

Reference Guide to World Hunger (Environment Reference)

Dando, William A.

Reference Guide To World Hunger

Patrick Vollmar

Reference Guide To World Hunger:

Reference Guide to Africa Alfred Kagan, Atoma Batoma, 2014-10-16 This third edition of the Reference Guide to Africa explains the most important resources for the study of the continent of Africa. It contains a general sources section and a larger disciplinary oriented section. All sources are annotated. A new edition is sorely needed since the last edition was published nine years ago. The previous editions have been successfully used in research libraries worldwide since 1999 and it has been used to teach several African studies research courses. The book provides an orientation for researching almost any topic in the arts, humanities and social sciences concerning the continent of Africa and all of its countries and ethnic groups. The first part explains and lists portals, databases, bibliographies, indexes, guides, encyclopedias, country sources, biography, primary sources, government publications and statistics. The second part presents 16 subject oriented chapters mostly in the arts, humanities and social sciences from agriculture and food security to women studies. It covers sources that broadly cover the continent or in some cases only North Africa and the Middle East. It generally excludes sources limited to one country or region of Africa except for North Africa because of the nature of the literature. One third of the sources in this edition are new and nearly half of them are available in electronic format. There are author, title and subject indexes. This unique work is intended for students, teachers, librarians and researchers. It likely will be used most by reference librarians and teachers for students in high school through graduate studies. It will also be used independently by undergraduate and graduate students. It can be used to answer simple reference questions, provide the resources for an undergraduate paper or for comprehensive work by advanced students and researchers.

A Reference Guide to World Hunger William A. Dando, Caroline Z. Dando, 1991. Comprises a dictionary, directory and information guide relating to world hunger, nutrition and food relief. A User's Guide to the Crisis of Civilization Nafeez Mosaddeq Ahmed, 2010-08-06. It often seems that different crises are competing to devastate civilisation. This book argues that financial meltdown, dwindling oil reserves, terrorism and food shortages need to be considered as part of the same ailing system. Most accounts of our contemporary global crises focus on one area such as climate change or the threat of terrorism to the exclusion of others. Nafeez Mosaddeq Ahmed argues that the unwillingness of experts to consider crises from an interdisciplinary perspective has resulted in their failure to understand historical events. From ecology and the environment to political governance, the global economy and international relations, Ahmed investigates contemporary crises not as isolated events but as trends and processes that belong to a single global system. Ahmed posits that we are therefore not dealing with a clash of civilisations as Samuel P. Huntington argued. Rather, we are dealing with a fundamental crisis of civilisation itself.

Exotic Fruits Reference Guide Sueli Rodrigues, Ebenezer de Oliveira Silva, Edy Sousa de Brito, 2018-01-05. Exotic Fruits Reference Guide is the ultimate most complete reference work on exotic fruits from around the world. The book focuses on exotic fruit origin, botanical aspects, cultivation and harvest, physiology and biochemistry, chemical composition and nutritional value, including phenolics and

antioxidant compounds This guide is in four color and contains images of the fruits in addition to their regional names and geographical locations Harvest and post harvest conservation as well as the potential for industrialization are also presented as a way of stimulating interest in consumption and large scale production Covers exotic fruits found all over the world described by a team of global contributors Provides quick and easy access to botanical information biochemistry fruit processing and nutritional value Features four color images throughout for each fruit along with its regional name and geographical location Serves as a useful reference for researchers industrial practitioners and students
