## **Reflections On The Revolution Of Our Time:**

Reflections on the Revolution of Our Time Harold Laski, 2017-07-05 Harold J Laski saw World War Two as a period of revolutionary change as profound as any in the modern history of the human race In his view the period s inner nature was as significant in its essentials as those which saw the fall of the Roman Empire the birth in the Reformation of capitalist society or as in 1789 the final chapter in the dramatic rise of the middle class to power All of these were not revolutions made by thinkers though some of them may have foreseen its coming but of ordinary people who shaped the large outlines of the direction of these changes Laski held that revolutions of our time have been rooted in all that goes to give its present character to our society We can recognize its advent and prepare for it in that event we might build a civilization richer and more secure than any of which we so far have knowledge Or we may chose to resist its onset in which case it will appear to some future generation that our age has sought rather to sweep back the tides of the ocean than to oppose the decrees of men The curse of our social order is its persistent inequalities Either we must find ourselves able to co operate in their removal or we shall move rapidly to conflict about them Laski argues that the middle class must co operate with workers in essential revisions as the aristocracy was wise enough to do a century ago over the Reform Bill or violent revolution will be unleashed by means that transforms the ends of either party to the conflict in view This is the choice that lies before us Just how accurate or wide of the mark Laski was is brilliantly articulated in the critical introduction by Sidney A Pearson Jr

**Reflections on the Revolution of Our Time** Harold Joseph Laski, 1968 *Reflections on the Revolutions of Our Time* Harold J. Laski, Originally published New York Viking 1943 **New Reflections on the Revolution of Our Time** Ernesto Laclau, 1990 No Marketing Blurb **Discourse Theory and Political Analysis** David R. Howarth, Aletta J. Norval, Yannis Stavrakakis, 2000-11-18 How can recent developments in post structuralist post Marxist and psychoanalytical theory actually inform ongoing empirical research What are the appropriate methods and research strategies for conducting research in discourse theory and analysis How can concepts such as hegemony identity the imaginary dislocation and empty signifiers illuminate key aspects of contemporary society and politics This pathbreaking and multi focal book contains a clear introductory statement of the theoretical approach used and concludes with an assessment of the future directions of discourse theory in the social sciences **The Crisis of Marxism** Elías J. Palti, 2025-06-09 In this book El as J Palti analyzes the writings of key thinkers who have theorized the present situation of Marxism Perry Anderson Fredric Jameson Ernesto Laclau Slavoj i ek Judith Butler Alain Badiou and Jacques Derrida His aim is to interrogate what appears to be the final crisis of Marxist political tradition from a historical intellectual point of view placing it within a broader framework which is the present crisis of politics at large Yet it also reveals why we cannot even then avoid confronting it stubbornly trying to think of what seems to be unthinkable today namely the idea of an emancipatory horizon Unlike traditional works of political philosophy *The Crisis of Marxism A Historical Intellectual Problem* does not intend to provide political or philosophical

answers to today's dislocation of politics. Instead, it aspires to clarify the nature of the questions that such a situation raises and demonstrates why the current crisis of Marxism contains some fundamental clues for it. **Dilemma of Our Times**

**Approaches Based on Discourse Theory**, *The PKK-Kurdistan Workers' Party's Regional Politics* Ali Balci, 2016-11-30

This book presents a theoretical framework to study dissident ethnic movements' imagination of world politics with a special focus on the PKK as a case study. Dissident ethnic movements are not only a challenge to the existing hegemonic power but they also produce an alternative closed society based on different ethnic imagination. Instead of taking the armed PKK movement as a pure resistant, this book approaches contemporary Kurdish nationalism led by the PKK as a counter-hegemonic with a narrative that entails the emergence of a new kind of identity and sense of belonging through which the PKK has been able to exercise its power. This book is an attempt to go beyond resistance-oriented approach, unveiling the two faces of the PKK's representation of world politics, its transformative effect on the Kurds and its exclusionary function towards traditional and alternative Kurdish subjects/institutions. *Discourse, Culture and Organization* Tomas

