resilience and considers what supports and undermines people's resilience in different contexts. Focusing on the United Kingdom, it examines the contradictions and limitations of neoliberal resilience policies and the role of policy in shaping how vulnerabilities are distributed and how resilience is manifested. The book explores different types of resilience including planning, response, recovery, adaptation, and transformation, which are examined in relation to different types of threat such as financial hardship, disasters, and climate change. It argues that resilience cannot act as an antidote to vulnerability and aims to demonstrate the importance of shared institutions in underpinning resilience and in preventing socially created vulnerabilities.
