Abstract

One of the main causes of the economic crisis is the “greed” manifested at the different levels of society. From a moral point of view, in all religions of the world greed is repulsive and evil. In this paper, we’ll look at how the degree of greed displayed by bank directors and the unscrupulous tactics significantly contributed to the collapse of the financial system and we will focus on the consequences of repealing the Glass Steagall Act.

Though, over time, both philosophers, scientists, politicians, church have tried, through their works, to influence human behavior in order to be more selfless, these actions are not enough. It requires government intervention, through strict regulations applied to institutions and individuals that lead to extreme greed and affect the population through their actions.

We have to launch a strident call for a new kind of humanism to confront a world seemingly out of control!

Key words: greed, economic crisis, Glass Steagall Act

J.E.L. classification: A13, D64, G38

1. Introduction

The first objective of this paper is to delimit the concept of “greed” and then let’s see what influence this feature has over the human behavior and the economy. Greed can be defined as the selfish desire to possess wealth, objects, humans, power, status, appreciation or attention, far beyond what is required for a basic human comfort (Robertson, 2001). To fill the feeling of void and dissatisfaction, the greedy individual acts in such a way that often costs the happiness of others. Doctor Fromm said that: “Greed is a bottomless pit that exhausts the person in an endless effort to satisfy the need, without ever getting satisfaction” (Fromm, 1939, p. 507-523).

This concern regarding the human’s tendency to be greedy exists since over 2000 years ago – the Latin poet Plautus used the expression “Homo homini lupus” (“A man is a wolf to another man,” or more tersely “Man is wolf to man”) in his comedy *Asinaria* (Plautus, 195BC, verce 495), referring to the wild, insatiable greed which transforms some people into beasts towards their peers. In the same direction are the claims of philosopher Thomas Hobbes, who wrote that “the natural state of men is a war of all against all” (Lloyd et al, 2014, p. 2-4), or of philosopher John Locke who considered “amor sceleratus habendi (accursed love of possessing), evil concupiscence” being a cause of corruption, referring to the sinful greed of selfish people and their desire to have more than meeting everyday needs (Locke, 2003, p. 25).

Reflections on Progress Kemal Dervis, 2016-08-30 Now more than ever the world needs growth oriented and socially inclusive policymaking Is the world giving up on the promise of ever greater prosperity for all on functioning democratic institutions and on long term peace Is the special set of circumstances that led to the recent rapid growth in emerging markets unlikely to be present in the future Will the second decade of the twenty first century end with secular stagnation Does the rise of authoritarianism populism and fanatic nihilism all experienced over the last few years threaten to unravel what has been built painstakingly since the catastrophe of World War II Kemal Dervis addresses these and similar questions in this thought provoking series of essays written for Project Syndicate from 2011 to 2015 The essays are organized in three sections global economic interdependence inequality and the political economy of reform and the specific challenge of Europe The common theme is the need for growth oriented and socially inclusive policymaking in an interdependent world These kinds of policies offer the potential for another wave of unprecedented human progress aided by breathtaking new technologies However a huge and destabilizing disruption is possible if policymaking is not globally cooperative and is not focused on inclusion and greater equity These essays synthesize the experience and analysis of a scholar and policymaker with national regional and international experience at the highest levels Dervis exhibits a passion for combining strongly held values with political feasibility

Holocaust Escapees and Global Development David Simon, 2019-01-15 The thousands uprooted and displaced by the Holocaust had a profound cultural impact on the countries in which they sought refuge with numerous Holocaust escapees attaining prominence as scientists writers filmmakers and artists But what is less well known is the way in which this refugee diaspora shaped the scholarly culture of their new found homes and international policy In this unique work David Simon explores the pioneering role played by mostly Jewish refugee scholars in the creation of development studies and practice following the Second World War and what we can learn about the discipline by examining the social and intellectual history of its early practitioners Through in depth interviews with key figures and their relatives Simon considers how the escapees experiences impacted their scholarship showing how they

played a key role in shaping their belief that development really did hold the potential to make a better world free from the horrors of war genocide and discrimination they had experienced under Nazi rule In the process he casts valuable new light on the origins and evolution of development studies policy and practice from this formative postwar period to the present

Reflection Les Pruitt,2022 In Tick Tock To Midnight the author s first novel his intuition visioned a dark cloud rising over democratic geopolitical influence around the globe In contrast here in Reflection Into The Abyss Democracy or Autocracy recalibrates towards various key world leaders These suspects work for the Lawless One that is always in the middle of politics and religion Strawmen that function in key positions on behalf of The Program All things considered The Club needed a cheerleader for a new type of patriotism Someone with a big ego that tilted towards psychotic irrational behavior On cue without skipping a beat even after a deadly bout by a superbug COVID 19 He knew the Doomsday Clock was about to make its last tick so it was all or nothing And to realize The Club s final goal a 7 Year Peace Agreement and Third Temple The Donald s cultural movement had to execute a hail Mary towards the United States Capital That s when the Don became the Houdini of the Big Lie resorting to all tricks available to maintain power and become the nation s first autocrat but failed The Club is still active a sinister plan nonetheless like a double barrel shotgun loaded with a two prong attack The Club cleverly orchestrated a global pandemic under the disguise of a major trade war the CCP Chinese Communist Party and the Republican Party nearly executed a perfect coup d tat of global democracy Even so China still has plans under the New Silk Road development project
