Geopolitics and Energy Security Policies in the Caspian Region Justyna Misiągiewicz,2024-05-13 The analysis of geopolitics and energy security policies in the Caspian region is a challenging research task This is because of the specific development of international relations in this region and the evolution of its importance in the context of the functioning of the global energy market Due to its special geopolitical location in central Eurasia and at the junction at the world s largest trading routes the region is gaining in importance both politically and economically in contemporary international relations and becoming a place where actors involved satisfy the need for energy security *Contemporary Russo-Turkish Relations* Ali Askerov,2018-06-20 The Syrian Civil War started in March 2011 and still continues It causes death turmoil humanitarian crisis and mass migration in the region Numerous state and non state actors are involved in this multi sided armed conflict On 24 November 2015 Turkey shoots down a Russian fighter jet on its border and this event becomes the turning point in Russo Turkish relations An economic and psychological war starts between Moscow and Ankara which damages their good relations existed before the crisis Despite the crisis the sides to the conflict understand that they need each other for their own benefits and look for reconciliation Russia a supporter of the Assad government in Syria does not want to lose Turkey as a friend Turkey an energy partner of Russia needs Russia to balance the power relations in the region They are two neighboring countries with strong historical socio economic ties that need to be restored The reconciliation process is not easy and requires some third party role The PYD YPG centered US policy in Syria affects Turkey s strategies Suicidal Behavior in Muslim Majority Countries S. M. Yasir Arafat,Mohsen Rezaeian,Murad M. Khan,2024-06-07 The book is about suicidal behavior in Muslim majority countries Islam is the second largest religion in the world There are also sizable Muslim populations in non Islamic countries Suicide is strongly prohibited in Islam and based on this tenet suicide and self harm remain criminalized acts in many Islamic countries When compared to the global estimates for suicide rates and to non Islamic countries Muslim majority countries have lower rates indicating that Islamic faith and practice may be protective against suicidal behaviors However several factors such as criminal status stigma toward suicide extreme dearth of research low quality data and under reporting make it difficult to draw any firm conclusions Hence this book aims to do a deeper study of suicidal behaviors in Muslim majority countries covering epidemiology risk factors and the challenges of suicide prevention in Muslim majority countries Crossroads and Conflict Gary K. Bertsch,Cassady B. Craft,Scott A. Jones,Michael D. Beck,2013-10-08 The world s second largest reserves of petroleum lie beneath the land locked Caspian Sea making the Caucasus of vital importance to both regional and global economic and security interests This book brings together experts from the US Russia and the Caucasus to examine the issues of conflict foreign policy tradeoffs and security in the region It takes into account the geopolitical factors Western and Russian involvement and the interaction between domestic and

external pressures Crossroads and Conflict looks at the challenges faced by these countries and examines the possibilities for future peace and prosperity in the region *Oil and Geopolitics in the Caspian Sea Region* Bülent Aras, Michael P.

Croissant, 1999-12-30 The opening of the Caspian Sea basin to Western investment following the breakup of the Soviet Union produced a major contest for access to the region's vast energy reserves on the part of powers as close as Russia Turkey and Iran and as far away as Japan and the United States Indeed the struggle to exploit Caspian oil has been one of the most monumental geopolitical developments of the post Cold War era as external powers vie for political economic and military influence in a region brimming not only with oil but also with ethnic conflicts and historical animosities The coming decade of rapidly increasing demand for energy will ensure the continued interest and engagement of external powers with often competing geopolitical agendas Thus the geopolitical developments spawned by the opening of the Caspian Sea are likely to continue to far outweigh the actual impact of Caspian oil on world energy markets This collection of essays by prominent scholars and international experts offers several important and often conflicting interpretations of the events unfolding along the shores of the world's oldest oil producing region *The Bolsheviks and the Russian Empire* Liliana Riga, 2012-11-12 This comparative historical sociology of the Bolshevik revolutionaries offers a reinterpretation of political radicalization in the last years of the Russian Empire Finding that two thirds of the Bolshevik leadership were ethnic minorities Ukrainians Latvians Georgians Jews and others this book examines the shared experiences of assimilation and socioethnic exclusion that underlay their class universalism It suggests that imperial policies toward the Empire's diversity radicalized class and ethnicity as intersectional experiences creating an assimilated but excluded elite lower class Russians and middle class minorities universalized particular exclusions as they disproportionately sustained the economic and political burdens of maintaining the multiethnic Russian Empire The Bolsheviks social identities and routes to revolutionary radicalism show especially how a class universalist politics was appealing to those seeking secularism in response to religious tensions a universalist politics where ethnic and geopolitical insecurities were exclusionary and a tolerant imperial imaginary where Russification and illiberal repressions were most keenly felt *Conflict Areas in the Caucasus and Central Asia* Arda Özkan, Göktürk

Tüysüzoglu, 2022-01-25 The Caucasus region and Central Asia covers a large part of the Eurasian Both regions where Russia and China have a serious influence and visibility also have a location that reflects the hegemonic expectations of both these actors In this context domestic political developments and even internal conflicts in the region can be linked to the policies of Russia and China to a certain extent and have the potential to affect the motives of these two powers Although Central Asia is rich in natural resources it is landlocked and has lagged other nations in terms of agricultural production and industrial development Although the Caucasus is divided into the North the territory of Russia and the South where three independent states are located it is insufficient in terms of production and development The Caucasus stands out especially with energy projects and its feature of being a commercial corridor **Minerals Yearbook**, 2002 **The Statesman's Yearbook**
