Refuge Australia Australias Humanitarian Record:

Cultures in Refuge Anna Hayes, 2016-05-13 New formulations of globalisation have radically altered how people conceptualize the movement of people ideas and capital throughout the globe with questions of securitisation and transnational sentiment re shaping long standing Western concepts of asylum and human rights Questioning the manner in which the reception of sanctuary in modern Australia changes migrants sense of belonging this interdisciplinary volume focuses on the disjuncture between receiving sanctuary and feeling secure in one s self and community With emphasis on the formation and expression of migrant and refugee cultures the book deliberately blurs the distinction between migrants and refugees in order to engage more directly with the subjectivities of lived experience and social networks Presenting research from the fields of sociology media studies politics international relations and history *Cultures in Refuge* places explores the manner in which notions of asylum and refuge affect the processes of articulating and negotiating identities *Australia and Human Rights* Caroline Fleay, 2020-05-22 The Howard government s term in office in Australia from 1996 to 2007 is often portrayed as one where Australia retreated from its international human rights obligations Throughout this era a range of government policies attracted much criticism for downplaying or ignoring human rights Less attention has been given to the human rights policies of previous Australian governments and the heritage they provided for the Howard government Situating the policies of the Howard government within those of previous Australian governments provides a greater understanding of human rights in Australia This book examines human rights policies in Australia in three key areas human rights in Australia China relations responses to asylum seekers and refugees and engagement with human rights at the United Nations These areas highlight where the Howard government clearly deviated from some of the more positive human rights policies of its predecessors The book also challenges the perception that Australia has a proud history of human rights policy by revealing where the Howard government continued or revived policies of earlier Australian governments that were not consistent with international human rights standards Such an understanding of human rights in Australian policy is imperative for informed analysis and debate on current and future policy trends *Refugee Journeys* Jordana Silverstein, Rachel Stevens, 2021-02-04 *Refugee Journeys* presents stories of how governments the public and the media have responded to the arrival of people seeking asylum and how these responses have impacted refugees and their lives Mostly covering the period from 1970 to the present the chapters provide readers with an understanding of the political social and historical contexts that have brought us to the current day This engaging collection of essays also considers possible ways to break existing policy deadlocks encouraging readers to imagine a future where we carry vastly different ideas about refugees government policies and national identities **Memory and Family in Australian Refugee Histories** Alexandra Dellios, 2020-06-09 This book revisits Australian histories of refugee arrivals and settlement with a particular focus on family and family life It brings together new empirical research and methodologies in memory and oral history to offer multilayered

histories of people seeking refuge in the 20th century Engaging with histories of refugees and family and how these histories intersect with aspects of memory studies including oral history public storytelling family history and museum exhibitions and objects the book moves away from a focus on individual adults and towards multilayered and rich histories of groups with a variety of intersectional affiliations The contributions consider the conflicting layers of meaning built up around racialised and de racialised refugee groups throughout the 20th century and their relationship to structural inequalities their shifting socio economic positions and the changing racial and religious categories of inclusion and exclusion employed by dominant institutions As the contributors to this book suggest family functions as a means to revisit or research histories of mobility and refuge This focus on family illuminates intimate aspects of a history and the emotions it contains and enables complicating the passive victim stereotype often applied to refugees As interest in refugee integration continues to rise as a result of increasingly vociferous identity politics and rising right wing rhetoric this book offers readers new insights into the intersections between family and memory and the potential avenues this might open up for considering refugee studies in a more intimate way This book was originally published as a special issue of Immigrants Minorities The Politics of Human Rights in Australia Louise Chappell, John Chesterman, Lisa Hill, 2009-05-28 Australia has traditionally lacked a strong rights culture While fairness and equality have been proudly exalted as trademarks of the national mindset the authors of The Politics of Human Rights in Australia argue that these same characteristics may equate to a form of cultural complacency The book offers the first comprehensive account of Australia's protection of human rights from a political science perspective Addressing the key debates surrounding human rights in Australia the authors ask Why are voting rights so critical in the Australian context Should Australia adopt a bill of rights in an age of terror What are Australia's responsibilities to global and regional refugee crises How can reconciliation between indigenous and non indigenous Australians be facilitated Written by three respected academics at the forefront of their fields The Politics of Human Rights in Australia offers clarity and insight into the complex issues surrounding the human rights debate in Australia The Longest Journey Peter Browne, 2006 Over the past five years more than 25 000 Africans have arrived in Australia under the federal government's humanitarian resettlement program Some have spent a decade or more in refugee camps in remote regions of East Africa years of inadequate food enforced inactivity and the threat of violence Hundreds of thousands are still stranded in the camps Australia is one of only a dozen western countries that resettle refugees but how fair is the resettlement process Does it always help the neediest of all refugees **Seeking Asylum in Israel** Gilad Ben-Nun, 2016-12-18 Since 2005 approximately 70 000 asylum seeking refugees from Sudan and Eritrea have entered Israel This along with the highly publicised anti African immigrant riots in Israel in 2012 and 2014 and the current global refugee crisis has meant that the issue of African migration has become increasingly controversial Here Gilad Ben Nun looks at this phenomenon in its historical and contemporary contexts and compares it to the wider debates surrounding the Palestinian refugees in the region and the