Marttila, 2018-09-22. This edited volume brings together leading international researchers from across the social sciences to examine the theoretical premises, methodological options and critical potentials of the Essex School of discourse analysis, founded on the work of Ernesto Laclau and Chantal Mouffe. In doing so, it presents a clear picture of a poststructuralist and post-foundational research program to postdisciplinary discourse research. Divided into three parts, it begins by elaborating the ontological, theoretical and methodological foundations of the Essex School's approach to discourse analysis. The second part provides empirical case studies showing how the Essex School research program informs and instructs empirical discourse research. In the concluding third part, authors explain how and with what possible consequences this strand of discourse research contributes to social practices of critique. It offers a crucial contribution to the further methodologization and operationalization of the Essex School's approach so as to make it a viable alternative to discourse analytical approaches that take dominant positions in today's field of discourse studies. The book's transdisciplinary focus will attract readers who use discourse analysis in all areas of the social sciences and humanities, particularly applied linguistics, cultural anthropology, sociology, philosophy and history. *Normalising Private Military Force* Christopher Kearney, 2025-09-03. This book examines the normalization of Private Military and Security Companies (PMSCs) and analyses US media discourse around the Nisour Square incident in Iraq as a pivotal case. States are increasingly relying on PMSCs to meet security needs. As a sign of ongoing normalization, these companies are now increasingly targeted by soft law or self-regulation. Rejecting the common claim that mercenaries have always been with us, this book sets out to analyse the underlying conditions that have allowed PMSCs to emerge in their uniquely contemporary incarnation. Divided into two parts, this book develops a novel

poststructural framework of analysis to articulate social political and affective conditions that enabled PMSCs to prevail despite controversy It draws on and operationalizes the Essex School's logics based approach while developing it further with corpus linguistics and applies this framework to a large corpus of American mainstream media articles The volume contributes to efforts aiming to overcome the alleged methodological deficit of discourse analysis while highlighting the importance of making unconsciously held truths visible This book will be of interest to students of private security companies military studies critical security studies and International Relations Welcome to the Jungle Kobena Mercer, 2013-09-13

Welcome to the Jungle brings a black British perspective to the critical reading of a wide range of cultural texts events and experiences arising from volatile transformations in the politics of ethnicity sexuality and race during the 1980s The ten essays collected here examine new forms of cultural expression in black film photography and visual art exerting with a new generation of black British artists and interprets this prolific creativity within a sociological framework that reveals fresh perspectives on the bewildering complexity of identity and diversity in an era of postmodernity Kobena Mercer documents a wealth of insights opened up by the overlapping of Asian African and Caribbean cultures that constitute Black Britain as a unique domain of diaspora **Persuasion and Compulsion in Democracy** Jacquelyn

Kegley, Krzysztof Piotr Skowronski, 2013-01-25 This collection of essays focuses on the roles that coercion and persuasion should play in contemporary democratic political systems or societies A number of the authors advocate new approaches to this question offering various critiques of the dominant classical liberalism views of political justification freedom tolerance and the political subject A major concern is with the conversational character of democracy Given the problematic and ambiguous status of the many differences present in contemporary society the authors seek to alert us to the danger that an emphasis on reasonable consensus will conceal exclusion in practice of some contending positions The voices of vulnerable peoples can be unconsciously or even deliberately silenced by various institutional processes and operating procedures and a strong media influence can change the tenor of conversations and even lead to deception To counter these factors a number of the essays in differing ways urge the fostering of local community conversations or democratic agoras so that democratic debate and conversation might maintain the vitality necessary to a strong democratic system **The Culture of Enterprise in Neoliberalism** Tomas Marttila, 2013-01-04

