

The story leaves off at 1935 in the reign of Hari Singh (1925-47, died 1961) because events of the period from 1931 onwards belong to another age of politics, which does not come within the subject of this article. Developments down to 1935 are taken note of, especially British assumption of direct control over some of the border areas of the state, while preserving the form and nominal sovereignty over those areas of the Kashmir durbar.

This article is a precursor to a larger study of the subject to be made on the basis of the sources cited in the footnotes of the article, supplementary bibliography given at the end, and also some other sources, especially in Tibetan and Chinese, which are not often used for the study of the social history and foreign relations of Kashmir. Known sources in Sanskrit and Persian shall be used, as listed in the bibliography.

We know very little of the early history of Kashmir although some archaeological sites have been excavated, uncovering remains of stupas, temples, and other structures dating no farther back than the sixth century A.D. Kalhana's sites, mentioned in his *Rajatarangini*, were identified with great care by Aurel Stein.¹ Kashmir, known to different civilizations by different names, was well situated to receive cultural influences from India, Tibet, China, Turkestan, Gandhara, Iran, and the Arabs further west. Of these, China was rather distant and did not directly touch on Kashmir territorially; China maintained a channel with this area because of the need to control the menacing activities of the Hsiung-nu and Yueh-chi over several centuries of history, both of them operating for some time at the same time, though not in tandem. Turkestan was inhabited by numerous Turkic peoples (who may or may not have been the original inhabitants of the area, of whom we know almost nothing), with a later inter-mixing of Mongols in some areas.

In the medieval ages, the western part, known later as Western or Russian Turkestan, had tribes like the Kazakh, Kyrghyz, Tajik, Uzbek, and Turkmen. On the northern side of the western part stood Russia, which became a factor in Asiatic history after its unification as a single state in the fifteenth century. The eastern part, known as Eastern or Chinese Turkestan, had Dzungar Mongols, Uyghurs, and Turkic peoples like Khoja, Kazakh, Kyrghyz, and Tajik. Iran, originally peopled by Persians (perhaps fire-worshippers, like the minority Zoroastrians), later came under Islamic influence and gave rise to and remained home to Shi'i Islam deriving from the Imam 'Ali ibn Abu Talib, the fourth caliph (A.D. 656-61) and the Prophet's son-in-law. The Zoroastrians of

The Twelve-Note Music of Anton Webern Kathryn Bailey,1991 This important new study reassesses the position of Anton Webern in twentieth century music The twelve note method of composition adopted by Anton Webern had profound consequences for composers of the next generation such as Stockhausen and Boulez who saw Webern s music as revolutionary In her detailed analyses however Professor Bailey demonstrates a fundamentally traditional aspect to Webern s creativity when describing his own music Professor Bailey analyses all Webern s twelve note works from Op 17 to Op 31 i e the instrumental and vocal music written between 1924 and 1943 These analyses draw on sketch material recently made available at the Paul Sacher Foundation in Basel and include transcriptions of little known drafts and sketches A most valuable aspect of the book is the inclusion in appendices of such materials as a complete explanation of the row content of each work the correct prime form of each of the rows from Op 20 onwards with a matrix constructed for each and exhaustive row analyses

United States Alaska has evolved from military insignificance to high strategic priority in the 142 years since its purchase from Russia in 1867 The reasons for this dramatic shift derive from a correlation of geography foreign policy domestic politics and military technology Historically the role of the armed forces in Alaska has been large and diverse Alaska was one of the two principal territorial purchases made by the United States between 1803 and 1867 adding nearly 1 5 million square miles to America s national domain Smaller by the size of Texas than Jefferson s Louisiana Purchase Alaska unlike all of the territories and states carved out of the former languished in obscurity and isolation and was administered as a colonial dependency by the military and other branches of the federal government its official territorial status and government notwithstanding While sharing many common aspects of frontier settlement and Western history with territories such as Montana the Dakotas Wyoming and Colorado Alaska presented special challenges peculiar to a non contiguous arctic and sub Arctic environment separated from the United States by a foreign power Indeed only the defeated South under Reconstruction experienced the same degree of military occupation and martial law Alaska also has the unique distinction in the American experience of belonging to Imperial Russia before it became of interest to American expansionists Still others found Alaska tempting and pursued their own designs North of 53 The Spanish British Canadians and even the French plied Alaska s waters and made their claims to Alyeska the Great Land And it is with these clashing imperial ambitions that this three volume history begins Bulletin of Bibliography ,1912 *Bulletin of Bibliography and Magazine Subject-index* ,1907 *Education pamphlets* ,1926 **The Cultural Revolution in China** James C.F.
