Larson,2012-12-06 Larson examines the changing relations between lords and peasants in post Black Death Durham This was a time period of upheaval and change part of the transition from medieval to modern

Many historians have argued about the nature of this change and its causes often putting forth a single all encompassing model Larson presses for the importance of individual choice and action resulting in a flexible human framework that provides a more appropriate explanation for the many paths followed in this period The theoretical side is balanced by an on the ground examination of rural life in Durham an attempt to capture the raw emotions and decisions of the period No one has really examined this most studies are speculative relying on theory or statistics rather than tracing the history of real people both in the immediate aftermath of the plague and in the longer term Durham is fortunate in that records survive in abundance for this period most other studies of rural society end at 1300 or 1348 As such this book fills a major gap in medieval English history while at the same time grappling with major theories of change for this transformative period