This book provides an empirical study of the increasing importance of the concept of the entrepreneur in the context of the neoliberal cultural paradigm Using the theoretical framework of the post structural discourse theory and methods of qualitative discourse analysis the book describes the changes in political discourse that resulted in the increasing dominance of the figure of the entrepreneur after the late 1980s **The Dialogue of Negation** Jeremy Lester, 2000-04-20 The dialogue between large elements of the Western and the Soviet Russian left has all too often been one of negation rather than affirmation The Dialogue of Negation pursues this argument and examines the conceptual and strategic richness of hegemony providing an overview of the key debates which have shaped its historical

development Jeremy Lester situates the modern evolution of hegemony within an East West dimension and focuses in particular on the deep seated difficulties and incompatibilities of much of this interaction Lester offers a defence of Gramsci's understanding of hegemony as a key element of the revolutionary class struggle He acknowledges Gramsci's own disputes within the Marxist domain and celebrates the theoretical and practical legacy he bequeathed to those who continue the struggle to replace capitalism with socialism Lester provides a critical defence of modernity against the challenge of postmodernity arguing that it is only within the parameters of modernity that a meaningful form of socialism can succeed He seeks to highlight the inconsistencies and illogicalities of those theorists who see the transition to some kind of postmodern condition as offering new possibilities for the transcendence of capitalism Post-Foundational Discourse Analysis Tomas Marttila, 2015-10-19 This book adds the missing link between post foundational discourse theory and the methods of empirical research and in doing so it develops a post foundational discourse analysis research program The book offers a structure of the research program and explores the methodologization of other discourse analytical approaches

**Overcoming Exploitation and Externalisation** Friederike Habermann, 2023-12-15 Advancing an intersectional theory of hegemony this book shows how various power relations interact through capitalist structures of othering Going beyond the usual critiques of capitalism it analyses the market itself as a principal cause of various forms of externalisation and domination The book therefore calls for a dismantling of the market and its competitive economic structures through a transformation of the economy from below greater democratisation not least for the empowerment of suppressed identities and the creation of commons as spaces based on inclusion rather than exclusion In doing so *Overcoming Exploitation and Externalisation* argues that co operative possibilities can emerge for the transformation of ourselves and our society It will therefore appeal to scholars and students of social and political theory with interests in the commons and alternatives to capitalism *Populist Discourse* Yannis Stavrakakis, 2024-04-26 *Populist Discourse* Recasting Populism Research offers a refreshingly innovative discourse theory perspective on populist phenomena Reading this book will help you familiarize yourself with the historical genealogy of significant populist phenomena from the end of the 19th century onwards and with the main conceptual theoretical accounts established to analyse them Mainstream conceptualizations of populism in both academia and public discourse are critically discussed in order to map new promising avenues for research Inspired by the works of Ernesto Laclau and Chantal Mouffe the book addresses current challenges within populism research and highlights the new directions that a conceptually nuanced theoretically rigorous and historically informed discursive orientation can contribute to the contemporary study of populism Without sacrificing attention to detail strong bibliographical support and a focus on the future development of populism research *Populist Discourse* is written in accessible language to engage populism scholars advanced undergraduates and graduate level students within the field of political science Due to its interdisciplinary character it will also appeal to readers associated with various politically informed area studies and the

broader field of ideology and discourse analysis      **Critical theory and demagogic populism** Paul K. Jones, 2020-11-03

Populism is a powerful force today but its full scope has eluded the analytical tools of both orthodox and heterodox populism studies This book provides a valuable alternative perspective It reconstructs in detail for the first time the sociological analyses of US demagogues by members of the Frankfurt School and compares these with contemporary approaches Modern demagoguery emerges as a key under researched feature of populism since populist movements whether left or right are highly susceptible to demagogic capture The book also details the culture industry s populist contradictions including its role as an incubator of modern demagogues from the 1930s through to today s social media and Trumpian psychotechnics Featuring a previously unpublished text by Adorno on modern demagoguery as an appendix it will be of interest to researchers and students in critical theory sociology politics German studies philosophy and history of ideas as well as all those concerned about the rise of demagogic populism today