concept of their right of return He argues that this newer African migration issue has forced Israel to move from conceiving of itself as an exceptional state and now has to view itself as a more normal and universal entity Ranging as far back as Israel's important role in the ratification drafting of the 1951 Refugee Convention and drawing on a variety of methodologies and sources Ben Nun offers a wide ranging legal social and historical examination of asylum in Israel that sheds timely light onto themes of migration and identity across the Middle East This is essential reading for legal historians and lawyers as well as scholars working on migration studies and the history and politics of the Middle East Witnessing Australian Stories Kelly Jean Butler, 2017-07-28 This book is about how Australians have responded to stories about suffering and injustice in Australia presented in a range of public media including literature history films and television Those who have responded are both ordinary and prominent Australians politicians writers and scholars All have sought to come to terms with Australia's history by responding empathetically to stories of its marginalized citizens Drawing upon international scholarship on collective memory public history testimony and witnessing this book represents a cultural history of contemporary Australia It examines the forms of witnessing that dominated Australian public culture at the turn of the millennium Since the late 1980s witnessing has developed in Australia in response to the increasingly audible voices of indigenous peoples migrants and more recently asylum seekers As these voices became public they posed a challenge not only to scholars and politicians but also most importantly to ordinary citizens When former Prime Minister Kevin Rudd delivered his historic apology to Australia's indigenous peoples in February 2008 he performed an act of collective witnessing that affirmed the testimony and experiences of Aboriginal Australians The phenomenon of witnessing became crucial not only to the recognition and reparation of past injustices but to efforts to create a more cosmopolitan Australia in the present This is a vital addition to Transaction's critically acclaimed Memory and Narrative series **Picturing Citizenship** Fay Anderson, Jane Lydon, Melissa Miles, Amanda Nettelbeck, 2015-07-24 For many the conditions and privileges of citizenship and the access it provides to equal civil political and social rights are taken for granted Yet citizenship always implies histories of inclusion and exclusion and in settler nations with colonial roots the history of citizenship is entangled with the legacies of colonisation Looking beyond its legal definition to the wider historical processes through which citizenship and its associated ideas of rights and belonging have been imagined debated and found lasting form this collection considers the unique role of visual culture in defining contesting and advancing ideas of citizenship in settler national contexts from the 19th century to the present day Addressing citizenship's particular entanglements with colonial histories in contemporary settler nations the collection considers how images have shaped the meanings and experiences of citizenship from the colonial era through periods of mass global migration to contemporary geopolitical change and debates on Indigenous rights and recognition Contributors explore the role visual culture has played in imagining or interrogating ideas about belonging rights civic identity and the ideal citizen in societies that continue to grapple with their settler colonial origins They ask how image making may be used

to negotiate or contest the limits of citizenship whether as a legal or as an imagined cultural category and the role of visual culture in building relationships between citizens non citizens and the state This collection will provide a new and compelling history of citizenship and the ways it has been defined not only by historicising citizenship s visual imagery but by exploring its present effects and legacies **The Oxford Handbook of Refugee and Forced Migration Studies** Elena

