breeding has tripled yields but has also produced fruits with dramatically reduced amounts of calcium vitamin A and vitamin C and tomatoes that have fourteen times more sodium than the tomatoes our parents enjoyed The relentless drive for low costs has fostered a thriving modern day slave trade in the United States How have we come to this point Estabrook traces the supermarket tomato from its birthplace in the deserts of Peru to the impoverished town of Immokalee Florida a k a the tomato capital of the United States He visits the laboratories of seedsmen trying to develop varieties that can withstand the rigors of agribusiness and still taste like a garden tomato and then moves on to commercial growers who operate on tens of thousands of acres and eventually to a hillside field in Pennsylvania where he meets an obsessed farmer who produces delectable tomatoes for the nation s top restaurants Throughout Tomatoland Estabrook presents a who s who cast of characters in the tomato industry the avuncular octogenarian whose conglomerate grows one out of every eight tomatoes eaten in the United States the ex Marine who heads the group that dictates the size color and shape of every tomato shipped out of Florida the U S attorney who has doggedly prosecuted human traffickers for the past decade and the Guatemalan peasant who came north to earn money for his parents medical bills and found himself enslaved for two years Tomatoland reads like a suspenseful whodunit as well as an expose of today s agribusiness systems and the price we pay as a society when we take taste and thought out of our food purchases

Differences That Matter Dan Zuberi, 2018-07-05 This book shines a spotlight on the causes and consequences of working poverty revealing how the lives of low wage workers are affected by differences in health care labor and social welfare policy in the United States and Canada Dan Zuberi s conclusions are based on survey data eighteen months of participant observation fieldwork and in depth interviews with seventy seven hotel employees working in parallel jobs on both sides of the border Two hotel chains each with one union and one non union hotel in Seattle and Vancouver provide a vivid crossnational comparison because they are similar in so many regards the one major exception being government policy Zuberi demonstrates how labor health social welfare and public investment policy affect these hotel workers and their families His book challenges the myth that globalization necessarily means hospitality jobs must be insecure and pay poverty wages and makes clear the critical role played by government policy in the reduction of poverty and creation of economic equality Zuberi shows exactly where and how the social policies that distinguish the Canadian welfare state from the U S version make a difference in protecting Canadian workers from the hardships that burden low wage workers in the United States *Differences That Matter* which is filled with first person accounts ends with policy recommendations and a call for grassroots community organizing

The War Within Robert Daniels, 2005 Who is the Faithful and Discreet Slave If you are a Jehovah s Witness no doubt you have a deep love for the truth Chances are you would also agree that no matter how much Bible reading we have done we would never have learned the truth on our own The Watchtower December 1 1990 p 19 Most of what you know about Jehovah God and his Word you

learned from the faithful and discreet slave class This is why you go door to door to share what you have learned with others But isn't it possible that some of the Watchtower Society's teachings could be wrong After all they've been wrong in the past Wasn't C T Russell wrong when he expected to be taken to heaven in 1914 Wasn't J F Rutherford wrong when he predicted that men like Moses and David would soon be resurrected and live in the Watchtower's mansion in San Diego And isn't it possible that N H Knorr and F W Franz were wrong in saying that the generation of 1914 would live to see the end of this wicked system of things If God's organization was wrong about these things shouldn't we consider the possibility that they are still wrong about other more important doctrines as well Why is it then that most Witnesses will never question the Society's teachings even when they teach commands of men as doctrines Matthew 15:9 What gives them this kind of authority As you know their claim to authority rests entirely on their interpretation of Jesus' parable of the faithful and discreet slave Who really is the faithful and discreet slave whom his master appointed over his domestics to give them their food at the proper time Happy is that slave if his master on arriving finds him doing so Truly I say to you He will appoint him over all his belongings Matthew 24:45-47 They believe this text makes them God's channel for providing spiritual food to his people In 1919 that slave was identified as the remnant of anointed Christians Since then as represented by the Governing Body of Jehovah's Witnesses it has been the center of theocracy on earth The Watchtower January 15 1994 p 16 Since so much rests on this passage it is only right that we examine just what Jesus meant in this parable The Society insists that Jesus was speaking not of individuals but of a group of people who are members of an organization The problem is in Luke's account Jesus specifically applies the parable to individuals Indeed everyone to whom much was given much will be demanded of him and the one whom people put in charge of much they will demand more than usual of him Luke 12:48 The parable has to do with Christian stewardship In fact it follows the same pattern as the parable of the talents Matthew 25:14-30 or minas Luke 19:12-27 A master departs leaving work for his slaves When he returns he evaluates their faithfulness and rewards or punishes them accordingly It's interesting that the Society applies these parables to individuals while applying the faithful and discreet slave parable Matthew 24:45-51 to an organization Their interpretation is inconsistent This teaching on the faithful stewardship of individuals is reflected elsewhere in Scripture In proportion as each one has received a gift use it in ministering to one another as fine stewards of God's undeserved kindness expressed in various ways 1 Peter 4:10 Let a man so appraise us as being subordinates of Christ and stewards of sacred secrets of God Besides in this case what is looked for in stewards is for a man to be found faithful 1 Corinthians 4:1-2 Can you say that Jesus is your Master If so think about what it says of your stewardship when you accept the Watchtower's teachings without question knowing that the Bible never approves of such a practice Have you noticed that the Society often encourages others to examine their religion but discourages you from doing the same How ironic that the Society's first president C T Russell wrote If any one knows anything better let him take it If any of you ever find anything better we hope you will tell us The Watchtower December 1

1990 p 19 We think we have something better We encourage you to compare the teachings of the Watchtower Society with those of solid evangelical Christians Otherwise how will you know you ve really been feeding on the best spiritual food As a suggestion start by reading a book like Systematic Theology by Wayne Grudem which examines the biblical basis for the different views of all the major doctrines We pray that Jehovah will guide you as you seek to be a faithful slave of our Lord Jesus Christ
