Reforming Women's Fashion, 1850-1920 Patricia A. Cunningham, 2003 This work focuses on the efforts toward reforming women's dress that took place in Europe and America in the latter half of the 18th century and the first decade of the 20th century and the types of garments adopted by women to overcome the challenges posed by fashionable dress It considers the many advocates for reform and examines their motives their

arguments for change and how they promoted improvements in women's fashion. Though there was no single overarching dress reform movement, it reveals similarities among the arguments posed by diverse groups of reformers, including especially the equation of reform with an ideal image of improved health. Drawing on a variety of primary and secondary sources in the USA and Europe, including the popular press, advice books for women, allopathic and alternative medical literature, and books on aesthetics, art, health, and physical education, the text makes a significant contribution to costume studies, social history, and women's studies.

Reforming Men and Women Rosemarie N. Stremlau, 2001 *Women and Monastic Reform in the Medieval West, C. 1000-1500* Julie Hotchin, Jirki Thibaut, 2023

New approaches to understanding religious women's involvement in monastic reform demonstrate how women's experiences were more ambiguous and multi-layered than previously assumed. Over the last two decades, scholarship has presented a more nuanced view of women's attitude to and agency in medieval monastic reform, challenging the idea that they were by and large unwilling to accept or were necessarily hostile towards reform initiatives. Rather, it has shown that they actively participated in debates about the ideas and structures that shaped their religious lives, whether rejecting, embracing, or adapting to calls for reform contingent on their circumstances. Nevertheless, fundamental questions regarding the gendered nature of religious reform are ripe for further examination. This book brings together innovative research from a range of disciplines to re-evaluate and enlarge our knowledge of women's involvement in spiritual and institutional change in female monastic communities over the period c. 1000–c. 1500. Contributors revise conventional narratives about women and monastic reform and earlier assumptions of reform as negative or irrelevant for women. Drawing on a diverse array of visual material and textual sources, it presents snapshots of reform from western Europe stretching from Ireland to Iberia. Case studies focussing on a number of different topics, from tenth-century female saints' lives to fifteenth-century liturgical books from the tenth-century Leominster prayerbook to archaeological remains in Ireland, from embroideries and tapestries to the rebellious nuns of Sainte Croix in Poitiers, offer a critical reappraisal of how monastic women and their male associates reflected individually and collectively on their spiritual ideals and institutional forms.

Reforming Jim Crow Kimberley Johnson, 2010-04-16

Historians of the Civil Rights era typically treat the key events of the 1950s—Brown v. Board of Education, sit-ins, bus boycotts, and marches—as a revolutionary social upheaval that upended a rigid caste system. While the 1950s was a watershed era in Southern and civil rights history, the tendency has been to paint the preceding Jim Crow era as a brutal system that featured none of the progressive reform impulses so apparent at the federal level and in the North. As Kimberley Johnson shows in this pathbreaking reappraisal of the Jim Crow era, this argument is too simplistic and is true to neither the 1950s nor the long era of Jim Crow that finally solidified in 1910. Focusing on the political development of the South between 1910 and 1954, Johnson considers the genuine efforts by white and black progressives to reform the system without destroying it. These reformers assumed that the system was there to stay and therefore felt that they had to work within it in order to modernize the South.

Consequently white progressives tried to install a better meaning more equitable separate but equal system and elite black reformers focused on ameliorative rather than confrontational solutions that would improve the lives of African Americans Johnson concentrates on local and state reform efforts throughout the South in areas like schooling housing and labor Many of the reforms made a difference but they had the ironic impact of generating more demand for social change among blacks She is able to show how demands slowly rose over time and how the system laid the seeds of its own destruction The reformers commitment to a system that was less unequal albeit not truly equal and more like the North led to significant policy changes over time As Johnson powerfully demonstrates our lack of knowledge about the cumulative policy transformations resulting from the Jim Crow reform impulse impoverishes our understanding of the Civil Rights revolution Reforming Jim Crow rectifies that

A Respectable Woman Jane E. Dabel, 2008 In the nineteenth century New York City underwent a tremendous demographic transformation driven by European immigration the growth of a native born population and the expansion of one of the largest African American communities in the North New York s free blacks were extremely politically active lobbying for equal rights at home and an end to Southern slavery As their activism

increased so did discrimination against them most brutally illustrated by bloody attacks during the 1863 New York City Draft Riots The struggle for civil rights did not extend to equal gender roles and black male leaders encouraged women to remain in the domestic sphere serving as caretakers moral educators and nurses to their families and community Yet as Jane E Dabel demonstrates separate spheres were not a reality for New York City s black people who faced dire poverty a lopsided sex ratio racialized violence and a high mortality rate all of which conspired to prevent men from gaining respectable employment and political clout Consequently many black women came out of the home and into the streets to work build networks with other women and fight against racial injustice A Respectable Woman reveals the varied and powerful lives led by black women who despite the exhortations of male reformers occupied public roles as gender and race reformers

The First of Causes to Our Sex Daniel S. Wright,2006-09-12 *The First of Causes to Our Sex* is a study of the first movement in the United States for social change by and for women Female moral reform in the 1830s and 40s was a campaign to abolish sexual vice and the sexual double standard and to promote sexual abstinence among the young as they entered the marriage market The movement has earned a place in U S women s history but most research has focused on it as an urban phenomenon and sought its significance in relation to the cause of women s rights or to the regulation of prostitution This study explores the appeal of moral reform to rural women who were the vast majority of its constituency and sees it as a response to seminal changes in family formation and family size in the context of an increasingly market oriented and mobile society It was led by Yankee women who were fired by Second Great Awakening revivals and supported by reformist clergy *The Oxford Handbook of Women and Gender in Medieval Europe* Judith M.
