Reflective Journeys... George Kassabgi, 2006-02 Reflective Journeys Methuselah is a philosophical exploration of concepts pondered from childhood Take a journey of thought and introspection unlike any before Immerse yourself in this collection of writings organized in three sections Infinity Empty and Familiar Revisit your inquisitiveness and emerge with new questions and new meaning In the silent pauses of our lives subtle gaps amid our commotion We sit next to our elder selves only to move in haste Summoned back to the noise of the moment Bench A bristlecone pine in the California White Mountains Methuselah is the world's oldest living thing It lives in a desert climate at over 10 000ft elevation Over 46 centuries old it was a seedling before the Egyptian pyramids were erected For more on Reflective Journeys Methuselah please visit our web site at <http://www.ugik.com>

Reflective Journeys - Vitae G. Kassabgi, 2024-05-07 What if our conscious thoughts are living forms vitae What is happening in the brain when a mind and consciousness are felt internally Where does consciousness come from Are consciousness and nature somehow interconnected I cannot think of a more interesting thing to ponder and so for over 2 decades I've explored concepts surrounding these types of reflections using a poetic shape a type of mirror for the reader's mind Occasionally these pieces are directly and specifically aimed at the center of the inquiry and often they were tangential or in the shadow of the central themes In the shadow of a source we are sometimes able to see things that would otherwise not be seeable The collections have approached the questions surrounding these vitae as such each inspired by a unique living organism Methuselah an exploration of our journey through time above all else we must consider the dimension of time There are things that transcend the dimension of time what does this mean and how can we our lives so brief and fragile comprehend this Architect's questions about things known to exist but unseen Let's think about this things known to exist but unseen empiricism is challenged What do we make of the countless things that believed to exist To believe is not exactly equivalent as to know and this is no academic detour Questions of faith surface quickly Actias Luna the incredible metamorphosis and transformation the caterpillar and moth An inevitable destiny understood in a manner apart from cognition Here we begin to ponder what it means to know something in ways having nothing to do with cerebral thought processes Tuugaalik the unicorn whale What unfolds as we live out a dream is more transformational more awe inspiring than we could have ever imagined Notice the use of live out a here and remember that thoughts as vitae do precisely this they live Questions about knowability run deep what we come to know often unfolds in ways we could not have imagined It is thus the ambitious aim of these collections to present the reader with an ensemble a framework of mental mirrors to approach some of the most elemental questions In reality every reader is while he is reading the reader of his own self The writer's work is merely a kind of optical instrument which he offers to the reader to enable him to discern what without this book he would perhaps never have perceived in himself Marcel Proust We return to our vitae towards the end of this work and for the first time in over 2 decades attempt to assemble some of the puzzle pieces *Reflective Journeys G.*

The Autobiography of Methuselah John Kendrick Bangs,2019-12-10 In The Autobiography of Methuselah John Kendrick Bangs masterfully intertwines humor and philosophical reflection offering a unique and satirical take on the biblical figure known for his extraordinary longevity Written in a style reminiscent of both the Victorian era s humor and contemporary wit Bangs employs a first person narrative that brings Methuselah s thoughts and experiences to life The book is enriched with clever references to the cultural and scientific milieu of the late 19th century reflecting the era s fascination with aging mortality and the human condition while simultaneously providing a comedic lens through which to view the age old themes of life and death John Kendrick Bangs an American author and humorist was known for his playful engagement with literary forms and traditions His career blossomed during a time when contemporary writers were exploring new ground in fiction often blending genres to challenge societal norms Bangs insights into both human nature and societal absurdities were undoubtedly influenced by his experiences in academic circles and his personal contemplation of life s mysteries rendering him well equipped to tackle the monumental character of Methuselah in an accessible and engaging format This book is highly recommended for readers who appreciate literary humor blended with philosophical depth Bangs not only entertains but also provokes thought about existence making it a compelling read for anyone interested in exploring the intersection of comedy spirituality and the contemplative aspects of life

