Water-Related Death Investigation Kevin L. Erskine, Erica J. Armstrong, 2021-05-18 Nearly ten years after the first edition of Water Related Death Investigation Practical Methods and Forensic Applications water death cases continue to be improperly investigated The pathologist s report can determine the cause of death as a drowning but the manner of death is the most challenging to prove The report will not determine if a victim jumped into the water to commit suicide fell into the water accidentally or was pushed in as a homicidal act Many drowning cases do not reflect injury to the body so evidence collected at the scene plays a vital role The importance of an on scene body assessment cannot be overemphasized Often the body evidence begins to change rapidly upon recovery and may not be present during an autopsy Written statements on the scene are an effective tool to use to determine the accuracy of information given to arriving officers These statements need to be written by the witnesses themselves as well as the reporting person The Show Me technique can also help reveal discrepancies in a person s version of what occurred as well as aid in providing the most details to an incident as is humanly possible This second edition includes updated information on the latest technology to assist water death investigators Parabon Snapshot can help determine the faceless identity of skeletal remains and help locate potential suspects using the science of DNA Drones can aid in locating missing persons as well as human remains even months after death Updated information is provided regarding fingerprints from submerged objects and Carbon 14 can help determine the origin of a found corpse Key Features Thoroughly reviews the physiological aspects of drowning Reveals the investigative characteristics inherent to various scenes of water related deaths Highlights certain red flag indicators that may point to foul play or scene staging Outlines autopsy protocols trial preparation and expert witness testimony Provides numerous case studies and numerous illustrations to further clarify key points presented in the text Coauthored by a Master Water Death Investigator and an experienced forensic pathologist Water Related Death Investigation Practical Methods and Forensic Applications Second Edition merges the essentials of evidence collection and field investigation with autopsy best practices and laboratory testing It will continue to serve as a valuable resource for the various professionals involved in these cases

Child Soldiers in Context Artur Bogner, Gabriele Rosenthal, 2020 Long before IS and Boko Haram the messianic Lord's Resistance Army LRA in Uganda was considered as one of the most brutal rebel groups in Africa or in the world and as one which clearly specialized in the abduction recruitment and deployment of children and adolescents as combatants This book presents the results of a research project on former child soldiers and rebels in northern Uganda and their reintegration into society after their return to civilian life The authors investigate their biographies and the social figurations or relationships between them and members of the civilian population that emerged following their return not least in their families of origin and show which conditions facilitate or hinder their reintegration into civilian life The discussion also shows what distinguishes them from former members of rebel groups in the neighboring region of West Nile in respect of their history and how they were recruited as well as in their present situation and social position

Unnecessary Death Jacky Walker, 2011-12-21 Working with figures all her life Eve Somerset is persuaded to look in to the possibility of irregularities within the Greenway Holder Group of companies The Inland Revenue don't have any issues and the police cannot get involved in an unofficial capacity Eve is sceptical but agrees to see what she can find When the body found in the burnt out remains of a stolen car is identified as the editor of the local newspaper Bert Foxley everyone is in shock The unexpected arrival of James Foxley helps Eve in many ways but also adds to her confusion The investigation in to Bert Foxley's death is going nowhere no motive no

suspect Eve is getting nowhere fast as she continues to look into the workings of Greenway Holder getting more confused by the day But slowly inexorably the two events are drawing together A seemingly unconnected comment from James Foxley and the admission that his brother had been the recipient of a hate campaign that had gone on for years send Eve to the hospital bedside of a long time acquaintance where she hears a terrible confession Nothing to do with Berts death she is assured The problems at Greenway Holder and Eves conclusions are handed over to the police and in attempt to help keep an eye on the Greenway Holder staff possibly involved Eve makes a startling discovery that provides the police with both motive and suspect for the murder of the newspaper editor The trial of the accused which should be straight forward and uncomplicated proves to be anything but A Not Guilty plea and the arrival of a hot shot media savvy defence barrister and the revelations that follow turn the justice system upside down Its said you cant get away with murder Dont you believe it

thousand Acadians from across the Maritime provinces Quebec and the American northeast answered the call In *Lost in the Crowd* Gregory Kennedy draws on military archives census records newspapers and soldiers letters to present a new kind of military history focusing on the experiences of Acadian soldiers and their families before during and after the war He shows that Acadians were just as likely to enlist as their English speaking counterparts across the Maritimes though the backgrounds of the volunteers were quite different Kennedy tackles controversial topics often missing from the previous historiography such as underage recruits desertion and army discipline With the help of the 1921 Canadian Census he explores the factors that influenced post war outcomes both positive and negative for soldiers families and communities *Lost in the Crowd* offers a completely new and replicable approach to the traditional regimental history reconstituting the lives of soldiers and their families The focus on the Acadians a francophone minority group in the Maritime provinces significantly shifts our understanding of French Canada and the First World War
