Ellison, 2007-07-03 When football coach Tiger Ellison was faced with his first losing season ever he had to muster all the creative will he had acquired since childhood to turn the season around In doing so he invented the most wide open productive fan pleasing scheme of aerial football the game had ever seen He shared his philosophy with the coaching world in 1965 by writing a book called Run and Shoot Football Offense of the Future His dramatic offense changed the way football has been played ever since all the way from the Little Leagues to the NFL But this story transcends football taking place during the social turbulence of the 20th Century As educator and coach Tiger dedicated his life to tapping into the fighting spirit of each of his youngsters regardless of race creed or social status He challenged each to build the character confidence and courage to pursue a noble cause in the classroom on the gridiron of American football and in life It is a poignant reminder of the power each of us has within us to become a real winner Tiger Ellison had a passion for life country and sport that were absolutely contagious for those around him When you read his story you may laugh a little you may learn some things about football strategy but I am certain you will love Tiger as we players did and see why his positive philosophy of life influenced all of us in a very special way Dr Rex Kern President MSB Financial United Midwest Savings Bank 1968 Buckeye National Championship Quarterback and 1969 Rose Bowl MVP Member of The Rose Bowl Hall of Fame This is one football story that is not about power and money rather a powerful and creative mind that left its imprint forever on players coaches and modern offensive football At a time when football has become big business Tigers philosophy will remind us all why we love the game what we can learn from it and who we can become by it Earle Bruce Former Head Football Coach The Ohio State University A real masterpiece Every teacher coach and mothers son should have and use this material Rocko Joslin Retired Director of Operations Armco Inc Ashland Kentucky Former Captain Ohio State Buckeyes 1953 Visit www.tigerellison.com The Perfect Pass S. Scholastic Coach ,1988 *Wampus Attack* Jeffrey Kozlovsky,2016-02-27 Years ago one coach Glenn Tiger Ellison the creator of the Run and Shoot offense predicted that the Run and Shoot would be the offense of the future and teams would put the oval shaped ball on display In many respects this statement seems to have come true The Run and Shoot started a revolution decades ago and we can see the fruits of it today in the 21st Century Today spread offenses practically dominate the football scene They may not look like the original Run and Shoot systems but in reality they use many of the same principles that derive from the Run and Shoot In effect the spread offenses of today are basically just different versions or hybrids of the Run and Shoot There may be differences between a Run and Shoot and a Spread Formation style of offense but the basic philosophy is the same pass first run second and take what the defense gives you The most common characteristic in both styles of offenses is that they put the oval ball on display THE WAMPUS ATTACK portrays a basic version of the Run and Shoot offense Its main purpose is to help struggling smaller teams to be more successful offensively A team blessed with great physical talent is what every coach hopes for it certainly helps make coaching easier But what if a team does not have much if any physical talent at all What does a coach do Does he just surrender to the idea of a long difficult season The answer is NO The coach should do everything possible to help the team succeed Use brain power to find the solution The Wampus Attack s silent weapon is pre snap motion Football is a numbers game and it s to the offense s advantage if it outnumbers defenders at the point of attack We use motion to gain a numbers advantage Outnumbering the defense helps not only the passing attack but also the running attack The Wampus Attack s simple motion rule not only gives you a pre snap understanding of the defense but it also allows for an automatic changing of a play silently without the use of quarterback audibles This simplifies the offense reduces the quarterback s workload and helps to lessen the odds of calling a bad play
