**The Problem of Slavery in the Age of**

**Emancipation** David Brion Davis,2015-01-06 Winner of the National Book Critics Circle Award 2014 With this volume Davis presents the age of emancipation as a model for reform and as probably the greatest landmark of willed moral progress in human history Bringing to a close his staggeringly ambitious prizewinning trilogy on slavery in Western culture Davis offers original and penetrating insights into what slavery and emancipation meant to Americans He explores how the Haitian Revolution respectively terrified and inspired white and black Americans hovering over the antislavery debates like a bloodstained ghost He offers a surprising analysis of the complex and misunderstood significance the project to move freed slaves back to Africa He vividly portrays the dehumanizing impact of slavery as well as the generally unrecognized importance of freed slaves to abolition Most of all Davis presents the age of emancipation as a model for reform and as probably the greatest landmark of willed moral progress in human history

minor slights to certain kinds of gentlemen led to duels in order for honour to be satisfied and how such ideas about honour changed over time This book the most comprehensive study of the English pistol duel yet undertaken examines what it meant to be a man of honour in eighteenth and nineteenth century England A thorough survey of the incidence and distribution of duelling both socially and geographically identifies those sub groups of gentlemen most likely to duel The author considers the mores and manners of such groups and asks why it was that within specific professions minor slightscould only be requited by a demand for satisfaction In doing so the author rejects those traditional histories of duelling which have failed to engage with the internal dynamics and internal logic of the phenomenon itself Too often historians have explained the rise of opposition to duelling in terms of social and cultural change whilst at the same time treating the duel as though its ideological content had become irrevocably fixed in the early seventeenth century Honour culture too had a social and an intellectual history and the author outlines those conflicts of ideas within the culture of honour itself that did much to hasten the demise of the English duel A Polite Exchange of Bullets will be welcomed as a fresh approach to an important social phenomenon by all those interested in duelling and in English social and cultural history STEPHEN BANKS is a lecturer in criminal law at Reading University Law School and co director of The Forum of Legal and Historical Research

**American Higher Education** Roger L. Geiger,2016-09-06 This book tells the compelling saga of American higher education

from the founding of Harvard College in 1636 to the outbreak of World War II The author traces how colleges and universities were shaped by the shifting influences of culture the emergence of new career opportunities and the unrelenting advancement of knowledge He describes how colonial colleges developed a unified yet diverse educational tradition capable of weathering the social upheaval of the Revolution as well as the evangelical fervor of the Second Great Awakening He shows how the character of college education in different regions diverged significantly in the years leading up to the Civil War for example the state universities of the antebellum South were dominated by the sons of planters and their culture and how higher education was later revolutionized by the land grant movement the growth of academic professionalism and the transformation of campus life by students By the beginning of the Second World War the standard American university had taken shape setting the stage for the postwar education boom The author moves through each era exploring the growth of higher education

**Subject Guide to Books in Print** ,1971      *The Afterlife of Idealism* Admir Skodo,2016-06-01 This book examines the legacy of philosophical idealism in twentieth century British historical and political thought It demonstrates that the absolute idealism of the nineteenth century was radically transformed by R G Collingwood Michael Oakeshott and Benedetto Croce These new idealists developed a new philosophy of history with an emphasis on the study of human agency and historicist humanism This study unearths the impact of the new idealism on the thought of a group of prominent revisionist historians in the welfare state period focusing on E H Carr Isaiah Berlin G R Elton Peter Laslett and George Kitson Clark It shows that these historians used the new idealism to restate the nature of history and to revise modern English history against the backdrop of the intellectual social and political problems of the welfare state period thus making new idealist revisionism a key tradition in early postwar historiography      *American Book Publishing Record* ,1973
