Mystifying Kabbalah Boaz Huss, 2020-09-10

Most scholars of Judaism take the term Jewish mysticism for granted and do not engage in a critical discussion of the essentialist perceptions that underlie it. Mystifying Kabbalah studies the evolution of the concept of Jewish mysticism. It examines the major developments in the academic study of Jewish mysticism and its impact on modern Kabbalistic movements in the contexts of Jewish nationalism and New Age spirituality. Boaz Huss argues that Jewish mysticism is a modern discursive construct and that the identification of Kabbalah and Hasidism as forms of mysticism which appeared for the first time in the nineteenth century and has become prevalent since the early twentieth shaped the way in which Kabbalah and Hasidism are perceived and studied today. The notion of Jewish mysticism was established when western scholars accepted the modern idea that mysticism is a universal religious phenomenon of a direct experience of a divine or transcendent reality and applied it to Kabbalah and Hasidism. Jewish mysticism gradually became the defining category in the modern academic research of these topics. This book clarifies the historical, cultural and political contexts that led to the identification of Kabbalah and Hasidism as Jewish mysticism, exposing the underlying ideological and theological presuppositions and revealing the impact of this mystification on contemporary forms of Kabbalah and Hasidism.

**A Treasury of Mystic Terms, Part 1** John Davidson, 2003

The Treasury is a collection of the spiritual terms found in the literature of the world's religious and mystical traditions. Its primary objective is to elucidate the meaning of the essential terms used by the various spiritual and religious traditions of the world throughout history. It is not primarily intended as a dictionary or as an encyclopedia nor is it a definitive treatise on any particular subject or religion. It is meant to help the ordinary person understand some of the basic principles of his or her religious background within the framework of a universal understanding of spirituality. All terms are explained in a simple manner with each term presented as a separate entry. With the explanations grouped according to subject and placed alongside one another, many similarities between the various religions immediately become apparent. Among these many pages, the reader will find a mixture of interesting concepts, quotations, thoughts, perceptions, and ideas. There should be something for everyone, whoever they are and whatever their bent of mind. The Treasury is prepared and edited by an international team of researchers, contributors, editors, and readers with a wide variety of religious and cultural backgrounds. All those involved gave their time and expertise freely to the project. Since the Society does not seek any profit and the cost of printing in India is low, the Treasury can be sold at a very low price. This helps the Society stay true to its premise that spirituality is the birthright of all; that no profit should be extracted from its dissemination and most important, that knowledge of these truths should not be withheld from anyone for economic reasons.
