Sea Quest Global Blue Water Adventuring In Small Craft:

Sea Quest; Global Blue-Water Adventuring in Small Craft Charles A. Borden, 1972-04-01 **Contact And Exchange in the Ancient World** Victor H. Mair, 2006-01-01 Presents empirical evidence on a wide range of cultural phenomena in history and thereby demonstrating the processes whereby cultural traits are acquired and modified the dynamics of transmission and transformation This book pays attention to biological organisms on the one hand and to developments spanning an entire continent on the other **The Sea Voyage Narrative** Robert Foulke, 2013-10-11 From The Odyssey to Moby Dick to The Old Man and the Sea the long tradition of sea voyage narratives is comprehensively explained here supported by discussions of key texts **Ancient Ocean Crossings** Stephen C. Jett, 2017-06-06 Paints a compelling picture of impressive pre Columbian cultures and Old World civilizations that contrary to many prevailing notions were not isolated from one another In Ancient Ocean Crossings Reconsidering the Case for Contacts with the Pre Columbian Americas Stephen Jett encourages readers to reevaluate the common belief that there was no significant interchange between the chiefdoms and civilizations of Eurasia and Africa and peoples who occupied the alleged terra incognita beyond the great oceans More than a hundred centuries separate the time that Ice Age hunters are conventionally thought to have crossed a land bridge from Asia into North America and the arrival of Columbus in the Bahamas in 1492 Traditional belief has long held that earth's two hemispheres were essentially cut off from one another as a result of the post Pleistocene meltwater fed rising oceans that covered that bridge The oceans along with arctic climates and daunting terrestrial distances formed impermeable barriers to interhemispheric communication This viewpoint implies that the cultures of the Old World and those of the Americas developed independently Drawing on abundant and concrete evidence to support his theory for significant pre Columbian contacts Jett suggests that many ancient peoples had both the seafaring capabilities and the motives to cross the oceans and in fact did so repeatedly and with great impact His deep and broad work synthesizes information and ideas from archaeology geography linguistics climatology oceanography ethnobotany genetics medicine and the history of navigation and seafaring making an innovative and persuasive multidisciplinary case for a new understanding of human societies and their diffuse but interconnected development **Richard Halliburton and the Voyage of the Sea Dragon** Gerald Max, 2023-08-18 Richard Halliburton 1900 1939 considered the world's first celebrity travel writer swam the length of the Panama Canal recreated Ulysses' voyages in the Mediterranean crossed the Alps on an elephant flew around the world in a biplane and descended into the Mayan Well of Death all the while chronicling his own adventures Several books treat his life and travels yet no book has addressed in detail Halliburton's most ambitious expedition an attempt to sail across the Pacific Ocean in a Chinese junk Set against the backdrop of a China devastated by invading Japanese armies and the storm clouds of world war gathering in Europe Halliburton and a crew of fourteen set out to build and sail the Sea Dragon a junk or ancient sailing ship from Hong Kong to San Francisco for the Golden Gate International Exposition After battling through crew conflicts and

frequent delays the Sea Dragon set sail on March 4 1939 Three weeks after embarking the ship encountered a typhoon and disappeared without a trace Richly enhanced with historic photographs Richard Halliburton and the Voyage of the Sea Dragon follows the dramatic arc of this ill fated expedition in fine detail Gerry Max artfully unpacks the tensions between Halliburton and his captain John Wenlock Welch owing much to Welch s homophobia and Halliburton s unconcealed homosexuality And while Max naturally explores the trials and tribulations of preparing constructing and finally launching the Sea Dragon he also punctuates the story with the invasion of China by the Japanese as Halliburton and his letters home reveal an excellent wartime reporter Max mines these documents many of which have only recently come to light as well as additional letters from Halliburton and his crew to family and friends photographs films and tape recordings to paint an intricate portrait of Halliburton s final expedition from inception to tragic end Encyclopedia of American Literature of the Sea and Great Lakes Jill B. Gidmark,2000-11-30 The sea and Great Lakes have inspired American authors from colonial times to the present to produce enduring literary works This reference is a comprehensive survey of American sea literature The scope of the encyclopedia ranges from the earliest printed matter produced in the colonies to contemporary experiments in published prose poetry and drama The book also acknowledges how literature gives rise to adaptations and resonances in music and film and includes coverage of nonliterary topics that have nonetheless shaped American literature of the sea and Great Lakes The alphabetical arrangement of the reference facilitates access to facts about major literary works characters authors themes vessels places and ideas that are central to American sea literature Each of the several hundred entries is written by an expert contributor and many provide bibliographical information While the encyclopedia includes entries for white male canonical writers such as Herman Melville and Jack London it also gives considerable attention to women at sea and to ethnically diverse authors works and themes The volume concludes with a chronology and a list of works for further reading **MotorBoating** ,1974-02 Saxon and Medieval Antecedents of the English Common Law Kurt von S. Kynell,2000 This volume provides an interdisciplinary approach to legal history utilizing law linguistics cultural anthropology and social history to document and analyze the slow but steady growth of the English common law from Anglo Saxon times to the 19th century MotorBoating ,1973-08 **MotorBoating** ,1973-12 **The Zuni Enigma** Nancy Yaw Davis,2001-11 Did a group of 13th century Japanese journey to the American Southwest there to merge with the people language and religion of the Zuni tribe That is the question proposed by an anthropologist in The Zuni Enigma 16 illustrations **MotorBoating** ,1974-03 **The Oxford Encyclopedia of Maritime History: Actium, Battle of** John B. Hattendorf,2007 Here is an encyclopedia of maritime history that in scope and depth rivals the expansiveness of the sea itself The Encyclopedia covers the entire history of seafaring from ancient Egyptian shipbuilders to Viking sea raiders from Nelson and the Napoleonic Wars to the voyages of Cheng Ho from the European conquerors of the New World to the nuclear submarines and supertankers of today Placing maritime affairs in their larger historical context the Encyclopedia shows how

seafaring has both reflected and influenced the major economic cultural military and political developments in world history In four volumes and nearly 1 000 signed articles by an international group of historians and naval officers the Encyclopedia offers a uniquely integrated approach emphasizing the connections between maritime history and many related fields including naval history shipbuilding navigation and scientific instrumentation maritime art and literature commerce and economics exploration and maritime geography oceanography and hydrology and international maritime law In so doing the Encyclopedia provides in a single reference work a wealth of information that can otherwise be found only with the help of an extensive library Alphabetical organization intelligible writing plentiful illustrations cross references bibliographies a synoptic outline and topical index all make The Oxford Encyclopedia of Maritime History an inviting easy to use reference for researchers and enthusiasts alike