Fiddian-Qasmiyeh, Gil Loescher, Katy Long, Nando Sigona, 2014 Refugee and Forced Migration Studies has grown from being a concern of a relatively small number of scholars and policy researchers in the 1980s to a global field of interest with thousands of students worldwide studying displacement either from traditional disciplinary perspectives or as a core component of newer programmes across the Humanities and Social and Political Sciences Today the field encompasses both rigorous academic research which may or may not ultimately inform policy and practice as well as action research focused on advocating in favour of refugees needs and rights This authoritative Handbook critically evaluates the birth and development of Refugee and Forced Migration Studies and analyses the key contemporary and future challenges faced by academics and practitioners working with and for forcibly displaced populations around the world The 52 state of the art chapters written by leading academics practitioners and policymakers working in universities research centres think tanks NGOs and international organizations provide a comprehensive and cutting edge overview of the key intellectual political social and institutional challenges arising from mass displacement in the world today The chapters vividly illustrate the vibrant and engaging debates that characterize this rapidly expanding field of research and practice *Political Memories and*

Migration J. Olaf Kleist, 2016-11-15 This book explores the relationship between political memories of migration and the politics of migration following over two hundred years of commemorating Australia Day References to Europeans original migration to the continent have been engaged in social and political conflicts to define who should belong to Australian society who should gain access and based on what criteria These political memories were instrumental in negotiating inherent conflicts in the formation of the Australian Commonwealth from settler colonies to an immigrant society By the second half of the twentieth century the Commonwealth employed Australia Day commemorations specifically to incorporate new arrivals promoting at first citizenship and later on multiculturalism The commemoration has been contested throughout its history based on two distinct forms of political memories providing conflicting modes of civic and communal belonging to Australian politics and policies of migration Introducing the concept of Political Memories this book offers a novel understanding of the social and political role of memories not only in regard to migration A History of Displaced

Knowledge: Austrian Refugees from National Socialism in Australia Philipp Strobl, 2025-04-07 This book follows ideas and knowledge that migrated in the cultural baggage of Austrian refugees who fled to Australia in 1938 and 1939 because of National Socialism By telling and comparing the stories of twenty six different lives it highlights the processes of acquisition transportation translation and adaption of ideas knowledge and cultural capital This provides a unique and colourful insight

into the impact of a group of refugees on their host society over several decades As the book shows there were many different ways in which displaced people relied upon their social and cultural capital to first escape their oppressive homeland and then build new lives Once they had arrived in Australia they used very different approaches to negotiate and promote their knowledge and to exercise agency

Hope, Solidarity and Death at the Australian Border Michelle Jasmin Dimasi,2022-01-25 Forced displacement affects millions annually as they search for safety yet how many of us take the time to truly understand the asylum seeker experience Not only confronted with the risks of irregular migration asylum seekers must navigate border politics imposed by countries seeking to deter and punish those in need Nameless bodies who wash up on the shores globally have become a contemporary norm As humans are all deeply connected a moral responsibility exists to comprehend why asylum seekers seek refuge even if the stakes of death are high When understanding prevails compassion and welcome often follow However policies of deterrence signalling to refugees that they are not welcome have overshadowed an appreciation to understand Despite asylum seeker deaths being well publicised government policies that focus on preventing illegal immigration often resonate with the populous The question arises as to why a lack of understanding and hospitality is the dominant discourse Possible clues are found on faraway Christmas Island an Australian outpost located in the Indian Ocean situated much closer to Indonesia than Australia This book the result of extensive research reveals how Australia s asylum seeker policy plays out at the Australian border It examines how Christmas Islanders responded to asylum seekers and provides insights into why

humans respond to strangers in need or turn them away It opens the aperture for future discussions around the global complexities of welcoming asylum seekers host communities and immigration border policies and encourages replacing asylum seeker border deaths with hope and solidarity