Touching Stories of My Life in Journey to Christian Holiness and Hands- on Patient Care in a Weeping Healthcare Ramsis F. Ghaly FACS, MD, 2019-08-26 This is the twelfth book of the series *Christianity and the Human Brain* It integrates the neuroscience and the Bible the Holy Book of our Lord Jesus My love for our Lord Jesus Christ abides with my lifetime passion for neurosurgery and medicine my continual obsession of spiritual connectivity of the Holy Spirit to the human brain that indeed separates mankind from all other living creation It has been my belief that the human brain does not limit itself to the physical skull but rather extends in a nonphysical form to the outside spiritual world even while living on earth In other words a big part of the human brain is actually outside the skull and the body As I perform brain surgeries for three decades I realize my theory is so true The majestic human brain can't be just the 1 500 grams of jelled matter inside the skull The human journey therefore is transforming the human brain to become a brain of a man of God and the hand of man to a hand of a man of God The spiritual human brain never dies only the flesh It is the center of my calling and unrelenting meditations while roaming in the heartfelt spirit lacking the physical proof that science demand of me My life is dedicated to my Lord Jesus patients and residents As a physician I have reached the top in America I am a professor of both neurological surgery and anesthesiology and I am well published in famous medical journals As an academic teacher I trained for more than thirty four years graduating thousands of trainee But all is nothing as I strive for the Christian holiness and fullness In a weeping healthcare with many patients falling victims I included actual patients miracles testimonials and sincere quotes as a testament to the Almighty and the dire need for faith and integral goodhearted medicine This book is full of many vibrant stories that I love to share It is timely since I consider my generation soon will be viewed obsolete to the future generations and what will remain are the books I authored The book is a text of wealth covering broad and diverse topics of my life's journey in 134 chapters and organized over 14 sections So many chapters are written about my special love for Lord Jesus Christ and His children In poems deep reflections and spiritual release of mind I wrote extensively In fact I shut my senses and impersonated the human brains of the men of God and the children of the Most High in their prominent biblical stories A special section is dedicated to the mothers newborns and little children While my soul is grieving a section

is designated on the ongoing Christian persecution especially the genocide of Christians in my country Egypt the ancient region of the Middle East and the oldest historic continent of Africa Furthermore I wrote some of my dreams and thoughts that I couldn't otherwise convey for one reason and another such as neuroscience in aerospace and some of the timely touching subjects like drug overdose human trafficking and healthcare crises Few chapters included are about my personal views and introducing spirituality into the recent turmoil in politics Friends human life starts with love and ends with eternal love for our Savior It is never enough to share our love write about love and talk about actual love stories of heavenly roses joy Christmas healing touch miracles and our calling for his purpose This is what my twelfth book is all about First Move of the Anti-Christ Annette Akerman, 2019-12-22 Written from the standpoint that Satan's onslaught of the human race began as a result of his success with his temptation of Eve and continues still today First Move of the Antichrist tell a story beginning with the temptation in the garden The story builds credence with the introduction of humans that had been the preliminary creation of God from the very beginning It is a story of violence hatred and loss of innocence told as it might have occurred using the premise in scripture that there was no man to till the ground until God created Adam The story gives life and personality to the fathers of the Old Testament and builds to a cataclysmic end as it lays the groundwork for the first move of the antichrist Skeletons Jan Zalasiewicz, Mark Williams, 2018-03-09 Over half a billion years ago life on earth took an incredible step in evolution when animals learned to build skeletons Using many different materials from calcium carbonate and phosphate and even silica to make shell and bone they started creating the support structures that are now critical to most living forms providing rigidity and strength Manifesting in a vast variety of forms they provided the framework for sophisticated networks of life that fashioned the evolution of Earth's oceans land and atmosphere Within a few tens of millions of years all of the major types of skeleton had appeared Skeletons enabled an unprecedented array of bodies to evolve from the tiniest seed shrimp to the gigantic dinosaurs and blue whales The earliest bacterial colonies constructed large rigid structures stromatolites built up by trapping layers of sediment while the mega skeleton that is the Great Barrier Reef is big enough to be visible from space The skeletons of millions of coccolithophores that lived in the shallow seas of the Mesozoic built the white cliffs of Dover These and insects put their scaffolding on the outside as an exoskeleton while vertebrates have endoskeletons Skeletons may be hydrostatic or as is common made of calcium phosphate or from carbonate or silica the latter used to create delicate and elegant designs by diatoms and radiolarians They need to be light and strong for flight Plants use tubes of dead tissue for rigidity and transport of liquids which in the case of tall trees need to be strong enough to extend 100 m or more from the ground Others simply stitch together a coating from mineral grains on the seabed In Skeletons Jan Zalasiewicz and Mark Williams explore the incredible variety of the skeleton innovations that have enabled life to expand into a wide range of niches and lifestyles on the planet Discussing the impact of climate change which puts the formation of some kinds of skeleton at risk they also consider future skeletons including the possibility that we might

