Health Policies Greer, Scott, 2009-06-01 The book examines the ways that the successful health lobbies and member states work identifies weaknesses and emphasizes the challenge to health policymakers **EBOOK: Restructuring the Medical Profession: The Intraprofessional Relations of GPs and Hospital Consultants** Juan Baeza, 2005-11-16 What is the relationship between general practitioners GPs and hospital consultants in the United Kingdom How does government health policy impact upon GPs and hospital consultants What influence does the medical profession have upon policy makers in the United Kingdom The medical profession occupies a dominant position within the British health care system and as such is able to influence the development and implementation of health policy The main division within the medical profession lies between general practitioners and hospital consultants This book provides a comprehensive analysis of British health policy over the past twenty five years Drawing on data from case studies it provides empirical evidence of the impact of recent health policies upon the National Health Service in general and the medical profession in particular The case studies provide an analysis of the impact of the 1991 NHS reforms as well as examining the ongoing influence of the post 1999 NHS reforms upon these intraprofessional relations What emerges is that the relationship between GPs and hospital consultants is

transforming from a collegial to a more managerial relationship This book sheds light on the resulting development of intraprofessional relations between GPs and hospital consultants within the NHS Restructuring the Medical Profession is key reading for undergraduate and postgraduate students researchers and professionals in the fields of social policy and health policy It is also of interest to health service practitioners health service researchers and health policy makers **The European Patient Of The Future** Coulter, Angela, Magee, Helen, 2003-06-01 This book reports the results of a major study carried out in eight different European countries to look at health policy dilemmas through the eyes of the patient Drawing on literature reviews focus groups and a survey of 1 000 people in each of the eight countries the book addresses how patients no longer see themselves as passive recipients of care increasingly they expect to be involved in all decisions that affect them **Reforming the Health Care Market** David F. Drake, 1994 Examining the health care market in a historical framework Drake analyzes the forces and events that have shaped American health care in the twentieth century and sheds new light on why and how our health care system has dampened competitive market forces and failed to provide sound value for much of our health care expenditures He examines the roles that physicians hospitals insurance companies businesses individual consumers and government legislation have played in creating a provider dominated market in which the cost of care has been concealed from consumers Comparing U S health care expenditures with those of other developed countries he concludes that a significant part of our health care problem is the style of medicine practiced in the United States which is much more specialized and high tech than in other developed nations Drake develops proposals for health care financing reform that consider the political and economic difficulties involved He first examines the Clinton health care reform plan and makes specific recommendations for revisions that would improve its likelihood of controlling costs He then offers an alternative proposal that would both maintain the principle of universal noncancelable coverage and eliminate the flaws in the market for health care services by giving consumers a financial stake in cost containment This timely argument combining economic and historical analysis with thoughtful consideration of the motivating humanitarian and political concerns will be of interest to everyone seeking to understand and to reform our ailing health care system The Global Challenge of Health Care Rationing Angela Coulter, Christopher Ham, 2000 Adds to the debate on priority setting by looking at experience from other countries EBOOK: Reasonable Rationing Chris Ham, Robert Glenn, 2003-05-16 Reasonable Rationing is must reading for those interested in how to connect theory about fair rationing processes to country level practices The five case studies reveal a deep tension between political pressures to accommodate interest group demands and ethically motivated efforts to improve both information and institutional procedures for setting fair limits to care The authors frame the issues insightfully Professor Norman Daniels Harvard School of Public Health How are different countries setting priorities for health care What role does information and evidence on cost and effectiveness play How are institutions contributing to priority setting What are the lessons for policy makers Priority setting in health care is an issue of increasing

importance Choices about the use of health care budgets are inescapable and difficult A number of countries have sought to strengthen their approach to priority setting by drawing on research based evidence on the cost and effectiveness of different treatments This book brings together leading experts in the field to summarize and analyse the experience of priority setting in five countries Canada The Netherlands New Zealand Norway and the United Kingdom Drawing on literature from a range of disciplines it makes a significant contribution to the debate on the role of information and institutions in priority setting Reasonable Rationing has been written with a broad readership in mind It will be of interest to policy makers health care professionals and health service managers as well as students of health and social policy at advanced undergraduate and postgraduate levels

Russia Yegor Gaidar, 2012-11-02 An important Russian economist and politician takes a long view of economic history and Russia's development It is not so easy to take the long view of socioeconomic history when you are participating in a revolution For that reason Russian economist Yegor Gaidar put aside an early version of this work to take up a series of government positions as Minister of Finance and as Boris Yeltsin's acting Prime Minister in the early 1990s In government Gaidar shepherded Russia through its transition to a market economy after years of socialism Once out of government Gaidar turned again to his consideration of Russia's economic history and long term economic and political challenges This book revised and updated shortly before his death in 2009 is the result Gaidar's account of long term socioeconomic trends puts his country in historical context and outlines problems faced by Russia and other developing economies that more developed countries have already encountered aging population migration evolution of the system of social protection changes in the armed forces and balancing stability and flexibility in democratic institutions This is not a memoir but Gaidar points out neither is it written from the position of a man who spent his entire life in a research institute Gaidar's long view is inevitably informed and enriched by his experience in government at a watershed moment in history

Implementing Health Sector Reform in Central Asia Zuzana Feachem, Martin Hensher, Laura Rose, 1999 It is easy for reformers and their overseas advisers to develop conceptually strong plans for health sector reform that appeal to governments donors and academics Transforming these plans into successful action has proved to be extremely difficult Toward the goal of improving assistance to this sector the Economic Development Institute EDI of the World Bank held a seminar in Ashgabat Turkmenistan in June 1996 This publication provides a summary of the proceedings and papers presented at that seminar It was attended by delegations from five countries in Central Asia and from Azerbaijan and Mongolia The content of this volume emphasizes topics central to the restructuring of health sector financing and health care delivery systems at a time of transition to market economies and to democracy Maintaining and improving the health status of the population while preventing rapid escalation of health care expenditure were the recurrent themes throughout the seminar
