Looking Back Joseph L. Bruneni, 1994 **Playbills to Photoplays** New England Vintage Film Society Inc., 2010-12-01

They were pioneers in the most glamorous business in the world and you only know half of their story *Playbills To Photoplays* reveals colorful episodes in the lives of the stars before they became stars Everyone saw them but few knew where they came from This collection of essays follows some of the most famous names in show business from Vaudeville and Broadway to Hollywood revealing a part of their lives that movie historians have neglected until now I think this book is terrific It s a must read for any fan of the silver screen and the days when movie stars were real stars Morgan Loew great grandson of Adolph Zukor founder Paramount Pictures and Marcus Loew founder Loews Theaters and MGM Ms Loew s choice of performers to write about is amazingly diverse and fascinating from character actors like Conrad Veidt to major stars like Katharine Hepburn She has written a most compelling book about their transitions from stage to film many of the stories new to me Wonderful Joan Benny daughter of comedian Jack Benny one of America s greatest entertainment icons of the 20th century whose career included vaudeville radio movies and television A nice compilation of essays on film stars who made the transition from the stage to early talkies with essays on Al Jolson Mae West Eddie Cantor Harpo Marx Spencer Tracy Clark Gable Charley Grapewin Ed Wynn and the Morgans Frank and Ralph Some essays were much better than others I loved the one on the Morgans Burns and Allen Harpo Marx and Katharine Hepburn I would highly recommend the book as it gives you a good idea what vaudeville and the Broadway stage was like in the early 20 s and what it was about these stars that allowed them to make the transition Librarything com big stars as well as a raft of character actors and decorated with dozens of striking photos perceptive close ups that make for vibrant film criticism engaging profiles of Old Hollywood icons Kirkus Performers attempting to breakthrough will find this book inspirational An Aspiring Actor Motion pictures with recorded sound known as talking pictures or talkies signaled the end of silent films and created some of the greatest entertainment icons of the twentieth century *Playbills To Photoplays Stage Performers Who Pioneered the Talkies* introduces a new generation to the real life struggles and careers of talented hard working early twentieth century vaudeville and stage entertainers who migrated to sound film Twenty eight essays and over one hundred photographs examine the actors before during and after the revolutionary new sound film technology catapulted many of them to superstardom during Hollywood s Golden Age *Playbills To Photoplays Stage Performers Who Pioneered the Talkies* explains the social political economic historical and cultural issues that shaped each performer s body of work acting technique persona and public following over time Our Own Devices Edward Tenner, 2009-08-26 This delightful and instructive history of invention shows why National Public Radio dubbed Tenner the philosopher of everyday technology Looking at how our inventions have impacted our world in ways we never intended or imagined he shows that the things we create have a tendency to bounce back and change us The reclining chair originally designed for brief healthful relaxation has become the very symbol of obesity The helmet

invented for military purposes has made possible new sports like mountain biking and rollerblading The typewriter created to make business run more smoothly has resulted in wide spread vision problems which in turn have made people more reliant on another invention eyeglasses As he sheds light on the many ways inventions surprise and renew us Tenner considers where technology will take us in the future and what we can expect from the devices that we no longer seem able to live without *100 Years of Service to the Eyecare Professions* ,1994 **Looking Back** Joseph L. city and country and white and Black and they suggested ways to tackle those problems Today much of how we experience our information society reflects the influence of these enterprises This book explains both how the science of reading shaped our age and why with so called reading wars still plaguing schools across the nation it remains bitterly contested