increasingly incorporate metal and plastic elements into our own as well as the possible materials for skeleton building on other planets

The Silver Snarling Trumpet Robert Hunter, 2024-10-08 Discovered at last the legendary lost manuscript of Grateful Dead co founder and primary lyricist Robert Hunter written in the early 1960s a wry richly observed and enlightening remembrance of the scene in Palo Alto that gave rise to an incredible partnership of Hunter and Jerry Garcia and then to the Grateful Dead itself with a Foreword by John Mayer an Introduction by Dennis McNally and an Afterword by Brigid Meier Strange to think back on those days when it was perfectly natural that we all slept on the floor in one small room These were

the days before practical considerations matters of importance began to eat our minds We were all poets and philosophers then until we began to wonder why we had so few concrete worries and went out to look for some So wrote Robert Hunter in *The Silver Snarling Trumpet* both a novelistic singular work of art and the missing piece of the Grateful Dead origin story In these pages readers are privy to the early days of Hunter Garcia and their cohorts who sit at coffee shops passing around a single cup of bottomless coffee because they lacked the funds for more than one Follow these truth seeking souls into the stacks at Kepler s Books renting instruments at Swain s House of Music and through the countryside on mind expanding road trips Witness impromptu jams inspired intellectual pranks and a dialogue that is by turns amusing and brilliant and outrageous Hunter shares his impressions of his first gig with Garcia for a college audience along with descriptions of his most intense dreams and psychedelic explorations All of it enlivened by Hunter s visionary spirit and profound ideas about creativity and collaboration The lost manuscript is augmented with a Foreword by John Mayer an Introduction by Dennis McNally and an Afterword by Brigid Meier who was part of their scene in the San Francisco Bay Area that served as a bridge from the beatniks to the hippies Also included is Hunter s own 1982 assessment of his work about how he shared it with close confidants but then decided to leave it unpublished Five years after Hunter s death the text has been found so readers and fans of Hunter s indelible poetry and song can explore the origin of his genius and his craft *Deep South - Deep North* Lottie B. Scott, 2018-06-27 *Deep South Deep North* By Lottie B Scott In *Deep South Deep North A Family s Journey* Lottie B Scott tells both the heartbreaking and triumphant tale of her maturation into adulthood against a racially charged impoverished yet fiercely loving backdrop in Longtown South Carolina Scott traces her family history peppered with familial violence and love alike She describes her early childhood years of living amidst a sea of brothers until little sisters finally arrived Under the cloud of racial discrimination difficult farm working conditions and family tensions Scott describes the unbreakable bonds of love that eventually emerged to forever bind her family members together As the passing years turn to decades and family members move north Scott reveals how these bonds of love become a transformative power forever altering the lives of each member of her family *The New Age* Arthur Moore, 1929 *Made in the Imago Dei!* ,
