

Reflexology is an alternative health therapy that uses knowledge of reflex points to stimulate the body's natural processes. It is based on the principle that there are correspondences between the organs of the body and reflex points on the hands, feet and ears. Reflexology is a non-invasive therapy that aims to improve the circulation of blood and lymph, and to release the body's natural healing abilities. The technique of reflexology involves massaging these reflex points with the fingers and thumbs in order to treat them, and thereby cause organs connected to the reflexes.
